

# **Program Matrix**

## Doctorate of Business Administration in Healthcare Management and Leadership

The Doctorate of Business Administration in Healthcare Management and Leadership (DBA-HCML) program is designed to help students perform applied research and transform mature learners into leaders. While focusing on advanced decision-making skills and techniques, doctorate candidates also hone the research and writing skills that are required for the high-level of responsibility in academic and business environments.

### **Program Competencies and Learning Objectives**

Upon successful completion of this program, students will be able to:

- Through written and oral communications demonstrate mastery of content knowledge in specialized healthcare fields for a higher level of understanding for decision making in complex organizational environments
- Demonstrate critical thinking skills for local and global healthcare business planning and decision making
- Identify and evaluate ethical behavior in healthcare to create plans that enhance processes and optimum return on investments
- Demonstrate effective leadership skills and entrepreneurial mindset for starting new ventures and growing innovative and collaborative economic development
- Apply research approaches to data collection, analysis, and synthesis for organizational effectiveness, change, and continuous improvement within a healthcare environment
