ACADEMIC CATALOG

January 1, 2024 – December 15, 2024

California Intercontinental University 2024 Catalog, Version 35

Copyright 2024 California Intercontinental University. All rights reserved.

No part of this catalog and/or materials may be reproduced in any form or by any means without written permission.

Purpose: The CIU Catalog is the official document for all academic policies, practices, and program requirements. The general academic policies and policies govern the academic standards and accreditation requirements to maintain matriculated status and to qualify for a degree, diploma, or certificate. California Intercontinental University has adopted a 'grandfather clause' policy such that students have a right to complete their academic programs under the degree requirements that existed at the time of their enrollment, to the extent that curriculum offerings make that possible. If program changes are made that affect student programs of study, every effort will be made to transition students into a new program of study that meets new graduation requirements. Students proceeding under revised academic policies must comply with all requirements under the changed program.

Reservation of Rights: California Intercontinental University reserves the right to make changes to the provisions of this catalog and its rules and procedures at any time, with or without notice, subject to licensing requirements.

This catalog is not a contract but merely a general outline of the programs being operated presently by the school. Certain policies may be grandfathered in at the time of enrollment and other revised policies supersede prior policies.

INTRODUCTION

Message from the President

Dear Future CIU Alumni,

Welcome to California Intercontinental University. California Intercontinental University helps you achieve your career goals through a multidimensional approach that is focused on your success. We are glad you have chosen to challenge yourself and partner with us for your academic endeavors.

We understand that working professionals can be challenged to meet their lifelong learning needs while balancing a busy professional and family life. That is why we leverage the latest technology to provide an online campus that will change the trajectory of your professional career in a manner that is engaging, challenging, and transformative.

Intercontinental is not just in our name, we embody it, by providing a global experience because we know that the future depends on global citizens. At CIU you will benefit from a virtual classroom and opportunities to collaborate with accomplished and aspiring leaders from all over the world. CIU offers an online learning environment augmented by a personal approach provided by our faculty and advisors who are committed to your success which combined make up for a unique CIU learning experience.

To ensure your academic success, our faculty, advisors, and administrative team avail themselves to serve and support you because together as lifelong learners we are excited to be part of the solution to the world's most complex challenges.

When you enroll at CIU you create an alliance that will be dedicated to your success and pursuit of lifelong learning.

Dr. Richard Madrigal
Campus President

History

Built by entrepreneurs for entrepreneurs, California Intercontinental University (CIU) has evolved from its early years. In 2003, California Intercontinental University was incorporated in the State of California and started its initial operations. In 2005, California Intercontinental University received California State Approval to grant undergraduate and graduate degrees. In 2009, California Intercontinental University was accredited by the Accrediting Commission of the Distance Education Accrediting Commission (DEAC). The Accrediting Commission of DEAC is listed by the U.S. Department of Education as a nationally recognized accrediting agency, and it is also a recognized member of the Council for Higher Education Accreditation (CHEA). In 2024, CIU was granted programmatic accreditation by the Accreditation Council for Business Schools and Programs (ACBSP) and became a proud member institution of the National Council for State Authorization Reciprocity Agreements (NC-SARA).

MISSION, VALUES, AND INSTITUTIONAL GOALS

Mission Statement

California Intercontinental University offers relevant, in-demand accredited online programs designed to enhance each student's professional career. CIU is committed to equip the next generation of business professionals, leaders, and entrepreneurs with the confidence, qualifications, and competence to succeed in the global business community and economy.

Institutional Values

- Professionalism
- Teamwork
- Results-Driven

Institutional Learning Outcomes

- ILO 1: Written Communication
- ILO 2: Oral Communication
- ILO 3: Critical Thinking
- ILO 4: Information Literacy
- ILO 5: Quantitative Reasoning
- ILO 6: Ethical Reasoning

Institutional Goals

- To enable students to pursue progressive distance education programs which offer them an interdisciplinary approach to the study of business, administrative disciplines, management, and leadership
- To provide up-to-date and challenging curricula with practical application for evolving global business environments, honing graduates' leadership abilities, and enabling them to gain business expertise
- To deliver a competitive distance education that provides quality instruction and services to all students
- To provide a platform for enhancing and developing critical thinking, analytical skills, investigative ability, and innovative problem-solving capabilities
- To provide opportunity for considerable personal and professional development
- To maintain an on-going institutional assessment program that covers student learning, curriculum delivery and effectiveness, faculty scholarly activity, student services, financial stability, and administrative leadership
- To become a reputable and recognized distance education university

GENERAL INFORMATION

The Academic Catalog provides prospective students with essential information that will assist them in their academic endeavors. Although every effort has been made to ensure the accuracy of the information provided herein, readers should note that laws, policies, rules, and regulations change from time to time and that these changes might alter the information contained in this publication.

Nothing in this Catalog shall be construed as, operate as, or has the effect of an abridgement or a limitation of any rights, powers, or privileges of the Board of Directors, its Chairman of the Board, or President. The Chairman of the Board or his designees are authorized by law to adopt, amend, or repeal policies and regulations that apply to the students. Further, addenda to the catalog may be released from time to time as new rules and policies are adopted during any academic year. More current and complete information may be obtained from the administrative office.

This Catalog does not constitute a contract between the student and CIU. The relationship of the student and California Intercontinental University is one governed by policies, rules and regulations that were adopted by the Board of Directors, the Chairman of the Board, and the President or duly appointed authorized administrators. The academic curricula and graduation requirements outlined herein apply to all students enrolled at CIU. This Catalog supersedes and replaces all previously published editions or versions and is made available to students online.

Catalog of Record

California Intercontinental University reserves the right to change its educational programs, academic requirements, course offerings, schedules, rules, regulations, policies, tuition, and fees, or to make other changes that the University considers essential and necessary for its continued growth. It is a common practice for CIU to clear students for graduation, as far as possible, after successful completion of the program requirements stated in the Catalog of Record, i.e., the Catalog in effect at the time of enrollment and under which they maintained continuous enrollment.

Each educational program must reflect the total number of units required in the Catalog under which the student petitions to graduate. If the latter requirement necessitates further course work, it will be kept to a minimum. The Academic Department will use the best balance of subject matter consistent with required credits and availability of specific courses to formulate an acceptable program within the pertinent total unit guidelines.

Although every effort has been made to ensure the accuracy of the information provided in this Catalog, students and readers who use this document are encouraged to notify CIU of any printing errors or inaccurate information. This request is in support of our deep commitment to providing comprehensive information to students.

Contact Information

The following information may be used to contact California Intercontinental University. Students should provide their name and student number on all communications with CIU staff.

Academic Year

An academic year is two semesters in length. A semester is comprised of 3 terms and each term is 6 weeks in length. The start of the academic year for each student is determined by the student's original start date. Any break in enrollment will result in the student starting a new academic year.

2024 Academic Calendar

Term	Financial Aid/ Enrollment Deadline	Term Begins	Add/Drop Date	Term Ends
Term 1:	Wednesday, December 29	Monday, January 1	Sunday, January 7	Sunday, February 11
Term 2:	Wednesday, February 7	Monday, February 12	Sunday, February 18	Sunday, March 24
Term Break: Monday, March 25, 2024 – Sunday, March 31, 2024				
Term 3:	Wednesday, March 27	Monday, April 1	Sunday, April 7	Sunday, May 12
Term 4:	Wednesday, May 8	Monday, May 13	Sunday, May 19	Sunday, June 23
*Holiday: Monday, May 27, 2024 – Memorial Day				
*Holiday: Wednesday, June 19, 2024 – Juneteenth				
Term Break: Monday, June 24, 2024 – Sunday, June 30, 2024

*Holiday: Thursday, January 1, 2026 – New Year's Day Holiday				

** Note: The CIU administrative office is closed on all holidays listed. However, the LearnCenter remains open during the holidays for students to access their classes.*

Academic Freedom

Statement of Academic Freedom

California Intercontinental University is fully committed to the protection of academic freedom to inquire and express truth in scholarly activity. A diversity of opinion, course content, instructional and learning methods is encouraged and considered as contributing to the growth of CIU and the professionalism of its faculty. Confident in the qualifications, experience, and expertise of its faculty, CIU encourages its faculty and teaching staff to exercise their individual judgments regarding the content of assigned courses, organization of topics and innovative pedagogic strategies/methods, providing only that these judgments are made within the context of appropriate published course descriptions, and that the instructional methods are those officially sanctioned by the University.

Freedom of Access

California Intercontinental University will maintain its educational programs open to all qualified applicants according to its published admissions policies and standards. Upon matriculation, students will have access to all CIU services, its physical facilities, and the CIU LearnCenter online platform. Access will be denied to individuals who are not CIU students.

ADMISSIONS

General Admissions Information

In accordance with Title IV of the Civil Rights Act of 1964, Title IX of Educational Amendments of 1972, Section 5 of the Rehabilitation Act of 1973, and Age Discrimination Act of 1975, CIU admits all qualified applicants regardless of age, sexual preference, gender, marital status, religion, national origin, creed, mental limitation, disability, or ethnic origin. CIU recruits and admits those students who have the potential to successfully complete the educational programs. The prospective student's motivation and interest in succeeding in his/her/their chosen business field are important factors for admission consideration as well as the student's academic background and qualifications.

Evaluation of the applicant's enrollment application is the necessary component for acceptance. Success in a distance education and learning program is highly dependent on the applicant's prior education and occupational experience enhanced by the motivation, self-discipline, and desire to succeed. The off-campus educational environment challenges a person's ability to manage his/her/their time, family, and work commitments, while devoting enough time to read and study the assigned instructional materials.

Admissions Requirements

All applicants for admission to California Intercontinental University must provide the following to the Admissions Office:

- A properly completed Application Form, available from the CIU website, www.caluniversity.edu
- Complete an in-depth interview with a CIU Admissions Advisor
- An application fee of \$45.00 (non-refundable after 7 days) if applicable
- Evidence of previous academic work: sealed official transcripts from an appropriately accredited institution will be required to document the applicant's prior education (official transcripts are to be sent by the issuing institution/college/university directly to the Office of the Registrar in no more than six (6) weeks from the

applicants start date). Students using financial aid must submit official transcripts before being awarded aid

- A clear and legible copy of government issued photo identification
- Completion of an Enrollment Agreement. Enrollment Agreement must be signed and received by CIU

Prospective students' applications will be reviewed and decided upon for admission on an individual basis by the Office of the Registrar and the Academic Department. An applicant may be asked to provide additional evidence of academic proficiency, if needed. Other specific admission requirements or prerequisites may be applicable for different degree programs as indicated in this Catalog. The Application Form and all related admission documents submitted to the University shall become the property of CIU and will not be returned.

Once an Application Form and all supporting documents have been received by the Admissions Office, approximately three to four weeks should be allowed for processing and notification of the applicant's admission status. Due to international official transcripts evaluation, this process may take longer for foreign applicants.

All applicants must be at least 18 years old and must have completed high school or its equivalent. The University uses self-certification to confirm the completion of high school or its equivalent.

Because CIU offers all programs 100% online, it does not require any vaccination documents from students. HEOA Section 488(a)(1)(E): amended HEA Section 485(a)(1) (20 U.S.C. 1092(a)(1)).

For Applicants Interested in Using Veteran's Affairs (VA) Benefits

Students using VA benefits are required to submit transcripts from all previously attended institutions. This includes military transcript, regardless of whether transfer credit is being sought for prior course work.

Additional Master's Admissions Requirements

In addition to the Admissions requirements listed above, an applicant for the Master's degree must submit and meet the following requirements:

- A copy of the applicant's Curriculum Vitae (CV) or professional resume
- At least 2 years professional experience in a corporate, business, or entrepreneurial environment
- Documentation of an official transcript evidencing completion of a baccalaureate degree from an institution recognized by the U.S. Department of Education.
- Minimum undergraduate cumulative grade point average (CGPA) of 2.0 (on a scale of 4.0)

Additional Doctorate Admissions Requirements

In addition to the Admissions requirements listed above, an applicant for the Doctorate degree must submit and meet the following requirements:

- A copy of the applicant's Curriculum Vitae (CV) or professional resume
- At least 3-5 years professional experience in a corporate, business, or entrepreneurial environment
- Documentation of an official transcript evidencing completion of a Master's degree from an institution recognized by the U.S. Department of Education.
- Minimum graduate cumulative grade point average (CGPA) of 3.0 (on a scale of 4.0)
- If the Master's degree earned is not in a business field as defined by CIU (accounting, business administration, economics, entrepreneurship, finance, international business, management, marketing, operations management, organizational leadership, organizational management & supply chain management), graduate-level pre-requisites may be required for admission into the Doctorate of Business Administration program.
- If no graduate-level degree has been earned, admission may be granted upon the following conditions:

- Bachelor's degree preferably completed within the field of the DBA program selected
- Documentation of completion of 30 graduate-level credit hours prior to admission
- Three (3) to five (5) years direct business, professional work experience
- A letter of application demonstrating professional experience and goals

Admissions Notices

All applicants accepted and matriculated into California Intercontinental University are sent an email notice of their acceptance to the University to the email address as provided at time of application. The notice will include their name, their chosen degree program, and their expected start date. Applicants that are:

- Accepted conditionally, and/or
- Accepted under probation status

will be sent an email with the requirements to be fully accepted to the University. Hard copy (paper) acceptance letters are provided upon request only.

Conditional Admissions

Applicants may be accepted to a degree program using an unofficial transcript showing graduation from and final cumulative GPA from their previously completed degree program. These applicants will be considered “conditionally” accepted to California Intercontinental University and will have one (1) semester to furnish an official copy of their transcript sent from the granting institution directly to the University.

Failure to provide an official transcript upon completion of the first semester will result in immediate withdrawal from the University. Upon receipt of the official transcript, a student may return to the University and resume their program at the next available term start.

The access to and use of Federal financial aid programs and other education funding may be directly linked to receipt of official transcripts by CIU. Some aid and aid programs may be negatively impacted by the failure to provide official documents.

Admission of International Students

California Intercontinental University welcomes applicants from around the world to study online with our US-based students. International students bring a wealth of experiences and expertise to the classroom, enriching the learning of all students.

International students must submit the following additional documents in addition to those listed above:

- Official transcripts from all prior college/university education are to be sent directly to the Office of the Registrar of California Intercontinental University within one (1) enrollment period not to exceed 12 semester credit hours from the start date
 - Transcripts from international educational institutions not in English require an evaluation.
- A clear and legible copy of the applicant's government-issued identification:
 - In English, or
 - If the identification is not in English, a certified translation* of the identification into English, or
 - A legible photocopy of the biographic information page of the applicant's passport with:
 - Name
 - Date of birth
 - Photograph

- Expiration date
- Signature
- All application documents not in English must be translated prior to submission

Non-academic document (any document other than academic transcripts) translations may be conducted by any reputable company of the applicant's choosing.

Once the Admissions Office receives an Application Form, official transcript evaluation and all required supporting documents, the processing of the international student's admission status may take about five (5) to six (6) weeks.

English Language Proficiency

Distance education administration and instruction at California Intercontinental University is offered in the English language. California Intercontinental University does not provide remedial education in the English language. During the admission process, special attention will be paid to the applicant's ability to read, write, and understand the English language.

Prospective students whose native language is not English and who have not earned a degree from an appropriately accredited institution where English is not the principal language of instruction must demonstrate college-level proficiency in English through one of the following for admission:

Official evidence of English language proficiency demonstrated by one or more of the following:

- Official documentation of a minimum required score from the Test of English as Foreign Language (TOEFL), International English Language Test (IELTS), Pearson Test of English Academic Score Report, or Duolingo English Proficiency Test:
 - *Undergraduate students:* A minimum score of 57 on the paper-based Test of English as a Foreign Language (TOEFL PBT) or 61 on the Internet Based Test (iBT), or a 6.0 on the International English Language Test (IELTS), 44 on the Pearson Test of English Academic Score Report, or 95 on the Duolingo English Proficiency Test, or 53 on the 4-skill Michigan English Test (MET), or 650/LP on the Michigan Examination for the Certificate of Competency in English (ECCE), or 650/LP on the Michigan Examination for the Certificate of Proficiency in English (ECPE) prior to enrollment
 - *Master's degree and Graduate Certificate students:* A minimum score of 60 on the paper-based Test of English as a Foreign Language (TOEFL PBT) or a 71 on the Internet Based Test (iBT), or a 6.5 on the International English Language Test (IELTS), or 50 on the Pearson Test of English Academic Score Report, or 100 on the Duolingo English Proficiency Test, or 55 on the 4-skill Michigan English Test (MET), or 650/LP on the Michigan Examination for the Certificate of Competency in English (ECCE), or 650/LP on the Michigan Examination for the Certificate of Proficiency in English (ECPE) prior to enrollment
 - *Doctorate degree students:* A minimum score of 65 on the paper-based Test of English as a Foreign Language (TOEFL PBT) or an 80 on the Internet Based Test (iBT), or a 6.5 on the International English Language Test (IELTS), or 58 on the Pearson Test of English Academic Score Report, or 105 on the Duolingo English Proficiency Test, or 55 on the 4-skill Michigan English Test (MET), or 650/LP on the Michigan Examination for the Certificate of Competency in English (ECCE), or 650/LP on the Michigan Examination for the Certificate of Proficiency in English (ECPE) prior to enrollment

OR

- A minimum score on the College Board Accuplacer ESL Exam Series as follows:
 - ESL Language Use: Score of 85
 - ESL Listening: Score of 80
 - ESL Reading: Score of 85

- ESL Sentence Meaning: Score of 90
- Writeplacer: Score of 4
- Comprehensive Score for all exams of 350

OR

- A minimum grade of Pre-1 on the Eiken English Proficiency Exam

OR

- A minimum B-2 English proficiency level identified within the Common European Framework of Reference (CEFR) standards and assessed through various ESOL examinations, including the University of Cambridge

OR

- A transcript indicating completion of at least 30 semester credit hours with an average grade of “C” or higher at an institution accredited by an agency recognized by the United States Secretary of Education and/or the Council for Higher Education Accreditation (CHEA) or accepted foreign equivalent that is listed in the International Handbook of Universities where the language of instruction was English. A “B” or higher is required for master’s degree or professional doctoral degree

Visa Services

California Intercontinental University does not provide any type of visa services (F-1 Visa), nor does it vouch for the immigration status of any student’s relationship with the United States Citizenship and Immigration Services (USCIS).

Enrollment Agreement

The Enrollment Agreement is a legally binding contract between the student and California Intercontinental University. It becomes effective when signed by the student and it is accepted by CIU. A new Enrollment Agreement is required after having a break in enrollment of 8 or more consecutive terms.

Cancellation of Enrollment Agreement

Students have the right to cancel the Enrollment Agreement for educational service, any equipment or other goods and services if notice of cancellation is made through attendance of the first 7 days of the first-class session, or the seventh day after enrollment, whichever is later. Cancellation occurs when the student notifies the University administration. Students can notify by mail, e-mail, FAX, text message, or in any other reasonable manner or conduct, including nonattendance. The notice of cancellation, if mailed, is effective when deposited in the mail, properly addressed with postage prepaid. This notice need not take any particular form; it needs only to state that the student wishes to cancel the Enrollment Agreement. If a student cancels this Enrollment Agreement, the University will refund any money paid, less an application/registration fee not to exceed \$200, within 30 days after the notice is received. If the student is rejected for any reason or if a course is canceled, the student will receive a refund of all monies paid minus the non-refundable fees.

Readmission

Withdrawn students in good academic standing, who have shown good conduct, and have no past due account balance, wishing to return to California Intercontinental University are welcomed and encouraged to return to the University to complete their degree programs.

All returning students are subject to the tuition charges/fee schedule at time of readmission unless other prior arrangements for tuition rates/fees are made. A returning student within three terms from Last Date of Attendance (LDA) may apply for re-entry into their previous program.

Re-Entry (Less Than One Year)

The student will need to speak to a Re-Entry Advisor to complete a Re-Entry Interest Form (RIF) prior to being re-entered into their program of study.

Re-entering students will be placed into the same program from which they withdrew (if within 3 terms, otherwise they will be placed in the newest version of the program) and will be subject to any course/exam requirements of the program of study. Eligible students may petition to return under Re-Entry status to the University no more than three (3) times during the period of one (1) calendar year. Subsequent petitions are subject to a waiting period of one (1) calendar year from LDA.

Re-Enrollment (More Than One Year)

A student withdrawn from California Intercontinental University for over 8 or more consecutive terms may apply for re-enrollment to the University. Students wishing to re-enroll may be required to submit updated admissions documents at time of re-enrollment including:

- A new Enrollment Agreement
- Valid US government-issued photo identification (or foreign equivalent in English)
- An updated resume (for MBA/DBA applicants)

Conditional Returns

Those students who withdrew from the University with balances due or failing to meet Satisfactory Academic Progress (SAP) may be asked to take additional actions prior to being placed back into their programs. These actions may include:

- Advance tuition payments or payments on past due balances
- Signing documents of understanding of Probationary status
- Submitting a written SAP Appeal
- And/or other program specific requirements as deemed necessary by the University

Transfer Students

Transfer students must meet the admission requirements in effect at the time of matriculation and must comply with the same admission procedures for each degree program as mentioned. Upon admission, academic credits documented on official transcripts and earned at other approved or accredited educational institutions will be evaluated by the Registrar and Academic Department and be given transfer credit (TC) only upon a course-by-course evaluation for similar topic and content and for courses closely approximating the units or instructional hours as those offered by California Intercontinental University.

Articulation Agreements

CIU has entered into partnerships with institutions to ensure smooth transitions for transfer of credits between the institutions. Please note that the transfer of credits remains at the discretion of the receiving institution. Students should contact the Registrar's Office for information on articulation agreements.

Transfer Credits

The Transfer Credit policy is consistent with the transfer credit policies of the Bureau for Private Postsecondary Education (BPPE) and the Distance Education Accrediting Commission (DEAC). Students are required to submit documentation to determine equivalency in transfer credit which includes at least official transcripts, copies of the

college/university catalog, course syllabi and/or course outlines. Transfer credit will only be posted to a student's account upon receipt of the official transcript from the previous institution.

Associate Degrees: CIU may award up to 45 semester units of transferable college level credit for the associate degree. 45 semester units are the maximum allowable transfer credits regardless of the source (course level equivalency is required). The sum of credits from High School Advanced Placement courses and any other source cannot exceed 45 semester units.

Bachelor's Degrees: CIU may award up to 90 semester units of transferable college level credit for the bachelor's degree. 90 semester units are the maximum allowable transfer credits regardless of the source (course level equivalency is required). The sum of credits from High School Advanced Placement courses, Associate of Arts degree or equivalent, and any other source cannot exceed 90 semester units.

Master's Degrees Programs: CIU may award a maximum of one-half of the credits required for master's degrees programs through transfer credit. 18 semester credits are the maximum allowable transfer credits regardless of the source (course level equivalency is required).

Doctorate Degrees: CIU may award up to nine (9) graduate semester credits for the doctorate degree. Nine semester credits are the maximum allowable transfer credits regardless of the source (course level equivalency is required).

Evaluation and award of transfer credit may be allowed for courses taken at approved or accredited institutions that are recognized by the U.S Secretary of the Department of Education and/or an institutional member of CHEA. Transfer Credit awarded for undergraduate programs must be at least a cumulative 2.00 GPA, "C" or higher. Transfer Credit awarded for graduate programs must be at least a cumulative 3.00 GPA, "B" or higher. Courses in information technology or computer science must have been completed within the last six years to be considered for transfer credit.

Applicable courses taken for credit at international or foreign institutions must be evaluated by an approved Credential Evaluation Agency before transfer credit evaluation is completed. An unofficial transcript evaluation may be used for an interim one semester. Official transcript evaluations by an approved agency must be received before the end of the semester or the student is at risk of losing transfer credit and may be at risk of dismissal. Official transcript evaluations by an approved agency must be received by California Intercontinental University before final transfer credits are awarded.

Credits earned at the undergraduate level cannot be transferred to graduate courses. Similarly, credits earned in master's courses cannot be transferred to doctorate courses. Courses in computer science can be considered for transfer if completed within the last six years.

Transfer Credit will not count in the Grade Point Average. California Intercontinental University reserves the right to award or deny transfer credit earned at another institution.

Credit by Advanced Placement (AP)

Upon request and submission of appropriate College Board documentation, an applicant for an associate degree program may be awarded up to 15 credits earned in High School Advanced Placement courses and an applicant for a bachelor's degree program may be awarded up to 30 credits.

Completed courses are accepted credit-for-credit for equivalent courses at CIU if the student has earned a 3 or better in the AP examination. The Academic Department will evaluate and approve AP credits.

Credit for Prior Learning

A maximum of 15 semester credits of a prospective Associate student's coursework, or 30 credits of a prospective Bachelor student's coursework, may be earned by credits based on Prior Learning (Experiential) or by:

- CLEP (College Level Examination Program) tests
- DANTES (Defense Activity for Non-Education Support) tests
- American College Testing (PEP) (Proficiency Examination Program) exams
- American Council of Education
- Military Training

The Academic Department will evaluate and approve any credit for prior learning.

Military Education Credit

To be awarded credit for courses taken at military service schools on an equivalency basis, students must submit the appropriate military Joint Services Transcript. Students must present appropriate transcripts, certificates, or other official documents before an evaluation can be made. Credits for military school courses apply directly to undergraduate work as it relates to the level and content of the particular degree program. The maximum amount of transfer credit granted for military education is one quarter. California Intercontinental University will only accept credit for military courses that have been recommended for credit by the American Council on Education (ACE).

Student ID Cards

A new student is eligible for a California Intercontinental University student ID card after the successful completion of the first course. Student ID cards are available upon request. Students are required to submit a professional picture for use on the card. To order a student ID card, students may contact the Registrar's Office directly.

Student Housing

California Intercontinental University does not find, secure, provide, or otherwise assist students in locating any housing.

TUITION, FEES, AND PAYMENT OPTIONS

NOTE: Tuition and fees are subject to change without notice. Students should confirm current tuition and fees on the California Intercontinental University website.

Financial Information

Statements regarding tuition and found in this Catalog comply with the California Private Post-Secondary Education Act of 1977 and related adopted regulations. Enrollment at California Intercontinental University, or payment of tuition and fees in advance, does not constitute a contract beyond a single academic year. The administration of California Intercontinental University reserves the right to alter the tuition and fees schedule at any time without prior notice.

Payment of Fees: Instructional Materials

None of the fees paid at time of Registration, except tuition, are refundable as fees are encumbered for expenditures immediately upon collection.

Payment of Tuition and Fees: Late Payment Fee

Tuition and applicable fees are due and payable at time of Registration. Late payment fees will be assessed when payment is not received on the date agreed upon. Cash, money orders, credit cards, bitcoin and checks are accepted in the amount due.

Advanced Payment of Tuition

Students have the option of paying tuition in advance, at the current rate, and only at time of registration provided that the tuition payment will be for the entire degree program they are enrolled in. Any future remaining tuition, if any, shall be at the current tuition charge. All other fees or related charges (graduation fee, registration fee, etc.) shall be paid separately prior to the beginning of each semester/term.

Cancellation Policy

Term by Term Agreements: One week prior to the start of the term, payment for all Term-by-Term Agreements is due. If payment or payment arrangements are not received by the fifth day of the start of the term, the student's account is placed on hold and the student is notified via e-mail that he/she has seven (7) days to respond with payment or payment arrangements. Failure to respond with payment or payment arrangements will result in withdrawal from the University.

Financial Assistance Plan (FAP): Payment is processed on the 25th of the month as specified in the contract. If payment is not received on that date, the student is given a five (5) day grace period. At the end of the grace period, if payment or payment arrangements are not received, the student's account is placed on hold and the student is notified via e-mail that he/she has seven (7) days to respond with payment or payment arrangements. Failure to respond with payment or payment arrangements will result in withdrawal from the University.

Cost of Degree Programs: Tuition and Fees Estimates

	Associate	Bachelor	Master's	Doctorate
TOTAL CREDITS	60	120	36	60
COST PER CREDIT	\$438	\$438	\$488	\$528

Handling and Shipping Charge (Extra for Overseas Shipping)	At Cost
Duplicate or Replacement of Diploma	\$100.00
Student ID Card Replacement Fee	\$20.00

*Students may choose to purchase hard copy textbooks separately.

Optional Fees

All optional fees are non-refundable.

Tuition and Applicable Fees Payment Plans

California Intercontinental University offers affordable payment plans for qualified students. If a student obtains a loan to pay for an educational program the student will have to repay the full amount of the loan plus interest, less the amount of any refund, and that, if the student receives federal student financial aid funds, the student is entitled to a refund of the moneys not paid from federal financial aid funds.

Plan 1: Pay as You Learn (PAYL)

Students have the flexibility to enroll in a monthly pay as you learn payment option. With low monthly payments, we make education accessible to all across the globe. Please contact the Financial Aid Office for more information.

Plan 2: Term by Term

This plan requires tuition and applicable fees payment prior to the beginning of a Term for the selected courses of the degree program. Tuition is assessed in accordance with the student's enrollment agreement.

Plan 3: Payment for Entire Program

Students may elect to pay for the entire program up front. Any courses retaken will be charged as per the prevailing retake policy.

Plan 4: Direct Bill Plan

This plan requires that a student's employer establishes a Direct Bill Plan with California Intercontinental University as the school will bill the employer directly for the student's tuition and applicable fees. The student is responsible for letters of credit, vouchers or any and all employer direct bill documentation required by his/her/their employer. The student is fully responsible for any amount not covered by the employer's reimbursement policy or plan.

Plan 5: Federal Financial Aid

Qualified students enrolled in an eligible program may apply for Federal Financial Aid to pay for their cost of tuition. In order to apply for Financial Aid, the Free Application for Federal Student Aid (FAFSA) must be completed at www.fafsa.ed.gov.

Financial Aid

Federal Financial Aid is available for eligible students in the following programs:

- Associate of Arts in Business Administration
- Associate of Arts in Information Technology
- Bachelor of Business Administration
- Bachelor of Business Administration in Healthcare Administration
- Bachelor of Business Administration in Internet Marketing and Entrepreneurship
- Bachelor of Engineering Information Technology in Networking and Systems Security
- Bachelor of Engineering Information Technology in Project Management
- Master of Business Administration
- Master of Business Administration in Banking and Finance
- Master of Business Administration in Healthcare Management and Leadership
- Master of Business Administration in Information Systems and Knowledge Management
- Master of Business Administration in International Management and Marketing
- Master of Business Administration in Organizational Development and Human Resource Management
- Master of Business Administration in Project and Quality Management
- Doctorate of Business Administration

- Doctorate of Business Administration in Global Business and Leadership
- Doctorate of Business Administration in Entrepreneurship and Business Management
- Doctorate of Business Administration in Healthcare Management and Leadership
- Doctorate of Business Administration in Information Systems and Enterprise Resource Management

How to Apply

Students wishing to use Federal Financial Aid while attending California Intercontinental University should follow the steps below. Students are encouraged to contact the financial aid office with any questions or concerns at finaid@caluniversity.edu or 949-527-6755.

Submit the California Intercontinental University Application for Admission

<https://www.caluniversity.edu/Apply-Online>

Please check the box indicating that you desire to use Federal Financial Aid as your payment method.

Obtain an FSA ID

Prior to completing the FAFSA, you should obtain an FSA ID online at <https://studentaid.ed.gov> or www.fafsa.gov. This username and password serves as your electronic signature and may be used to file your FAFSA, make corrections to your Student Aid Report (SAR), and monitor federal loans that you receive. If you are a dependent student, a parent should also request an FSA ID which can be used as their electronic signature on the FAFSA.

Complete and Submit FAFSA

The application can be found at www.fafsa.ed.gov. Make certain to indicate our school code of 042440 on the FAFSA. If you have already completed a FAFSA, retrieve it and add our school code. Monitor your email for important notifications concerning your SAR. The Office of Financial Aid will receive your FAFSA information and will contact you if necessary.

If you have already completed a FAFSA, retrieve it and add our school code. Monitor your email for important notifications concerning your SAR. The Office of Financial Aid will receive your FAFSA information and will contact you if necessary.

If you have any questions about applying for FSA, please contact the Office of Financial Aid at 949-527-6755 or finaid@caluniversity.edu.

Pell Grants

Pell Grants are available to eligible undergraduate students enrolled in an eligible program. A Federal Pell Grant, unlike a loan, does not have to be repaid. Federal Pell Grants usually are awarded only to undergraduate students who have not earned a bachelor or a professional degree. You are not eligible to receive a Federal Pell Grant if you are incarcerated in a federal or state penal institution or are subject to an involuntary civil commitment upon completion of a period of incarceration for a forcible or non-forcible sexual offense.

Federal Supplemental Educational Opportunity Grant (FSEOG)

SEOG is a federal grant that is awarded to undergraduate students with exceptional financial need and does not have to be repaid. Priority is given to students who are Pell Grant recipients with the lowest Expected Family Contributions (EFCs).

The Financial Aid Office will identify full-time students that have a zero EFC and that are Pell eligible. This group of students will be known as the California Intercontinental University FSEOG First Selection Group. The process will be repeated each term start and the qualifying students will be added to the California Intercontinental University FSEOG First Selection Group. Students in this group will be awarded \$175 per semester. If after awarding FSEOG funds, the student's financial aid exceeds the COA, loan funds will be adjusted downward. Grant funds will not be adjusted downward to meet COA requirements.

Should FSEOG funds remain after the California Intercontinental University FSEOG first selection group has been awarded FSEOG funds, the Financial Aid Office will identify all Pell Eligible students with zero EFC and/or with the lowest EFC and award funds to each student until funds are depleted. This group of students is known as the California Intercontinental University FSEOG Second Selection Group. If necessary, the California Intercontinental University FSEOG Second Selection Group will be expanded until all funds have been awarded to Pell eligible students by June 30th of each year. If funds remain after the second group has been expanded, the funds will be returned to the Department of Education via G5. Students losing Pell Grant eligibility prior to SEOG being disbursed will have their SEOG award rescinded.

The Financial Aid Office will keep documentation identifying the First and Second FSEOG groups, the eligible EFC, and the award amounts. Pell Grant eligibility will also be confirmed prior to disbursement of the FSEOG. If the student loses Pell Grant eligibility prior to disbursement of the FSEOG, the FSEOG award will be cancelled.

Student will receive a revised Award Letter via email listing the award amounts.

Student Eligibility Criteria

To be considered for FSEOG, a student must:

- Complete a FAFSA
- Be registered and accepted for enrollment as a regular student in an Undergraduate program at CIU
- Have completed the verification process (if selected)
- Meet all other requirements for an eligible student for Title IV Federal Student Financial Aid programs
- Maintain Satisfactory Academic Progress
- Must not have previously earned a bachelor or first professional degree.

Enrollment in a program of study abroad approved for credit by the home school may be considered enrollment in the home school for purposes of applying for federal financial aid. (34 CFR 668.41 (a)-(d), 34 CFR 668.42, 34 CFR 668.43.).

Federal Direct Loan Program

Direct Loans, from the William D. Ford Federal Direct Loan Program, are low-interest loans for eligible students to help cover the cost of higher education at a college or university, community college, trade, career, or technical school. Eligible students borrow directly from the US Department of Education at participating schools.

There are several benefits in using the Direct Loan Program:

- A Direct Loan (DL) is a guaranteed source of funding for student loans
- The option of an income-contingent repayment plan or an income-based repayment plan when you enter repayment. This means you will have the option of ensuring that your loan repayment amount will always be affordable based on what your income will allow
- Students in the Direct Loan program who enter into public service jobs can have any remaining balance on their loans forgiven after ten years of public service work. (While this option does not exist in the FFEL program, students who borrowed in that program can consolidate their loans into the DL program in order to take advantage of this forgiveness program)
- Most lenders offer benefits during repayment after a student makes payments from 2 to 4 years. Very few students end up receiving those benefits. In DL, students earn benefits after only 1 year
- Should a student make payments late under DL, the late fees charged are less than the late fees charged in the FFEL Program

For more information visit: <https://studentaid.ed.gov/sa/types/loans>

Federal Direct Loans

California Intercontinental University participates in the following Direct Loan programs:

- **Direct Subsidized Loans** are available to undergraduate students with financial need. The school determines the amount you can borrow, and the amount may not exceed your financial need. The US Department of Education pays the interest on a Direct Subsidized Loan, while you are in school at least half-time, for the first six months after you leave school (referred to as a grace period*), and during a period of deferment (a postponement of loan payments)
- **Direct Unsubsidized Loan** is not based on the student's financial need, but students must also meet specific eligibility requirements. Interest is charged throughout the life of the loan. The borrower may choose to pay the interest charged on the loan or allow the interest to be capitalized (added to the loan principal)
- **Direct PLUS Loan** is a federal loan that graduate or professional degree students and parents of dependent undergraduate students can use to help pay education expenses. The U.S. Department of Education makes Direct PLUS Loans to eligible borrowers through schools participating in the Direct Loan Program

Direct Loan Resource Center

In order to receive federal student loans, you must complete certain requirements. The Department of Education has created a website (www.studentloans.gov) to manage borrower requirements and provide valuable information regarding federal student loans. The three items listed below are required from all borrowers:

1. Entrance Interview

To ensure that you understand your rights and responsibilities as a student loan borrower, the Federal Government requires you to participate in loan counseling before receiving a Direct Loan, if you have not previously received a Direct Loan, Federal Family Education Loan or Supplemental Loans to Students Loan.

2. Sign Master Promissory Note (MPN)

The Master Promissory Note, commonly referred to as MPN, is a document that must be signed in order to receive a federal student loan. The signed MPN binds you to the federal government as a promise to repay the student loan you intend to take out to help cover your educational expenses. The MPN provides valuable information about the rights and responsibilities you have as a borrower.

3. Exit Interview

Prior to graduating or leaving school, Direct Loan borrowers must complete exit counseling. The Direct Loan Exit Counseling will explain your rights and responsibilities as a Direct Loan Borrower. Your Federal FSA ID is required in order to complete the Exit Interview because your personal loan information will be provided.

Cost of Attendance

The Cost of Attendance (COA) is an estimate of the total amount needed to attend college each academic year which consists of two semesters. Each school determines its annual average COA using a formula established by Congress.

A student's COA may include:

- Tuition and fees
- Books, supplies, loans fees and miscellaneous personal expenses
- Room and board expenses
- Dependent care
- Costs related to disability

A higher COA than that which is estimated by California Intercontinental University will require that the student provide supporting documentation to justify an increase.

The Cost of Attendance and Financial Aid

The COA will be used to package and award aid to students seeking an eligible Title IV degree and using financial aid. Should a student want to pursue financial aid, his/her/their eligibility will not be based on individual preferences and spending habits, but rather on standard budget allowances.

Note: The COA is reviewed annually by the Financial Aid Director to maintain relevance and accuracy related to the direct and indirect costs California Intercontinental University students may incur. The figure used to determine the

Room and Board allowance is the national average obtained research done by CollegeBoard.

Cost of Attendance Budget:

Tuition / Fees	Per Fee Schedule (Off Campus)
Room and Board	\$9,430
Transportation	\$1,852
Miscellaneous	\$6,062

Verification Policy

The University must check the accuracy of all applications the Central Processing System (CPS) selects for verification. The CPS will select applicants for verification based on edit checks which identify inconsistencies and/or potential errors. The University also verifies any application the university has reason to believe is incorrect or discrepant.

All financial aid applicants are encouraged to file federal income tax returns for applicant, parent and/or spouse as applicable, prior to completing the Free Application for Federal Student Aid (FAFSA). This will allow students and prospective students to utilize the IRS Data Retrieval tool when completing the FAFSA. The IRS Data Retrieval tool saves time and increases the accuracy of the financial information collected on the FAFSA.

Students selected for verification will be sent an email notification with the items needed in order to complete the verification process. If the University receives a subsequent FAFSA for a student selected for verification after they have been initially awarded federal financial aid, all future disbursements will be placed on hold. The student will be notified of the verification requirements and will have 30 days to complete the process. If verification is not complete, all previously disbursed federal financial aid will be returned which will result in a balance due on the student account.

The data reported on the verification worksheet, federal tax transcript and other supporting documentation provided is checked against the appropriate data elements on the FAFSA. All conflicting information will need to be corrected on the ISIR by the school or student as applicable and a new expected family contribution (EFC) will be calculated. Students will not be awarded federal financial aid until verification is complete. If a subsequent ISIR is received affecting overall financial aid eligibility, the financial aid award will be adjusted as applicable. The updated information may require a return of already received federal student aid funds resulting in a balance due on the student account. A student will be notified via email of any changes.

Referrals will be made to the Office of Inspector General should there be allegations of fraud or other criminal misconduct in connection with an applicant's application for financial aid.

Register to Vote

If you need to register to vote, visit <http://vote.usa.gov>. Depending on your state's voter registration rules, the site can help you:

- Register online. This is available for 31 states plus the District of Columbia
- Download the National Mail Voter Registration Form. You can fill it out onscreen and print the completed form or print the blank form and fill it out by hand. Remember to sign the form before mailing it to the location listed for your state

Find guidance for states and territories with different registration procedures.

Eligibility

The following criteria must be met for a student to be eligible to participate in Federal Student Aid (FSA):

- Be an admitted student enrolled in an eligible program of study for the purpose of obtaining a degree
- Submit all official transcripts from previously attended institutions at the time of admission if interested in Title IV funding
- Be unconditionally accepted at California Intercontinental University
- Not be enrolled solely in remedial coursework
- Not be currently enrolled in secondary school
- Be a high school graduate or recognized equivalent
- Be a US citizen or national, or an eligible non-citizen (verification of eligible non-citizen status may be required)
- Have a valid Social Security number unless you are from the Republic of the Marshall Islands, Federated States of Micronesia, or the Republic of Palau
- Be enrolled at least half-time if applying to receive Federal Direct Loans
- Not be in default on a Federal Student Loan or owe an overpayment on an FSA grant or loan
- If the student is a male, he must be registered with the Selective Service (<https://www.sss.gov/>)
- Meeting Satisfactory Academic Progress (SAP) standards
- Certify that FSA will only be used for educational purposes

- Demonstrate financial need

Enrollment in a program of study abroad approved for credit by the home school may be considered enrollment in the home school for purposes of applying for federal student financial aid.

Disbursement Schedule

Financial Aid will be disbursed to students one payment per semester. Disbursements are made on the first Monday after 30 days have passed from the start of the term.

Tuition Refund for All Programs (Buyer's Right to Cancel)

Refund of Advanced Payment of Tuition for Entire Degree Program

Any requested refund of the unused advance tuition payment shall be provided to the student upon submission of a written request.

Refund of Tuition

A student may cancel his/her/their Enrollment Agreement at any time on or before the first day of a Term for Distance Education and Learning without any tuition charges. A student may also cancel the Enrollment Agreement without penalty or obligation by the Add/Drop period deadline (being the last day of the first week of a Term) or by the 7th day from the beginning date of a course. The student will receive a full tuition refund (except for the registration fee and costs for educational printed materials, if any). Refundable tuition is defined as the total course tuition excluding the Registration Fee.

Refund Calculation

The date of withdrawal will be the day the University is notified of the student's intent to withdraw. Student can notify by mail, e-mail, FAX, or by any other reasonable manner or conduct, including non-attendance. California Intercontinental University will mail the requested tuition refund within 30 days from the date of the official withdrawal/dismissal or refund request.

Students will remain liable for any outstanding balance on their account.

The Student's start date through the last date of attendance will determine the percentage of program completion, and the applicable percentage will be applied to the formula used in the refund calculation as stated below. The percentage of program completion is calculated by dividing the number of days comprising the period of enrollment in which the Student has been charged into the number of days completed in that period as of the last recorded day of attendance by the Student.

Once the Student begins classes, the Registration Fee is non-refundable, and the following refund policy applies:

Amount of Course Completed	Refundable Tuition
Through week 1	100% Tuition Refund
More than week 1, through week 4	Pro-Rata Refund
Past week 4	0% Tuition Refund

To receive a tuition refund, a student must contact the Student Accounts Department after submitting a signed and dated request for withdrawal to the Office of the Registrar. Tuition refund calculation shall be based on the day California Intercontinental University receives the withdrawal request notice from the student or the last day of attendance (whichever is greater). California Intercontinental University will email a detailed breakdown of the requested tuition refund within 30 days from the date of the official withdrawal/dismissal or refund request.

Sample Refund Calculation

Student Jane enrolls in our Doctorate program and after attending for 13 days out of the 6-week term she decides on a different career path. A term consists of 6 weeks which is 42 days in length, therefore she attended (based on her last date of attendance) 13 out of 42 days or 31% of the term. If her tuition is \$1035 for the term, she is responsible for \$320.85 (.31x 1035) of tuition fees and eligible for a refund in the amount of \$714.15 (\$1035-\$320.85). Had Jane withdrawn during the Add/Drop period, which is the first 7 days of the term she would be eligible for a full refund. However, if Jane would have attended past the 4th week of the term, she would not be eligible for a tuition refund.

Refund of Fees for All Programs

Refund of Fees and Other Charges: 100% refund of fees and other charges will be made if enrollment cancellation occurs before the start of a Term. Registration Fee is non-refundable once a Term has started.

Return to Title IV

If a student has received Federal Direct Loans or Federal Pell Grant funds during his/her/their period of enrollment and is withdrawn or withdraws from the institution, an R2T4 calculation will be performed. If a student has not yet been awarded but has a valid ISIR for the current awarded year, an R2T4 calculation is performed to determine a potential Post-Withdrawal Disbursement. The date of withdrawal is always the last date of attendance.

Attendance at California Intercontinental University includes:

- submitting an academic assignment
- taking an exam
- participating in an online discussion about academic matters

Attendance is **not**:

- logging into your course without active participation
- participating in academic counseling or advisement.

Returning Unearned Funds

Institutions are required to determine the percentage of Title IV aid earned by the student and to return the unearned portion to the appropriate aid program. This percentage is determined by the percentage of the enrollment period completed by the student.

The return of funds policy consists of the following steps:

- Determine the percentage of the enrollment period completed by the student
- Days Attended ÷ Days in Enrollment Period = Percentage Completed
- If the calculated percentage exceeds 60 percent, then the student has earned all Title IV aid for the enrollment period
- Apply the percentage completed to the Title IV aid awarded to determine the student's eligibility for aid prior to the withdrawal

- Total Aid Disbursed X Percentage Completed = Earned Aid
- Determine the amount of unearned aid to be returned to the appropriate Title IV aid program
- Total Disbursed Aid – Earned Aid = Unearned Aid to be Returned

If the aid already disbursed equals the earned aid, no further action is required. If the aid already disbursed is less than the earned aid, a late disbursement will be made to the student. If the aid already disbursed is greater than the earned aid, the difference must be returned to the appropriate Title IV aid program.

Distribute the responsibility to return funds between the institution and the student. For students who are required to return Title IV aid in addition to the portion of aid the school is required to return, there is a 50% protection allowance on unearned Title IV student grants only. (Loans would need to be repaid in full).

California Intercontinental University and the student are both responsible for returning unearned funds to the appropriate programs in specific loan/grant order. The institution must return the lesser of:

- the total amount of unearned aid or
- institutional charges multiplied by the unearned percentage

Amounts that must be returned will first be applied to federal loans and then to grants. Loan borrowers will be permitted to repay loans based on the terms of the promissory note. The student will also be billed for any amount due to California Intercontinental University resulting from the student's withdrawal. If a student owes any money to the school resulting from the return of federal aid funds, the student will receive a bill from the Business Office. Title IV aid is returned in the following order:

1. Unsubsidized Federal Direct
2. Stafford Loans Subsidized Federal
3. Direct Stafford Loans
4. Federal Direct PLUS Loans
5. Federal Pell Grants
6. Federal Supplemental Educational Opportunity Grant (FSEOG)
7. Iraq and Afghanistan Service Grant

A school must return unearned funds for which it is responsible as soon as possible but no later than 45 days from the determination of a student's withdrawal.

Any student with an account credit balance will be refunded to the funding source in the order outlined above.

The student's grace period (if applicable) for loan repayments for Federal Unsubsidized and Subsidized Direct Stafford Loans will begin on the day of the withdrawal from California Intercontinental University. The student should contact the servicer if he or she has questions regarding his/her/their grace period or repayment status.

The student's eligibility for future financial aid may change based on his/her/their withdrawal from CIU.

Student Recovery Tuition Fund

The State of California established the Student Tuition Recovery Fund (STRF) to relieve or mitigate economic loss suffered by a student in an educational program at a qualifying institution, who is or was a California resident while enrolled, or was enrolled in a residency program, if the student enrolled in the institution, prepaid tuition, and suffered an economic loss. Unless relieved of the obligation to do so, you must pay the state-imposed assessment for the STRF, or it must be paid on your behalf, if you are a student in an educational program, who is a California

resident, or are enrolled in a residency program, and prepay all or part of your tuition.

You are not eligible for protection from the STRF and you are not required to pay the STRF assessment, if you are not a California resident, or are not enrolled in a residency program.

It is important that you keep copies of your enrollment agreement, financial aid documents, receipts, or any other information that documents the amount paid to the school. Questions regarding the STRF may be directed to the Bureau for Private Postsecondary Education, 1747 N. Market Blvd., Suite 225, Sacramento, CA 95833, 916-431-6959 or 888-370-7589.

To be eligible for STRF, you must be a California resident or enrolled in a residency program, prepaid tuition, paid or deemed to have paid the STRF assessment, and suffered an economic loss as a result of any of the following:

1. The institution, a location of the institution, or an educational program offered by the institution was closed or discontinued, and you did not choose to participate in a teach-out plan approved by the Bureau or did not complete a chosen teach-out plan approved by the Bureau.
2. You were enrolled at an institution or a location of the institution within the 120-day period before the closure of the institution or location of the institution or were enrolled in an educational program within the 120-day period before the program was discontinued.
3. You were enrolled at an institution or a location of the institution more than 120 days before the closure of the institution or location of the institution, in an educational program offered by the institution as to which the Bureau determined there was a significant decline in the quality or value of the program more than 120 days before closure.
4. The institution has been ordered to pay a refund by the Bureau but has failed to do so.
5. The institution has failed to pay or reimburse loan proceeds under a federal student loan program as required by law or has failed to pay or reimburse proceeds received by the institution in excess of tuition and other costs.
6. You have been awarded restitution, a refund, or other monetary award by an arbitrator or court, based on a violation of this chapter by an institution or representative of an institution, but have been unable to collect the award from the institution.
7. You sought legal counsel that resulted in the cancellation of one or more of your student loans and have an invoice for services rendered and evidence of the cancellation of the student loan or loans.

To qualify for STRF reimbursement, the application must be received within four (4) years from the date of the action or event that made the student eligible for recovery from STRF.

A student whose loan is revived by a loan holder or debt collector after a period of non-collection may, at any time, file a written application for recovery from STRF for the debt that would have otherwise been eligible for recovery. If it has been more than four (4) years since the action or event that made the student eligible, the student must have filed a written application for recovery within the original four (4) year period, unless the period has been extended by another act of law.

However, no claim can be paid to any student without a social security number or a taxpayer identification number.

Post Withdrawal Disbursements

Any post-withdrawal disbursement due must meet the current required conditions for late disbursements. A school is required to make (or offer as appropriate) post-withdrawal disbursements to eligible students. A post-withdrawal disbursement must be made within 180 days of the date the institution determines that the student withdrew. The

amount of a post-withdrawal disbursement is determined by following the requirements for calculating earned FSA and has no relationship to incurred educational costs.

Procedures:

- If a student is eligible for a post-withdrawal of a federal grant, it will be disbursed within 45 days of the date of determination of withdrawal;
- A student (or parent, in the case of a Direct PLUS loan) is notified of eligibility for a post-withdrawal disbursement of a Federal loan within 30 days of the withdrawal date by email and must respond within fourteen days;
- If the student (or parent) accepts the post-withdrawal disbursement of a federal loan, it must be made as soon as possible but no later than 180 days of the withdrawal date;
- The Financial Aid Office will track this notification and make appropriate updates in the system as necessary;
- When the student's (or parent's) response is received it will be updated in the system;
- The priorities for disbursement are grants first; paid to outstanding institutional charges before being paid directly to the student (or parent).

Examples:

1. It is Jennifer's first semester, and she is enrolled in the Business Administration program. She is a full-time student enrolled in 12 credits in the semester (18 weeks /126 days). On the 2nd day of week 7, Jennifer withdrew from her courses to pursue an acting career. Jennifer attended California Intercontinental University for 51 days $((7 \times 7) + 2 = 51)$ in an enrollment period of 126 days; therefore, she completed 40.47% $(51/126)$ of her enrollment period. During the current payment period, Jennifer was disbursed a Pell grant for \$1,500 and a subsidized loan for \$1,500, a total of \$3,000. Her earned aid is \$1,215 $(40.47\% \times 3,000)$, whereas her unearned aid is \$1,785 $(\$3,000 - \$1,215)$. After the institutional refund is applied and unearned Pell Grant funds are returned, Jennifer will have to repay the disbursed and earned subsidized loan amount funds. She may also have to repay any disbursed unearned loan funds to California Intercontinental University.
2. It is John's second semester, and he is a full-time student enrolled in 12 credits in the semester. On the 5th day of week 11, it was the last time John attended class. John attended California Intercontinental University for 75 days $(11 \times 7) + 5 = 82)$ in an enrollment period of 126 days; therefore, he completed 65.08% $(82/126)$ of his enrollment period. During the current payment period, John was disbursed a Pell grant for \$900, a subsidized loan for \$2,500, and an unsubsidized loan for \$1,000, a total of \$4,400. Because he attended for at least 60% of the enrollment period, his total earned aid is \$4,400, and there is no unearned aid.

Disclosure

Refund requirements, policies and procedures are provided to students in writing annually and are posted on California Intercontinental University's website. Sample R2T4 calculations are available from the University's Financial Aid Office upon request.

Return of Unearned TA Policy

If a student receiving Military Tuition Assistance (TA) withdraws or is withdrawn from a course, TA will be returned on a proportional basis to the Department of Defense. After 60 percent of the course is completed TA will be deemed fully earned by the institution. Students are responsible for any balances remaining after any TA is refunded to the Department of Defense.

ACADEMIC INFORMATION

CIU LearnCenter

California Intercontinental University acknowledges that students have diverse backgrounds, abilities, and interests, and thus, has established a user-friendly e-learning center through our online learning portal. The CIU LearnCenter contains an innovative e-learning platform specifically designed for CIU students. Since students have different learning styles, an educational program was designed to assist every student in his/her/their academic endeavor. In fact, many of the learning exercises and instructional materials are designed to stimulate interests in learning while providing exciting intellectual challenges. For more information, visit the CIU LearnCenter at <https://myportal.caluniversity.edu> to view our innovative e-learning platform specifically designed for all students.

Community

The California Intercontinental University Community is an interactive, student-driven, and staff-supported virtual campus that provides students a social learning experience from the day they enroll to graduation and beyond. What makes the Community special is that members have the unique opportunity to connect with other students, Student Success Advocates, and faculty, all while making new friends, sharing opinions and experiences. The CIU Community also actively supports students on the CIU Facebook and Twitter networks. The Community integrates excellent interactive and academic elements to create a fully supported social learning experience for our students and is accessible through the student portal once enrolled.

Course Load

Students enrolled in programs at California Intercontinental University are expected to register for and attend one (1) course each six (6) week term.

The Graduate Research Course (GRC), or dissertation series, consists of five courses, GRC 641-645. Due to the rigor of dissertation work, students often take multiple consecutive six-week terms to complete each GRC course.

The Doctorate Research Project (DRP), or capstone series, consists of five courses, DRP 801-805. Due to the rigor of the capstone work, students often take multiple consecutive six-week terms to complete each DRP course.

Students who have completed all course work in an associate degree program and request to enroll in a bachelor's degree program will be allowed to transfer an existing associate program tuition balance (provided the payment status is current) to the bachelor's degree program.

Multiple Courses per Term

From time to time, it may become necessary or desired for a student to register for more than one (1) course per term. Students that have successfully completed the first course of their program may petition to take more than one (1) course per term and should contact their Student Success Advocate for additional information. The review and any approval of additional courses each term will be completed by the Registrar and the Academics Department.

Students requesting multiple courses per term must be in good academic standing and maintain Satisfactory Academic Progress (SAP) requirements. Students will revert to a "one-term, one-course" registration sequence if one or more failures or incomplete grades are earned while taking multiple courses.

Qualified undergraduate students can take up to three (3) courses (a total of 9 units) per six-week term and graduate students can take up to two (2) courses (a total of 6 units) per term.

Students using Title IV funding, VA/military education benefits or other financial aid programs must work with Student Accounts and the Financial Aid Department to ensure continued eligibility for funding to cover the costs of adding additional course(s).

Undergraduate Programs

To earn a California Intercontinental University associate degree, a student must complete 60 credit hours (20 courses of 3 credit hours each) with a minimum GPA of 2.00. Each course is worth 3 credits; there are a total of 20 courses in each program. Proctored examinations are placed throughout the program and courses with a proctored final examination are noted in the syllabus.

To earn a California Intercontinental University bachelor's degree, a student must complete 120 credit hours (40 courses of 3 credit hours each) with a minimum GPA of 2.00. Each course is worth 3 credits; there are a total of 40 courses in each program. Proctored examinations are placed throughout the program and courses with a proctored final examination are noted in the syllabus.

Graduate Programs

To earn a California Intercontinental University master's degree, a student must complete 36 credit hours (12 courses of 3 credit hours each) with a minimum GPA of 3.0. Each course in a term is worth 3 credits; there are a total of 12 credit courses in each program comprised of 8 core and 4 specialization courses. Proctored examinations are placed throughout the program and courses with a proctored final examination are noted in the syllabus.

To earn a California Intercontinental University doctorate degree, a student must complete 60 credit hours (20 courses of 3 credit hours each) with a minimum GPA of 3.0. Each course in a semester is worth 3 credits; there are a total of 20 courses in each program comprised of 10 core and 5 specialization courses, 1 Comprehensive Competency Assessment and 5 courses for the research and writing component. Proctored examinations are placed throughout the program and courses with a proctored final examination are noted in the syllabus.

Changing Program of Study

A student may switch from one California Intercontinental University degree program into another (at the same level). Each degree program has different course requirements. Program changes occur at the beginning of the upcoming semester. Students will have to pay for any additional courses necessary to complete the required credit hours needed for graduation in the new program. Students can contact a Student Success Advocate for more information.

Students seeking academic program change must adhere to the following procedure:

- Submit a Request for Change of Program to the Registrar
- Consult with the Academic Department for potential adverse effect on degree completion time
- Request a review of transfer credits (TC), if any, and receive an updated Program Matrix

Students must meet all the educational requirements (including prerequisites, if any) and required courses for the new selected specialization.

Transcripts and Grade Reports

Students who need a transcript of completed courses from California Intercontinental University should contact the Office of the Registrar. Per FERPA (1974, et al) regulations, all requests for transcripts or report cards must be made in writing and be signed by the student.

An *official transcript* is one sent by California Intercontinental University directly to an institution or employer. The first copy of an official transcript is free; there is a fee for any additional official transcripts requested.

An *unofficial transcript* is one sent by California Intercontinental University directly to the student. Unofficial transcripts may be sent via email and are complimentary. Students can view their program of study, progress report and grades in the Student Portal.

Transcripts

Transcripts are full documentation of a student's permanent academic record, documenting all courses taken and completed, all grades received, any honors received, and any degrees conferred to a student. Requests for transcripts can be made online from the Registrar's page on the California Intercontinental University website at www.caluniversity.edu or via form provided to the student.

An official transcript is printed on anti-counterfeit paper and is signed by the Registrar. It is sent by CIU directly to a recipient, an institution/college/university, or an employer in a sealed envelope. The first copy of an official transcript is free/complimentary. A fee will be charged for additional official transcripts requested and is payable to the Accounting Department. See the "Fee Schedule" for more information about specific costs.

Report Cards/Grade Reports

Unlike transcripts, a report card documents only the grades from a specific term or semester. Report cards can be sent electronically via email or printed on plain white paper, sent in a sealed envelope. Report cards are complimentary.

Class Level

Undergraduate students are categorized as follows based on the total number of credits completed at the collegiate level.

Level	Credits
Freshman	Less than 30
Sophomore	30 to 59
Junior	60 to 89
Senior	90 or more

Course Format

Depending on the level and content of the course, the programs include courses may have a different set of materials and assessments; see the course syllabus for specific details.

Course Materials

- Syllabus
- Instructor Policies
- Instructor Welcome
- Supplemental Materials
- Assignment Format
- Lessons and Units
- Reading Assignments
- Blogs

- Oral Presentations
- Group Presentations
- Case Studies
- Research Projects
- Videos
- Review Questions
- Threaded Discussions
- PowerPoint Presentations
- Assessments and Examinations
- Instructional Materials – a variety of instructional materials are available to support content in courses, including eTextbooks, instructional videos, and Open Education Resources.

Examinations and Assignments

Assessments help students gauge their understanding of the course material through the grading process. Depending on the level and content of the courses, students will experience multiple types of assessment experiences. The examinations and assignments within a course will vary in type and number. Examples of assessments include multiple-choice examinations, short answer responses, case studies, projects, research, and essays. Course learning outcomes are aligned with the appropriate assignment to assess student mastery of learning.

Account Access

California Intercontinental University students access their student account information, online courses, program schedule, degree audits, and grades in the Student Portal. All online courses reside in the Learn Center. CIU's online courses are designed to be engaging, user-friendly, and easy to navigate. Students can perform the following tasks online via the Student Portal:

- Set up student accounts; view and edit account information
- View account balances and make tuition payments
- Access online courses and course materials for current and completed courses
- Submit assignments, multiple-choice exams, and proctored exams
- View assignment and exam grades
- Access the California Intercontinental University online library and Student Resource Center
- Be a part of California Intercontinental University's online Student Community
- Download school forms

Communication with Students

Students are required to set up and maintain their profile information within the CIU Student Portal (<http://myportal.caluniversity.edu>). It is the responsibility of the student to ensure that the information within the student profile is accurate and current. Also, where applicable, materials will be shipped to the address on the student profile. CIU is not responsible for shipments or correspondence sent to the incorrect shipping address or e-mail address. All e-mail correspondence to students will be sent from the staff or faculty's CIU's email address to the student's CIU e-mail address listed on the student profile. Faculty personal email addresses are not permitted to be used with students.

University Student Email Policy

California Intercontinental University has established email as an official means of communication with students. An official California Intercontinental University email address is required for all students. The University has the right to send official communications to the University email address, which is based upon the assigned to the student. The University expects that every student will receive email at his/her/their California Intercontinental University email address and will read email on a frequent and consistent basis. A student's failure to receive and read University communications in a timely manner does not absolve that student from knowing and complying with the content of such communications.

Students may elect to redirect (auto-forward) email sent to their University email address. Students who redirect email from their official University email address to another address do so at their own risk. If email is lost as a result of forwarding, it does not absolve the student from the responsibilities associated with communications sent to their official University email address.

Live Orientation Experiences for Students

New Student Orientation (NSO)

California Intercontinental University hosts required live orientation events for new students. Student Success Advocates coach new students on everything they need to know in order to successfully begin with their course/program. Student Success Advocates guide new students through activating their student account, accessing their course materials, requesting transcripts, submitting exams, and learning how to best take advantage of all the resources that are available to them. The format is highly personalized, and the online orientation course is fully interactive. CIU advisors speak to new students via phone, email, MS Teams or text, and students are able to ask questions in real time by the advisors.

Graduate Research Course Orientation

Students within the Doctoral program with the Dissertation Track who have successfully completed the core and specialization courses and successfully passed the Comprehensive Competency Assessment (CCA) are required to participate in a Graduate Research Course Orientation. Students are provided with an overview and understanding of the requirements for the CIU dissertation course phase.

Doctoral Research Project Orientation

Students within the Doctoral program with the Capstone Track who have successfully completed the core and specialization courses and successfully passed the Comprehensive Competency Assessment (CCA) are required to participate in a Doctoral Research Project Orientation. Students are provided with an overview and understanding of the requirements for the CIU dissertation course phase.

eTextbooks

Each course consists of online course materials and is accompanied by Instructional Materials supporting the content of the course. eTextbook access is provided the Friday prior to the Term start date and ends on the last day of the Term. If students receive an incorrect or incomplete access, they need to contact their Student Success Advocate for assistance. Students have the alternative to buy hardcopies of Academic Textbooks outside of CIU's resources. CIU will not provide payment or reimbursement for any hardcopy or online book purchases.

Courses and Assignments

Each course is composed of six units. Depending on the course subject and degree level, each unit typically contains lecture notes, assignments, threaded discussions, videos, websites, and a variety of activities such as reading, case studies, research papers, course assignments and assessments. Multiple-choice exams are auto-graded immediately upon submission and students can view their grades immediately. Writing assignments within courses are graded within 3 calendar days from the assignment due date.

Due to the length, breadth, and depth of assignments within the GRC dissertation sequence and DRP capstone sequence, Chair response time and feedback for students is within 5 calendar days from the date of student's submission. The Chair will only review the student's current milestone. If more than one milestone is submitted, the Chair will only review the one that is most recent. Faculty and students are required to have a minimum of two exchanges per term with substantive and rigorous interaction. Students can view their grades along with faculty feedback and comments.

Students have limited access to completed courses. It is recommended for students to save and maintain their coursework for future reference.

Completion Time

At the undergraduate level, California Intercontinental University offers two-year associate degree programs and four-year bachelor's degree programs. At the graduate level, CIU offers two-year master's degree programs, and four-year doctorate degree programs.

Students are encouraged to set a time schedule for completing coursework. Setting and maintaining a regular study schedule will enable students to complete their coursework within the prescribed time limits detailed below. Students who do not complete their programs of study within the prescribed time limits should contact the Registrar's Office to seek an incomplete grade. Upon meeting graduation requirements, students will be awarded a diploma based on their program of study. No assurance is made of eligibility for college admission or job placement.

Acceptance for transfer of academic credits is determined by the receiving institution.

Undergraduate Programs

An associate degree program can be completed in approximately two years; however, students are allowed a maximum of three (3) years from the date of enrollment to complete their program.

A bachelor's degree program can be completed in approximately four years; however, students are allowed a maximum of six (6) years from the date of enrollment to complete their program.

Graduate Programs

A master's degree program can be completed in approximately two years; however, students are allowed a maximum of three (3) years from the date of enrollment to complete their program.

A doctorate degree program can be completed in approximately four years; however, students are allowed a maximum of eight (8) years from the date of enrollment to complete their program.

Course Substitutions

To meet graduation or course scheduling needs, course substitutions may be offered to students. The substitution

course will be similar in discipline and/or subject matter and the same number of semester credits as the required course. A course substitution requires approval from an academic administrator. CCA exams or GRC/DRP series courses are not eligible for course substitutions.

Comprehensive Competency Assessment (DBA program only)

The Comprehensive Competency Assessment (CCA) is a 4-6 pages paper each doctoral student must complete at the end of their coursework in their respective doctoral degree programs. The students will identify a problem on a topic of interest relating to a single business or organization. The student must include the information on Background to the Business Problem, Formulation of a General Problem Statement, and Formulation of a Specific Problem Statement. The CCA is not merely an academic exercise; it is a testament to the culmination of a student's intellectual journey through their core courses. It reflects their capacity to synthesize knowledge, apply analytical frameworks, and contribute meaningfully to the discourse surrounding a real-world business or organizational dilemma. Through the rigors of this assessment, students showcase not only their acquired skills but also their potential to make valuable contributions to their respective fields of study.

ACADEMIC POLICIES

Academic Honesty Policy

Ideas and learning form the core of the academic community. In all centers of education, learning is valued and honored. A learning community cannot thrive if its members compromise their achievement and seek to establish an unfair advantage over their fellow students. Academic standards are based on a pursuit of knowledge and assume a high level of integrity in every one of its members. When this trust is violated, the academic community suffers injury and must act to ensure that its standards remain meaningful.

All students, staff, and faculty are required to read, understand, and adhere to the Academic Honesty Policy and the expected student conduct. Students are expected at all times to submit their own work for all assignments, to present their own work and ideas in all discussions, and to properly cite original authors and others when referring to sources used. Students must succeed in their classes and programs without violating the Academic Honesty Policy.

All students are expected to understand that violations of the Academic Honesty Policy carry academic consequences. Violations of the policy include but are not limited to copying, plagiarism and cheating, lying, unauthorized collaboration, alteration of records, misuse of student identification number, bribery, and/or misrepresentation for the purpose of enhancing one's academic standing. See the CIU Student Handbook for more details.

The Academic Honesty Policy is designed to foster a fair and impartial set of standards upon which violations to the policy will be judged. A proven violation carries academic consequences. There may be informal and formal consequences, e.g., plagiarism. In the case of a violation involving plagiarism, informal consequences are between the student and faculty within an active course. Informal consequences may include written warning, point deduction or failure of assignment, and/or dismissal from class if multiple violations occur.

If the faculty decides that the violations warrant a formal academic review, then the student's case will be escalated to the Academic Affairs Review Committee (AARC). The AARC consists of three or more independent qualified faculty/academic staff members that review the alleged violation along with any evidence from the faculty member or the student. Students are notified of the outcome of the AARC regarding the incident.

The AARC reserves the right to issue any penalty subject to the severity of the violation. The student may be placed on academic warning, academic probation, and/or maybe dismissed from the program. If an egregious violation occurs, students may be immediately academically dismissed from their program or the University.

CIU has the right, at its discretion, to review any exams/assignments that have already been graded and to change the grade if plagiarism is found. A CIU graduate who is later found after graduation to have plagiarized, including allowing a student to copy his/her/their paper, may have his/her/their diploma revoked as per the Revocation of Degree Policy.

Plagiarism Policy

This CIU Plagiarism Policy is intended to foster awareness, understanding, and conformity with copyright and intellectual property laws. This policy applies to all intellectual property, which includes publications that are written or electronic, any ideas and inventions, verbiage, and phrasing.

Plagiarism is defined as an act or instance of using or closely imitating the language and thoughts of another author without authorization and the representation of that author's work as one's own, as by not crediting the original author (www.dictionary.com, 2020).

Seriousness of Plagiarism

Plagiarism can be intentional or unintentional. It represents a contravention of academic integrity. Intellectual honesty is rooted in the belief that constituents of the academic community recognize the architects and originators of ideas, words, phrases, and data that shape the foundation of their work. Therefore, presenting someone else's ideas as your original thought is not only an abysmal scholarship, but it also suggests that you have circumvented the learning process. Plagiarism is not only dishonorable but can also have severe implications on your professional career. It also threatens and subverts the standards of the University and of the degrees it awards. To guide students, CIU has elaborated on the definition of plagiarism in the following ways that relate more directly to architecture education.

Intentional Plagiarism

Intentional plagiarism is knowingly asserting authorship of work that represents the ideas, words, or research of others. Examples of this type of plagiarism include:

Verbatim (word for word) quotes without crediting the source

If you are quoting, it must be presented as such by either presenting the quoted text in parentheses or indented, referencing the source used in accordance with APA. At all times, the reader should be clear on which parts of your paper represent your original thought and where you have integrated the ideas and words of others.

Cutting and pasting from Internet

Like any other outside source, information taken from the Internet must be appropriately cited and included in your list of references. It is also equally important to carefully evaluate the credibility of all material found on the Internet since the validity and reliability of these articles are often questionable. Unlike peer-reviewed sources that have been written and/or reviewed by experts in the field before being published, Internet articles do not go through the same rigorous process before publication.

Paraphrasing

Paraphrasing the work of others by modifying some words, by reconfiguring the sequence of the words, or by maintaining a very similar line of argument is considered plagiarism if you fail to acknowledge to the originator of whose work you are using.

Merely making a casual mention of the original author in your paper is insufficient as this may lead the reader to believe that the paraphrased wording, or the sequence of ideas is altogether your original thought. A more effective approach would be to summarize the author's overall argument using your words, and include the appropriate citation, rather than paraphrasing particular sections of someone else's work. By doing this you are essentially conveying that you have gained a firm grasp of the argument while avoiding the pitfalls of paraphrasing without plagiarizing.

Collusion

This could range from the unauthorized collaboration between students on assignments beyond the university standards, neglecting to reference assistance received, or not following the precise regulations on group projects. As a student at CIU, you are responsible for ensuring that you are fully apprised of the scope of collaboration allowed, as well as which sections of an assignment must be done individually.

Improper citation

It is incumbent on students to ensure that citations are proper and in accordance with APA guidelines. You should at no time include sources in your references that were not consulted and cited in the body of your paper. If at any time you are unable to access a primary source it should be reflected in your citation that your knowledge of the subject was taken from a secondary source (For example - Woods, T. The Benefits of Effective Leadership, discussed in Johnson, F., Leadership in the 21st Century (London, 2017), p. 275).

No mention of assistance received

Students must recognize any assistance received that aided in the production of their work. Assistance encompasses advice received from colleagues, laboratory technicians, or any other contribution from external sources. Any assistance provided by your tutor or mentor, or from those who provided ordinary proofreading assistance need not be acknowledged. What is important is that you credit any external contributions that resulted in significant changes to the content of your work or in your approach to the subject.

Using material written by professional agencies

It is a violation of CIU's honor code to use professional agencies to complete your work or present material that was composed for you, even though the person/agency consented to do so. It is of critical importance not only to your intellectual growth, but personal development that you undertake all required coursework, including research unaided.

Auto-plagiarism

At CIU, you are prohibited from submitting for assessment work that was previously submitted (either partially or in full), regardless of whether it is for your current program or another program sometime in the future, unless this is expressly stated in the special regulations for the course in question. Where previous submissions or publications are citable, you are required to reference it according to APA guidelines. **If you make more than one submission of the identical piece of work simultaneously this falls under the umbrella of auto-plagiarism.**

Unintentional Plagiarism

CIU acknowledges that some incidences of plagiarism do not emanate from a student's purposeful intent to cheat. Some students may inadvertently exclude or forget to record citation details when conducting research, while some may be genuinely oblivious to the referencing conventions of their particular discipline. Notwithstanding these understandable circumstances, regardless of the excuse provided, there is no absolution when you are found to have

plagiarized. Even when plagiarism is determined to be neither willful nor audacious, the academic penalty for poor practice may still be applied.

As a student at CIU, you must be cognizant of the established referencing conventions of your discipline, to ensure that you are taking accurate notes, and avoid potential charges of plagiarism. The University offers writing assistance, as well as a plethora of resources on citation and plagiarism. It is strongly recommended that you avail yourself of these resources. There is also information and guidance provided in your course syllabus and assignment instructions that will help you circumvent the risk of plagiarism and avoid common citation errors. If you are completing a research project or dissertation, please ensure that you are fully apprised and have all the pertinent information on citation, plagiarism, and collusion. The faculty at CIU also recommends that you invest in a copy of the APA manual 7th edition which provides a comprehensive guide through the scholarly writing process.

Avoiding Plagiarism

The most effective way of avoiding potential charges of having plagiarized is to master and apply the conventions of proven academic best practices from the inception of your program here at CIU. Being able to avoid plagiarism is not merely ensuring that your references are in accordance with APA or altering sufficient words so that your professor will not notice your paraphrase; rather, it is deploying your academic skills and making use of the wealth of resources available at CIU in a way that is meaningful so that it enhances the quality of your work.

At CIU we want you to have your unique ideas on the issues, and to vocalize your perspective in your own words, rather than merely repeat/duplicate the opinions expressed by others. Initially, you may experience some challenges constructing your independent point of view and may find paraphrasing the ideas of others useful as you navigate the wealth of resources that will be available to you. However, it is of critical importance as an academic writer that you develop your voice. At CIU, the expectation is not always that you become an original thinker, but rather, you become an independent one - by acquiring the skills necessary for a critical assessment of the work of others, by evaluating different perspectives or arguments, and drawing your independent conclusion.

A student that plagiarizes subverts the ethos of academic scholarship while averting a fundamental component of the learning process. At CIU, we expect that you steer clear of plagiarism since your aspirations should be set on producing the highest quality work. Once you understand the essentials of how to use outside sources and to properly cite them, it should be reasonably straightforward to avoid plagiarism altogether. In addition to avoiding potential charges of plagiarism, you are also likely to benefit from improvement in both the clarity and quality of your work. Finally, it is important to remember that proficiency in writing is more than a practical skill, it also lends credibility and authority to your work, and provide evidence of your tenacity and enduring commitment to the principles of maintaining intellectual integrity in scholarship.

Resources and Prevention

CIU offers several resources for students who require information on plagiarism and citation. These resources include:

- Seminars and training on APA citation
- Writing Center assistance
- Classroom instruction on documentation of sources
- Library recommended websites and sources on how to avoid plagiarism

Procedures for Plagiarism Violation

At California Intercontinental University we expect students to engage in intellectual activity while adhering to our high academic standards in the strictest sense. Moreover, how our students, faculty, and staff act is representative of

our university as well as the professional and personal communities we lead. It follows, therefore, that the expectation is we exhibit an uncompromising and abiding commitment to academic integrity in all our dealings. This is the focal point of a CIU education. Any violation of the University's Plagiarism Policy is a serious offense whether the plagiarism is intentional or unintentional, and different levels of sanction would be administered for this type of academic dishonesty.

If a student is suspected of plagiarism, the faculty member is required to promptly contact the student involved, advise him/her of the violation, furnish evidence of the violation (Turnitin Similarity Report), review the infraction, and advise the student on a penalty. A similarity index of 20% or less is generally acceptable and is reflected as green in the report icon. It is important to note however, that the 'similarity percentage at a glance' is merely a guide, and should not be used as a measure of plagiarism as a similarity score of 1% could potentially be plagiarized. The penalty for the first incidence of plagiarism is a failure on the assignment without the opportunity to resubmit. For the second instance of academic dishonesty, the student is given a disciplinary "F" in the course. A third violation could lead to further disciplinary action up to and including dismissal from the University.

Faculty Responsibility

Faculty members are required to report any incidence of academic integrity to the Chief Academic Officer as well as forward all documents that support the plagiarism violation. The Chief Academic Officer will enter a record of the incident into the student's file. Following three reports against a particular student, action may be initiated that could culminate in the expulsion of the student from the University. The student has the option to appeal the resulting disciplinary action under this policy utilizing the regular channels established by the appeal process as published in the University Catalog.

If in doubt....

Cite! It is better to over-cite than not to cite when you should have done so. Go to your professor if you are concerned that you might be plagiarizing. If you approach your professor for help before the assignment deadline, there are no penalties, and you are likely to have a better learning experience.

Revocation of Degree Policy

If, after a degree has been awarded, a degree recipient is found responsible or involved in a violation of the Student Conduct Code involving academic dishonesty or fraud committed while a student, then CIU may impose, as a sanction, a revocation of the degree, subject to the following procedures:

- The Registrar will submit a recommendation of revocation of the degree to the Academic Review Committee
- A Notice of Intent to Revoke Degree shall be sent to the student. This notice shall include the details of the alleged violation and the basis for the revocation
- The student may submit a written appeal in response to the Intent to Revoke Degree to the Academic Review Committee within thirty business days from the date of the Notice of Intent to Revoke Degree. The imposition of the Revocation of Degree will be deferred during such statement is received and time has passed. If the student does not submit a statement within twenty business days, the sanction of revocation of the degree is final
- The Academic Review Committee will respond with a decision and send final documentation to the student. If the decision is to accept the appeal, the student's transcript will show no information of the revocation. If the decision is to not accept the appeal, the student's degree will be revoked, and all student records permanently noted

Copyright Infringement Policy

Copyright infringement is the act of exercising, without permission or legal authority, one or more of the exclusive rights granted to the copyright owner under Section 106 of the Copyright Act (Title 17 of the United States Code). These rights include the right to reproduce or distribute a copyrighted work. In the file-sharing context, downloading or uploading substantial parts of a copyrighted work without authority constitutes an infringement.

Copyright Infringement Deterrent Plan

California Intercontinental University responds promptly to notices or letters of illegal copyright infringement based on the requirements of the Digital Millennium Copyright Act. Both our Information Technology and Academic departments will investigate and respond to any notice.

If you believe that any material on any of the university's websites infringes upon any copyright which you own or control, you or your designee may send a notification of such claimed infringement to our Designated Agent as set forth below:

Dr. Richard Madrigal
Campus President

California Intercontinental University
101 South Reid Street, Suite 301
Sioux Falls, SD 57103

Phone: (949) 359-0048

Fax: (949) 861-9431

Email: richard.madrigal@caluniversity.edu

Upon receipt of a valid notification, the University will remove or disable access to such material and give notice of a claim of copyright infringement to the user or subscriber who authored the claimed infringing content by means of any one or more of the following methods at the University's sole option: a general notice on the university's website, electronic mail to the content provider's email address in our records, or by written communication sent by first class mail to such user's postal address in our records.

Summary of Copyright Penalties

Penalties for copyright infringement include civil and criminal penalties. In general, anyone found liable for civil copyright infringement may be ordered to pay either actual damages or "statutory" damages affixed at not less than \$750 and not more than \$30,000 per work infringed. For "willful" infringement, a court may award up to \$150,000 per work infringed. A court can, in its discretion, also assess costs and attorney fees. For details, see Title 17, United States Code, Sections 504, 505. Willful copyright infringement can also result in criminal penalties, including imprisonment of up to five years and fines of up to \$250,000 per offense.

For more information, please see the Web site of the U.S. Copyright Office at www.copyright.gov, especially their FAQ's at www.copyright.gov/help/faq. The university may terminate or limit access to users who are deemed to be in violation of copyright laws. In addition, students who are found to have participated in the unauthorized distribution of copyrighted material or other forms of copyright infringement will be subject to the consequences in accordance with the university's conduct policy.

Annual Copyright Disclosure and Education

Consistent with our mission statement, combating illegal sharing of copyrighted material is an integral part of creating a true academic culture. We strive to empower students by informing them and our community about the law and our internal response to copyright infringement claims:

- All students have access to the catalog which contains our Copyright Infringement Policy
- Students are encouraged to submit DMCA (Digital Millennium Copyright Act) notices to our Designated Agent specified herein

Alternative to Illegal File Sharing

The Higher Education Opportunity Act requires all colleges and universities to offer legal alternatives to unauthorized downloading. Although we cannot maintain an up-to-date list of alternatives, we direct students to the Educause list which offers legal sources of online content. Students will find a list that includes legitimate online services; however, California Intercontinental University does not endorse or evaluate these external sites.

To access legal sources of online content visit:

<https://www.educause.edu/focus-areas-and-initiatives/policy-and-security/educause-policy/legal-sources-onli>

Periodic Effectiveness Assessment

California Intercontinental University will review this copyright plan each year to ensure it is current and maintains the appropriate and necessary information to effectively combat illegal file sharing, in addition to updating the methods employed as new technological deterrents become available. Part of the review will include the assessment of the number of legitimate infringement notices received.

Grading Policy

Students are expected to submit all assignments for instructor review for grading on time. The instructor will only grade each assignment once and give feedback at that time. The instructor will not accept or grade assignments a second time with changes from the previous feedback. All assignments must be submitted through the course shell. Any assignments submitted outside of the course shell will not be accepted.

Use of Grading and Assessment Tools

All courses at the university contain grading and assessment tools because they are essential elements of modern higher education. Grading tools measure performance on a single assignment while assessment tools measure skill development across several assignments or courses. Students should expect to encounter a mixture of grading and assessment tools while engaging courses. Rubrics and marking guides are often used to score submissions; therefore, rubrics and marking guides are responsible for generating the scores contributing to a course grade. Course Learning Outcomes (CLO) sheets/guides are commonly used to assess student development across courses without affecting the course grades. Therefore, both types of measurements work in tandem to offer a rich picture of academic development and achievement. Grading and assessment criteria are carefully chosen to drive course revisions and other changes benefiting students. All questions regarding the use of grading and assessment tools and their resulting analysis should be directed to a Student Success Advocate.

Late Grading Penalty

Assignments (other than discussion boards and blogs), quizzes, tests, and exams that are accepted late will have a penalty. Any assignment, quiz, test, and/or exam received after the due date until 7 days after the due date will have

a 10% reduction from total points for lateness. Any assignment, quiz, test, and/or exam received on days 8 through 14 will have a 20% late penalty for lateness. Assignments, quizzes, tests, and/or exams received 15 days after the due date will not be accepted. Discussion boards and blogs are considered part of weekly activity and participation; therefore, they are not accepted beyond the week that they are active.

Undergraduate Grading System

Plus / minus letter grades (A, A-, B+, B, B-, C+, C, etc.) are used for undergraduate programs to assess student learning and academic achievement fairly and objectively. They are recorded in transcripts and used to calculate Cumulative Grade Point Average (CGPA). The undergraduate grading system is listed in all undergraduate level course syllabi.

Grade Point Average (GPA): Total Grade Points Earned/Total Units Attempted for Grades. The Office of the Registrar is responsible for the recording of official grades into students' official academic records or transcripts and the release of term grades to students, upon request.

Course retakes are billed at the current tuition rate, are subject to the Course Retake Policy under the following conditions:

- An undergraduate student who received a "D-" grade may request to repeat the course
- All students must retake required courses in which an "F" grade was received
- Students may retake a course but must remain in compliance with SAP

Undergraduate Grading Criteria

A, A- = Excellent

The student has demonstrated a thorough understanding of the content and skills presented in the course, consistently initiates thoughtful questions, and can see many sides of an issue. The student writes logically and clearly. He or she also integrates ideas throughout the course and, as appropriate, from previously completed courses in a program.

B+, B, B- = Good

The student is an excellent writer, maintains consistent performance, and demonstrates an understanding of course content that goes beyond the minimum requirements.

C+, C, C- = Satisfactory

The student demonstrates a minimal comprehension of the skills and subject matter included in the course, and accomplishes only the minimum requirements, while displaying little or no initiative.

D+, D, D- = Poor

The student's performance is barely acceptable. Assignments are late or missing and there is not even a minimal understanding or mastery of course content skills.

F = Failing

Quality and quantity of work is unacceptable.

Undergraduate Programs Grading Scale

Grade Awarded	Grade Point	Description	Grade Scale
A	4.0	Outstanding	94.00% - 100.00%
A-	3.67		90.00% - 93.99%
B+	3.33	Good	87.00% - 89.99%
B	3		84.00% - 86.99%
B-	2.67		80.00% - 83.99%
C+	2.33	Average	77.00% - 79.99%
C	2.00		74.00% - 76.99%
C-	1.67		70.00% - 73.99%
D+	1.33	Poor	67.00% - 69.99%
D	1.00		64.00% - 66.99%
D-	.67		60.00% - 63.99%
F	0.00	Fail	Below 60%
WF	0.00	Withdrawal/Fail	
AU	Not Calculated in GPA	Audit	
CR	Not Calculated in GPA	Credit	
I	Not Calculated in GPA	Incomplete	
SP	Not Calculated in GPA	Satisfactory Progress	
NC	Not Calculated in GPA	No Credit	
P	Not Calculated in GPA	Pass	N/A
TC	Not Calculated in GPA	Transfer Credit	
WD	Not Calculated in GPA	Withdrawal/Dropped

Comprehensive Competency Assessment Grading Scheme (DBA program only)

The Comprehensive Competency Assessment (CCA) is graded using a rubric which can be found in the CCA course room. There are two grades for the CCA, No Credit (NC) and Pass (P). Students earning a NC must retake the CCA. Students earning a P have fulfilled the requirements for the CCA and progress to the GRC or DRP series. Students may attempt the CCA a total of three times. Students not earning a P after the third attempt may be dismissed from their program.

GRC and DRP Series Grading Scheme

The Graduate Research Courses (GRC), or dissertation series courses, and the Doctoral Research Project (DRP), or capstone series courses, are graded using rubrics which can be found in the GRC and DRP course rooms. There are three grades for these courses, No Credit (NC), Satisfactory Progress (SP), and Pass (P). Students earning an SP or NC must retake the course. Students earning a P have fulfilled the requirements for the course and can progress to the next course in the series.

While the student may pass GRC or DRP courses, the Dissertation/Research Project phase is an iterative process and may require students to return to previous chapters/sections that were passed to make adjustments and changes as they progress through their dissertation or research project until they pass the oral examination.

How to Calculate GPA

To compute the grade point average, the total number of credit units is divided into the total number of grade points. Course units count only once toward graduation requirements. "I," "WD," "SP," "P," "CR," "NC," "TC" designations carry no grade points and are not considered when figuring the grade point average. When a course is repeated the original grade remains part of the permanent record but is not calculated in the grade point average. Each letter grade is worth a certain number of grade points.

A	4.0
A-	3.67
B+	3.33
B	3.0
B-	2.67
C+	2.33
C	2.0
C-	1.67
D+	1.33
D	1.0
D-	0.67
F	0.0

Example:

In the first semester, a student's grades in the first five courses are: A, B, A, C, and A. The GPA would be calculated as follows.

STEP 1: Add the grade points for all courses taken during the semester.

$$\begin{array}{r} A = 4 \text{ points} \\ B = 3 \text{ points} \\ A = 4 \text{ points} \\ C = 2 \text{ points} \\ A = 4 \text{ points} \\ \hline = 17 \text{ grade points} \end{array}$$

STEP 2: Divide the total number of grade points by the number of courses.

$$\begin{array}{r} 17 / 5 = 3.40 \\ \hline \text{GPA is } 3.40 \end{array}$$

Attendance Policy

Students must attend and participate in their courses on a weekly basis throughout their programs.

Attendance includes:

- Submitting an academic assignment
- Taking an exam and/or quiz or
- Participating in an online discussion

Attendance is not:

- Logging into your course without active participation, or
- Participating in academic counseling or advisement

Student non-attendance during the Add/Drop period (the first seven [7] days of a term) will be construed as willing disregard for this policy and students become eligible for being unregistered from any future courses and withdrawn from the university. No charges will incur, and no grades earned or posted for courses not attended.

Students who fail to attend for 14 consecutive days within a term, after the Add/Drop period, will be eligible for withdrawal. Students who are unable to attend for 14 consecutive days within a term are encouraged to contact their Student Success Advocate to make proper arrangements and avoid being withdrawn.

Final Assignment Submission

The cutoff day/time for students to submit all required course assignments is the last day of the term, the Sunday of week 6 at 11:59 pm PST. This is to ensure that faculty have adequate time to grade course assignments for final grade submission. Course shells will be closed at this time and any unsubmitted assignments will not be reviewed or graded.

Faculty Response Time

Faculty are provided 48 hours for responses to basic e-mail and phone communications and 3 days for issuing grades on individual assignments and 3 days for final course grades. Faculty are provided 5 days for issuing feedback on dissertation or research project work. For dissertation or research project work, faculty and students are required to have a minimum of two synchronous (phone or virtual meeting) exchanges per term with substantive and rigorous interaction.

California Intercontinental University is supportive of students submitting homework early, especially if working one or more weeks ahead of the course schedule. While students may submit work early, faculty are not required to grade the assignment until the due date and then will follow the faculty grading policy.

Student Code of Conduct Policy

The content of the Student Code of Conduct (or Code) supplements the University catalog and relevant publications. The Code assists students with successful ethical decision making and life at the University. The Code is not exhaustive and is subject to change, at any time, as deemed appropriate by the University at its sole discretion.

Changes to the Code may be implemented without notice and obligation—unless announced otherwise upon the implementation of such changes.

Jurisdiction of the Code of Conduct

The Code applies to all University students. Violations of the Student Code of Conduct may include conduct occurring on or off-campus, including online and electronic communication or other conduct, when the University determines it has a substantial interest in the conduct. The University has a substantial interest in conduct when it:

- Occurs at University-related events, including but not limited to LearnCenter course room discussions and activities, live course room sessions, live orientation meetings, live training sessions, any verbal and written contact with University faculty and staff
- Occurs during study abroad, clinical, internship, or other academic programs
- Constitutes a violation of local, state, or federal law, including repeat violations of any local, state, or federal law committed in any country where the University operates
- Indicates that the individual may present a danger or threat to the health or safety of him/herself or others
- Significantly threatens the rights or property of those protected by this Code
- Is harmful to the educational mission of the University

Notwithstanding any other provisions of the Code, the University reserves the right to take any action, which in its judgment, is necessary and appropriate to protect the safety and well-being of the campus community.

Actions Constituting Violations of the Code

The following actions constitute violations of the code:

- Action 1. Acts of dishonesty not limited to the following:
- a. Violation of the Academic Honesty Policy (AHP), inclusive of cheating, plagiarism, fraudulent submissions of works, or miscellaneous forms of academic dishonesty
 - b. Violation of University policies, procedures, and communications channels
 - c. Violation of local, state, federal, or regional laws while engaging in the University
 - d. Knowingly offering materially false (or misleading) information to a University instructor, administrator, or other designated official
 - e. Knowingly triggering a false report or threat
 - f. Unauthorized usage or alteration of official University documents, transcripts, or identification card
- Action 2. Intentionally or recklessly causing injury, harm, or apprehension to individuals or groups subject to the Code.

- Action 3. Intentionally or recklessly interfering with University activities, including, but not limited to, studying, teaching, research, residential activities, administration, student conduct proceedings, or the provision of supplementary services.
- Action 4. Failure to comply promptly with the Student Communication Policy.
- Action 5. Engaging in sexually harassing conduct so sufficiently severe, pervasive, and objectively offensive that intimidating, hostile, or offensive educational or work environment.
- Action 6. Engaging in discriminatory harassing conduct so sufficiently severe, pervasive, and objectively offensive that intimidating, hostile, or offensive educational or work environment.
- Action 7. Engaging in other harassing conduct so sufficiently severe, pervasive, and objectively offensive that intimidating, hostile, or offensive educational or work environment.
- Action 8. Failure to comply promptly with the directions of and verbally threatening, abusing, or harassing any University official, including, but not limited to, student and professional staff members.
- Action 9. Disorderly conduct, or lewd, indecent, or obscene behavior.
- Action 10. Any behavior that disrupts or causes disruption to computer services, damages, alters or destroys data or records, adversely affects computer software, programs, systems, or networks. Using any data, computer system, or network to devise or execute any scheme to defraud, deceive, extort, or wrongfully obtain money, property, or data.
- Action 11. Acquiring and publicly publishing (or doxing) information such as student IDs, login information, examination passwords, exams, and assignments without the consent of the University.
- Action 12. Failure to take reasonable steps to avert, stop, report, or leave a situation involving a violation of the Code. Attempting, conspiring to commit, or aiding and abetting in violating the Code.
- Action 13. Violating the terms of, or failure to complete, any sanction imposed in accordance with this Code.

Academic Honesty Policy (AHP)

In all centers of education, learning is valued and honored. A learning community cannot thrive if its members compromise their achievement and seek to establish an unfair advantage over their students. Academic standards are based on a pursuit of knowledge and assume a high level of integrity in all members. When this trust is violated, the academic community suffers an injury and must act to ensure that its standards remain meaningful.

The Code asks each student to demonstrate maturity, responsibility, honesty, and integrity. Students are expected to:

- Act honestly in all matters
- Foster an environment supporting academic integrity
- Discourage cheating and inform an instructor of potential instances of cheating when in possession of good faith, belief, and evidence that a violation of the Code has occurred

What Constitutes Cheating, Plagiarism, and Related Offenses?

Cheating is defined as the deliberate communication or reception of an unauthorized or dishonest advantage. Such communications include, but not limited to, the following: duress, fraud, deception, exchange of previously graded examinations, reusing previously written essays, and attempts at cheating. Examples include, but are not limited to:

- Use of resources not authorized by the instructor or readily available to all students in the course, including past exams, for the completion of an assignment or to study for an exam
- Copying graded assignments from another student or giving one's work to be copied or used by another student
- Selling work from a course or purchase of coursework or other unauthorized assistance from an online source
-

- Doing homework, taking an exam, writing a paper, or doing any other coursework for another student or allowing another person to do it for you, when not explicitly permitted by the University
- Using any technological/communication tool not authorized by the University during an exam or quiz
- Engaging in behavior expressly prohibited by an instructor during class discussions, in the course syllabus, or via other course- specific communication means or tools

Plagiarism is defined as presenting work or the opinions of others without proper acknowledgement, summary, paraphrase, or citation. Plagiarism includes, but is not limited to:

- Failing to give credit for ideas, statements of facts, or conclusions derived by another author; failure to use quotation marks when quoting directly from another, whether it is a paragraph, a sentence, or part thereof; failure to cite the work of another person
- Submitting an assignment purchased or obtained from research or term paper services
- Submitting an assignment, whole or in part, obtained from the internet or another unauthorized resource
- Submitting papers or speeches for credit that are substantially the same in two or more classes without prior written approval of the instructors involved

Miscellaneous Forms of Academic Dishonesty include, but are not limited to:

- Altering answers on a scored test or any graded work and submitting it for a higher grade without explicitly articulating the alterations made
- Planning with one or more students to commit any form of academic dishonesty
- Lying to an instructor or providing any misrepresentation of information to receive any academic advantage or accommodation
- Misrepresenting the content of e-mailed communications shared between student and professor as to receive any academic advantage or manipulate a University process

Students found engaging in cheating, plagiarism, or another offence may be determined as in being in violation of the Code. Instructors and University administration may impose academic sanctions at the discretion of University administration. Further, students found violating the Code may incur a failing grade, suspension, dismissal from the University, or revocation. In such cases, a notation of the sanction will appear on the student's transcript.

Process for Determining Instances of Code Violations and Enforcement

The Code is charged with establishing standards used to determine whether a student honored the Code, behaved ethically, and remained an upstanding member of the University. When a student is found in violation of the Code, they may be subject to academic consequences, suspension, dismissal, or revocation.

Plagiarism. The first instance of plagiarism results in an instructor generated warning and suggested remedy. In such cases, the student will receive a message in the grade book indicating the finding and next steps to resolve the instance. However, additional instances will result in an instructor's referral of the student to University administrators and the Academic Review Committee (ARC). The ARC reserves the right, at its discretion, to review/regrade any exams/assignments that have already been graded and make recommendations to University administrators.

Cheating and Miscellaneous Forms of Academic Dishonesty. The first instance of such violations will result in referral of the student to University administrators and AARC. The AARC reserves the right, at its discretion, to review all relevant information, evidence, and documentation as to determine a suitable penalty. Penalties may include, but are not limited to, the following actions:

- A documented warning
- Documented counselling by staff or designated University representative
- Resubmission of work subject to a grade penalty or an alternative assignment
- Failing grades for an assignment, group of assignments, or course
- Suspension processes
- Dismissal from the University
- Revocation of a degree

In all cases, the AARC will advise the University administration on proper courses of action and remedies.

Graduates found to have plagiarized, including allowing a student to copy his/her/their paper, may have his/her/their diploma revoked as per the Revocation of Degree Policy. If a degree recipient is found responsible or involved in a violation of the Code, then the University may revoke the degree(s).

Student Communications Policy

The California Intercontinental University Conduct and Communications Policy refers to the respectful conduct of California Intercontinental University staff, faculty, and students in any school communications, including students' course assignments, test responses, and, where applicable, threaded discussions.

California Intercontinental University provides students with different communication channels for communicating with its staff and faculty and responding to assignments and tests. Communication channels include e-mail, phone, mail, text, MS Teams, chat rooms, and the Student Community. Other communications channels include the Student Portal or the LearnCenter, which are used for submitting course assignments, tests, threaded discussion and blog responses, and communications to faculty.

It is college policy that California Intercontinental University staff, faculty, and students maintain respectful, professional, and polite conduct in all communications. All staff, faculty, and students are expected to treat one another with respect. Negative emotions, rude language, and/or profanity have no place in any communication channel, including phone, written, electronic, etc. Any staff, faculty, or student using irate, sarcastic, rude, harassing, or offensive language in any type of communication channels to any staff, faculty, or student at the university will be subject to disciplinary action up to and including dismissal from California Intercontinental University.

To allow continual communications with California Intercontinental University students, it is required that students update California Intercontinental University with any changes to the student's account information. Student account information can be accessed through the Student Portal, or students can contact the Registrar's Office with any changes to the student's name, address, e-mail, or phone number.

NOTE: California Intercontinental University official communications are sent via email, text, WhatsApp, MS Teams, or mail. Most official forms require electronic communication by e-mail unless forms or directions state otherwise. Students are held responsible for official California Intercontinental University communications sent to students. Students should check their email accounts regularly and respond, where needed, to any communications from CIU.

Dissertation Course Enrollment Policy

The Graduate Research Course (GRC), or dissertation series, consists of five courses, GRC 641-645. To be enrolled in the dissertation series, students must earn a Pass mark on the CCA exam. Participation in GRC orientation is required by all students enrolled into the dissertation series.

The dissertation series is a set of structured courses supporting the creation of a five-chapter dissertation with an assigned Dissertation Chair.

Incomplete Grades for the Dissertation Sequence

Due to the rigor of dissertation work, students often take multiple consecutive six-week terms to complete each GRC course. The dissertation sequence does not utilize an incomplete (I) mark. Instead, the In Progress (IP) mark indicates the noncompletion of a dissertation course. The IP mark does not affect GPA.

Grade Appeals, Reviews, and Dismissal Appeals

Performance within a dissertation course is measured using rubrics and written artefacts. All appeals involving grades and reviews must follow the appropriate processes stated in the catalog and student handbook. Dissertating students have the right to appeal a dismissal due to noncompletion of a course. In such matters, students should contact a Student Success Advocate and request an appeal.

Research Project Course Enrollment Policy

The Doctoral Research Project (DRP), or capstone series, consists of five courses, DRP 801-805. To be enrolled in the capstone series, students must earn a Pass mark on the CCA exam. Participation in DRP orientation is required by all students enrolled into the capstone series.

The capstone series is a set of structured courses supporting the creation of a research project with an assigned Research Project Chair.

Incomplete Grades for the Research Project Sequence

Due to the rigor of the research project work, students often take multiple consecutive six-week terms to complete each DRP course. The research project sequence does not utilize an incomplete (I) mark. Instead, the In Progress (IP) mark indicates the noncompletion of a dissertation course. The IP mark does not affect GPA.

Grade Appeals, Reviews, and Dismissal Appeals

Performance within a research project course is measured using rubrics and written artefacts. All appeals involving grades and reviews must follow the appropriate processes stated in the catalog and student handbook. Students have the right to appeal a dismissal due to noncompletion of a course. In such matters, students should contact a Student Success Advocate and request an appeal.

Institutional Review Board (IRB)

The Institutional Review Board (IRB) is responsible for all California Intercontinental University research involving human subjects. The IRB's primary responsibility is to protect the rights and welfare of human research subjects, in accordance with Department of Health and Human Services (DHHS). All research conducted at CIU must be in accordance Code of Federal Regulations Title 21 and CIU IRB standards—without exception. This IRB is registered with OHRP under the IORG number: IORG0009589 and holds FWA approval number FWA00026754.

IRB is required to review all research proposals, formal and informal, funded or not, that are prepared by students, instructors, and staff, especially those that involve the use of human participants. The IRB is legally required to ensure all the following standards are met:

- Risks are justified in terms of related benefits to the participants and society
- Participants engage in research willingly and knowingly to the extent possible
- Research methods are appropriate to the objectives of the research
- Research methods are the safest possible and are consistent with sound research design
- Participants' privacy is protected
- Research is monitored

To accomplish these purposes, researchers are required to complete the appropriate applications and obtain the IRB approval whenever research involving human participants is proposed, before beginning research with human participants. Applying the U.S. federal government's definitions, a human participant is a living individual about whom an investigator conducting research obtains: (a) data through intervention or interaction with the individual; or (b) identifiable private information, and research is a systematic investigation (i.e., the gathering and analysis of information) designed to develop or contribute to generalized knowledge.

All research projects involving collection or analysis of data (whether from surveys, interviews, observation, student or employee work products, or records of any type) must be reviewed and approved by the IRB. Moreover, no member of the university community may commence any research procedure involving human participants until it has been approved by the IRB. The only categories of research that do not need to be submitted for IRB approval are literature reviews and hypothetical research designs; although the IRB reserves the right to review proposed nonhuman research projects.

Information supplied during the IRB process shall appear as part of an application process suited for the evaluation of ethical and methodological aspects of all proposed research. In general, all reviewed research shall submit at least the following information:

- A basic understanding of the IRB and its purpose.
- CITI Social-Behavioral-Educational (SBE) certification.
- A completed application indicating the nature of the study, relevant stakeholders, potential participants, potential data collection and processing, revised common rule compliant proposed informed consent processes, possible conflict of interests, and other essential information about the proposed study.
- An explanation of how confidentiality and privacy, for participants, will be maintained while conducting and concluding the study.
- Additional information as deemed necessary by IRB members.

Proposals lacking the above and failing to honor IRB information requests may be delayed or terminated. University research ethics forms, guidance, and applications may be retrieved from the IRB course room.

STUDENT AFFAIRS

Registrar

The Office of the Registrar is responsible for the administration of academic services and management of student records. The Registrar's Office performs the following functions:

- Compilation and maintenance of student educational records
- Processing of student admissions, extensions, withdrawals, and dismissals
- Evaluation of transcripts and determination of transfer credits
- Formulation of degree plans based on transfer credits awarded
- Verification of student enrollment in courses and programs
- Provision of official and unofficial transcripts per student requests

- Enforcement of all academic policies
- Assessment and conferral of degrees

Registration

California Intercontinental University will register students into courses needed for their degree program. Students may review future course registration online through the Student Portal.

Students will be registered into courses by the Academic Department staff for the entirety of their programs. Students may request changes to the order in which courses are taken at any time, depending on course availability, any transfer credit received, or course prerequisites.

No enrollment or addition of courses is permitted after the first week of a term, which is the Add/Drop deadline. Any requests to drop or add a course must be made on or before 11:59 PM PST, the Sunday of the first week of a Term.

Term course offerings may be revised by California Intercontinental University without notice, but prior to the Add/Drop date being the last day of the first week of each Term.

Academic (Semester) Unit

California Intercontinental University uses the Carnegie Unit formula for defining credit hours. Students in a 3-credit distance education course should expect to spend a minimum of 135 hours of study time.

The study time includes instructor-facilitated asynchronous discussions, outside-of-class learning activities including but not limited to completing academic assignments, reading assignments, conducting research, and contributing to asynchronous group discussion.

Academic (Study) Load: Full Time and Part Time Students

Undergraduate Students

Students registered for 12 credits or more in a semester are considered Full-Time students. Students registered in 9 credits in a semester are considered Three Quarter-Time students. All students registered in less than 12 credits per semester are considered Part-Time students.

Graduate Students

Graduate students enrolled in one course every six weeks are considered full-time students. Graduate students enrolled in 2 courses per semester are considered half-time.

VA Students

For students using VA Education Benefits, school definitions of full-time and part-time students — described above — may be superseded by U.S. Department of Veterans Affairs regulations. Although the VA currently accepts school definitions of full-time and part-time for graduate students, the VA uses its definitions for “rate of pursuit” and “training time” for undergraduate students. The VA’s determination of academic load is used to determine education benefits. Seek current advice from a VA Education Representative and the school’s military education benefits advisor at the time of enrollment.

Class Changes

All students will be assigned courses or Dissertation/Research Project Chair that best fits the University’s needs for

classes to run in a traditional manner. Requests to change instructors will only be taken in extraordinary circumstances that do not increase class sections or additional instructors to teach beyond the planned courses. Any requests for student/instructor changes must be made to the Chief Academic Officer. Changes may only occur between terms and the add/drop period. Changes may not occur during active class terms.

When courses may not be available, active, or retired, another course may be substituted in its place if it meets the needs of the program and requirements. Approval for a course substitution must be granted by academic leadership.

Undergraduate and Graduate Students

Undergraduate students are those completing their educational requirements for the award of an associate or bachelor's degree. Graduate students are those are pursuing a master's or doctorate degree.

Concurrent Education / Second Degree Programs

California Intercontinental University graduates of a degree level (e.g., associate, bachelor, master's, doctorate) are restricted from enrolling into another degree program of the same level at any time.

Students wishing to pursue the next higher degree program may do so upon satisfactory completion of their current program.

Residency Requirement

The minimal residency requirement means a minimum portion of the program requirements must have been met through course work successfully completed at California Intercontinental University. The minimum requirement for undergraduate level candidates shall be 25% of their required course work at California Intercontinental University.

Master's level candidates must achieve a minimum of 50% of their required level work at California Intercontinental University. Doctorate level candidates must complete 85% of their required level work at CIU.

Procedure to Add/Drop Course

California Intercontinental University has established the Add/Drop period deadline to be the end of the 1st week of a Term. During this period, courses may be dropped or added. Adding courses will not be allowed after the 1st week of a Term.

The following procedures to Add a course must be followed:

- Complete an Add/Drop Request Form, from the Registrar
- Immediately notify the Registrar during business hours, by e-mail or fax, via the completed Add/ Drop Request Form
- Immediately notify the Student Success Advocate of the intent to enroll in the new course
- Make arrangement for payment of tuition and applicable fees if any for the new course

Students who wish to Drop a course after the Add/Drop period must:

- Complete an Add/Drop Request Form, from the Registrar
- Immediately notify the Registrar during business hours, by e-mail or fax, via the completed Add/ Drop Request Form
- Immediately notify the Student Success Advocate of the intent to drop the course
- Request a tuition refund, if applicable, for the dropped course(s) - (request will be processed within 30 days)

- Contact a Student Success Advocate to fill out any additional Leave of Absence or Withdrawal forms (if applicable)

Students who fail to post attendance during the Add/Drop period (the first seven [7] days of a term) will be considered non-compliant with the University's Attendance Policy. Students become eligible to be unregistered from the term and withdrawn from the University.

Satisfactory Academic Progress (SAP)

To progress satisfactorily and continue enrollment in the selected program of study, students are held accountable for maintaining Satisfactory Academic Progress (SAP) toward successful completion of the program objectives.

All students at California Intercontinental University must meet SAP. Additional progress requirements may be required for other government programs or tuition/employer reimbursement.

Satisfactory Academic Progress (SAP)

By upholding Satisfactory Academic Progress, AA and BBA students can maximize their learning outcomes and stay on track for timely degree completion.

SAP is measured in two (2) distinct ways:

1. All programs – Quantitative (pace) requirements
2. All programs – Qualitative (GPA) requirements

Undergraduate Quantitative Requirement (Pace)

All students must complete their program within the maximum time of completion, which is the amount of time expected for a student to complete a course of study.

All undergraduate students must complete 66.67% of their cumulative units attempted in their programs. This is called the Incremental Completion Rate (ICR) or “pace” requirement. A student who falls below the 66.67% threshold will fail SAP.

Examples: A student taking 9.0 credits in a semester must successfully pass 6.0 credits out of 9.0 credits attempted. $6.0 \text{ credits earned} \div 9.0 \text{ credits attempted} = 66.67\%$. A full-time student taking 12.0 credits in a semester must pass 9.0 credits. $9.0 \text{ credits attempted} \div 12.0 \text{ credits attempted} = 75\%$, because passing 6 credits put the ratio at 50% which is below the 66.67% SAP threshold.

All attempted credits for the current degree program are used to determine ICR, regardless of grade received. Repeated and non-passing grades will also count as attempted credits even if the grade is no longer calculated in the GPA.

Graduate Quantitative Requirement (Pace)

All graduate students must complete 50% of their cumulative units attempted in their programs. This is called the Incremental Completion Rate (ICR) or “pace” requirement. A student who falls below the 50% threshold will fail SAP.

Examples: A student taking 12.0 credits in a semester must successfully pass 6.0 credits out of 12.0 credits attempted. $6.0 \text{ credits earned} \div 12.0 \text{ credits attempted} = 50\%$.

All attempted credits for the current degree program are used to determine ICR, regardless of grade received. Repeated and non-passing grades will also count as attempted credits even if the grade is no longer calculated in the GPA.

For graduate students, IP (in progress) grades are considered satisfactory and will not affect the completion rate.

Maximum Time Frame Completion

Undergraduate (AA/BBA) students have up to 150% of their program length and graduate students have up to 200% of their program to complete their degree before they become ineligible to receive financial aid (including federal Direct and PLUS loans). Any student approaching or exceeding this limit will be dismissed.

Refer to the chart below to review the maximum timeframe by degree type:

Degree Type	Degree Credits	Maximum Timeframe
Undergraduate (AA)	60 credits	90 credits
Undergraduate (BBA)	120 credits	180 credits
Graduate (Master's)	36 credits	72 credits
Graduate (Doctorate)	60 credits	120 Credits

Students dismissed for exceeding Time to Degree who would like to return to the University to finish their degree will need to file an appeal in order to be considered based on the Dismissal Appeal criteria below. Appeals must be approved by the Academic Affairs Review Committee.

Qualitative Requirement (GPA)

All students must meet the minimum grade point average (GPA) for their program objectives.

- Undergraduate (AA) level
 - Attempted cumulative credits between **1-14**, minimum GPA required is **1.6**
 - Attempted cumulative credits between **15-29**, minimum GPA required is **1.8**
 - Attempted cumulative credits **30 or more**, minimum GPA required is **2.0**
- Undergraduate (BBA) level
 - Attempted cumulative credits between **1-29**, minimum GPA required is **1.6**
 - Attempted cumulative credits between **30-59**, minimum GPA required is **1.8**
 - Attempted cumulative credits **60 or more**, minimum GPA required is **2.0**
- Master's level must maintain a **3.0** cumulative GPA
- Doctorate level must maintain a **3.0** cumulative GPA

Evaluation Period

Qualitative and Quantitative SAP are evaluated at the end of each semester to determine if the student meets the minimum requirements. Evaluations are based on the cumulative program enrollment as of the last date of the evaluation period.

Academic Warning

Students who fail to meet SAP will be placed on Academic Warning. Students will receive a communication in writing from the Registrar's Office stating they are in Warning status. During this Warning period, students remain eligible for federal Financial Aid.

While in Academic Warning status, students are encouraged to work with their Student Success Advocate and their faculty to ensure success. Students who do not meet the GPA requirements are encouraged to retake any failed courses during this time.

Academic Dismissal

If a student fails to meet SAP requirements during the Academic Warning period, the Academic Advising department will communicate a courtesy notice of impending dismissal by the University. The Registrar's Office will formally notify the student of their Dismissal in writing.

Students dismissed from the University are provided the opportunity to submit an Academic Dismissal Appeal. All appeals are due by the Wednesday of the Add/Drop week. See the "Dismissal Appeal" section below for more information.

Dismissal Appeal

A student who is dismissed for failing to meet SAP requirements, may appeal to be reinstated. All appeals are due on Wednesday **(Week 1, Day 3)**.

A dismissed student will be provided an electronic link to the online Appeal form in the Dismissal notice. The student may also request the Appeal form link directly from their Student Success Advocate.

Any student may appeal a dismissal based on mitigating circumstances. Mitigating circumstances include:

- Death of a relative or dependent(s),
- An injury, or serious illness of the student or student's dependent(s)
- Divorce
- Bankruptcy
- Natural disaster

The student must provide supporting documentation and describe in writing any unusual circumstance(s) that the student believes deserve special consideration.

The student must clearly express and provide information as to why they did not meet SAP requirements and what has changed that will allow them to meet SAP by the next evaluation period.

A complete appeal will include the following:

- SAP Appeal form
- Supporting documentation (Examples: letters from professors, medical documentation, etc.)
- Remaining Courses Required for Degree form for students who have exceeded the maximum timeframe requirement

To expedite your appeal, submit all documents together and be as detailed as possible in your personal statement.

Completed appeals will be routed to the Academic Review Committee through the Academic Advising department for review within 24 business hours. The Registrar's Office will notify the student in writing no later than the **Friday of the Add/Drop Week (Week 1, Day 5)** by the Registrar's Office.

If the appeal is approved, the student will be re-entered into the University and placed on Academic Probation. The student may also be required to review and sign an Academic Success Plan. The Academic Success Plan will provide

conditions the student is required to meet for that semester and any upcoming semester, as necessary. If the student is on probation and does not meet the SAP requirements or the terms of their academic plan, the student will be academically dismissed.

If an appeal is not approved, the student will be notified in writing from the University. The student may re-apply for admission after 3 terms. Students must meet Readmission's requirements. Students may apply for Dismissal Appeal up to a maximum of three (3) times per degree program.

Academic Probation

Students who fail to meet SAP for two (2) consecutive periods, who have appealed, and had the appeal approved, will be placed on Academic Probation status in the next period. Progress on Academic Success Plans will be evaluated at the end of each semester.

Failure to meet the requirements of SAP during Academic Probation status will result in the student's dismissal.

Other Factors That Impact SAP

Additional factors that impact SAP include excessive course absences, Incomplete Grades, Leave of Absences, Withdrawals. Please see related policies for more information.

Evaluation Period

Qualitative and Quantitative SAP are evaluated at the end of each semester to determine if the student meets the minimum requirements. Evaluations are based on the cumulative program enrollment as of the last date of the evaluation period.

Incomplete Grade Policy

An Incomplete grade is given to a student if they were unable to complete the academic course requirements before the end of the term. Incomplete grades are awarded for reasons beyond the student's control that prevent the completion of course requirements by the end of the academic term. Incomplete grades will not be awarded for poor academic performance or as a way of extending assignment deadlines.

Minimum Requirements

An Incomplete grade is given to a student if they were unable to complete the academic course requirements before the end of the term. Incomplete grades are awarded for reasons beyond the student's control that prevent the completion of course requirements by the end of the academic term. Incomplete grades will not be awarded for poor academic performance or as a way of extending assignment deadlines.

It is the student's responsibility to request an Incomplete grade for a course. To be eligible, a student must:

- Be in good academic standing
- Have completed at least 66% of all course work for the term

The Registrar will review the submitted request with the student's Student Success Advocate to determine if the student is eligible for an Incomplete grade.

Incomplete grades are awarded for reasons beyond the control of the student prevent of completion of the course requirements by the end of the academic term. Incomplete grades will not be awarded for poor academic performance or as a way of extending assignment deadlines.

A student may receive a maximum of one (1) Incomplete per semester.

All students: Students in Academic Probation status are ineligible to request an Incomplete grade.

Doctorate students only: Incomplete grades cannot be requested for Comprehensive Competency Assessment (CCA), Dissertation courses, and Research Project courses.

How to Request an Incomplete

An Incomplete Grade form is available upon request from a student's Student Success Advocate. All completed request forms must be received on or before 11:59 p.m. (Pacific Time) on **Sunday of Week 6**.

Approvals and Denials

All completed requests are reviewed by the Academics Department by the **Wednesday of Week 1**. Any notices of acceptance or denial will be sent within 24-48 hours of review.

If a request is approved, the student and faculty will be notified in writing by the Registrar's Office and Incomplete grade posted to the student's transcript.

Requests made after the Sunday of Week 5 or requests missing required information will be denied, and a final grade will be assigned based on all previously submitted work. A written notice of denial will be sent from the Registrar's Office to the student.

Incomplete Grade Period

Upon approval of an Incomplete Grade, the outstanding tasks must be finished and submitted to the LearnCenter within the designated 3-week time period. The student is responsible for completing any outstanding academic work and notifying the faculty member so that the Incomplete can be changed to a final, earned grade. If there is no change in the work completed, the Incomplete Grade will be changed to the earned grade based on the submitted work. No work submitted outside of the LearnCenter will be accepted for grading.

Students may not request a Leave of Absence (LOA) concurrent with an Incomplete Grade period. The University expects the student to complete any missing coursework while simultaneously attending a new course. See the Leave of Absence (LOA) policy for additional information.

Impacts on Satisfactory Academic Progress (SAP) of an Incomplete Grade

Taking an Incomplete grade does not guarantee a higher grade, and students run the risk of earning a lower grade than the initial grade earned for the course.

Incomplete grades impact a student's GPA like an "F-Fail" grade and affect a student's GPA and Incremental Completion Rate (ICR) – see SAP Policy for more information. The GPA and ICR are immediately re-calculated upon posting of the final grade.

If the required assignments are not turned in by the end of the Incomplete period, a final grade will be entered based on any previously completed coursework.

Recurring Incomplete Grades

A student may receive a maximum of one (1) Incomplete per calendar year and may not have recurring incompletes at the end of one and starting of another academic year.

Course Repetition Policy

This policy allows undergraduate and graduate students to repeat a course to earn a higher grade. Except for courses designated to be taken multiple times ("repeatable"), such as an independent study or research course, credit will be granted only once for each course and only the highest grade earned for that course will be used to calculate a student's grade point average. To ensure student progress towards graduation, the number of attempts will be limited to a maximum of three (3). Students taking courses for an additional attempt(s) cannot use identical coursework from the first attempt. The coursework must be varied enough so that the student shows a good faith effort in their additional attempt to improve work(s). This does not include the dissertation or research project courses for DBA students.

Note: All occurrences of a course appear on the transcript with the grade received, but only the highest grade received in a course is used in calculating a student's grade point average. The former grade remains on the student's transcript but is not used in GPA calculations once it is replaced by subsequent grade.

According to the Course Repetition Policy:

- A student may only take a class three times through a combination of substandard grades (D, F, or NC) and withdrawals (WD or WF) on their student record.
- If a student, through a combination of substandard grades (D, F, or NC) and withdrawals (WD or WF), wishes to take a class for the fourth time, they must submit a petition to the Registrar's Office. Petitions will only be approved based on extenuating circumstances by the Academic Dean.
- Military Withdrawals do not count in terms of repetition restrictions, nor do withdrawals that occur due to fire or flood (Title 5 Sections 55024 and 58509)
- Students who are granted a fourth enrollment in a course by petition will be required to receive a letter grade.

Course Repetition by Exception

Significant Lapse of Time

A course may be repeated due to a significant lapse of time of no less than 36 months if there is an approved recency prerequisite for the course or program, or another institution of higher education to which the student seeks to transfer has established a recency requirement. Only the last grade will be included in determining GPA.

Class Designated for Students with Disabilities

A student with a disability may repeat a special class any number of times when an individualized determination verifies that such repetition is required as a disability-related accommodation.

Extenuating Circumstances

A course may be repeated (with a passing or substandard grade) if there are extenuating circumstances which justify the repetition. Extenuating circumstances are verified cases of accidents, illness, or other circumstances beyond the control of the student. The student must file a petition with appropriate documentation. Only the last grade will be included in determining GPA.

Legally Mandated Courses

A student may repeat a course any number of times if it is determined to be legally mandated. Proper documentation must be submitted to the Registrar's Office. Only the last grade will be included in determining GPA.

Withdrawals

A student withdrawing from a course after the Add/Drop period will receive a WD. Courses for which a WD is received must be re-taken at the regular tuition rate. The WD will be reflected on the student's permanent transcript.

The WD on a student's transcript does not affect the GPA however, WD courses are considered credits attempted when calculating SAP.

Transfer Credits

Transfer credits that count toward the student's current program will count as both attempted and completed. This means that credits transferred in from other colleges or universities will impact the quantitative requirement of Satisfactory Academic Progress or the rate of completion.

Transferring CIU Credit to Another Institution

Students may wish to transfer coursework from California Intercontinental University to another institution. The following is to be considered carefully.

- Each institution determines its own policy for accepting transfer credits
- Normally, to qualify for credit in another institution, the coursework the student wishes to be considered for transfer credit must be reasonably similar to coursework that the receiving institution offers

To transfer credits from California Intercontinental University, the student must request that an official transcript of completed coursework be sent to the new institution. An official transcript is one sent from the records officer at the sending institution directly to the designated records officer at the receiving institution.

The other institution may respond to a student's request for transfer credit by:

- Accepting the credit claimed (although some institutions may not give full value)
- Accepting the credit claimed when the student passes a test covering the subject matter
- Requesting additional information to verify, e.g., a syllabus
- Not accepting the credit claimed

Students should be sure to keep learning guides, textbooks, other study materials and printed copies of online study materials in case these materials are needed for transfer credits verification by the receiving institution.

California Intercontinental University does not maintain a list of colleges and universities that accept California Intercontinental University college credits.

Notice Concerning Transferability of Credits and Credentials Earned at Our Institution

The transferability of credits earned at California Intercontinental University is at the complete discretion of an institution to which you may seek to transfer. Acceptance of the degree earned at CIU is also at the complete discretion of the institution to which you may seek to transfer. If the credits or degree that you earn at this institution are not accepted at the institution to which you seek to transfer, you may be required to repeat some or all your coursework at that institution. For this reason, you should make certain that your attendance at this institution will

meet your educational goals. This may include contacting an institution to which you may seek to transfer after attending CIU to determine if your credits or degree will transfer.

Proctored Exams

Students can expect to take proctored in select undergraduate and graduate courses. Students are informed of proctored exams on the syllabus of a respective course. In courses for which there are proctored exams, there are no replacement exams/assignments in lieu of a proctored exam.

Proctored examinations are assessments monitored using technology, an individual (known as a proctor), or both. CIU uses proctored examinations because they offer legitimacy to testing processes while ensuring the integrity of testing environments and scores.

An examinee(student) dedicates themselves to the same ethical and performance standards as their peers attending traditional universities while participating in the online proctored examination environment. Faculty and professionals value the proctored examination environment because it shows that examinees are willing to learn and experience standard testing/evaluation practices.

The responsibilities of a proctor are broad; however, proctors:

- Receive, interpret, and faithfully execute examination instructions
- Establish and ensure a secure and fair testing environment
- Verify the identity of examinees using acceptable documentation
- Observe examines during examination periods and watch for the presence of unauthorized materials, learning aids, or disallowed software/applications
- Ensure the initiation and submission of the examination

For proctors to perform their responsibilities, examinees should understand their responsibilities. The examinee must follow the proctor's guidelines and policies to engage in a successful proctored examination experience. This may include proper identification procedures, securing the testing environment, and ensuring uninterrupted remote testing. Together, the examinee and proctor can ensure confidence in examination scores and academic achievements.

Courses with Proctored Exams

Course #	Course Title	Program
BUS 201	Business and Society	AA/BBA
BUS 225	Fundamentals of Business Ethics	AA/BBA
BUS 314	Business Law	AA/BBA
ECO 215	Survey of Economics	AA/BBA
GEN 104	Mathematics	AA/BBA
GEN 201	English Composition II	AA/BBA
HCA 425	Healthcare Management, Organization, and Behavior	AA/BBA
IST 452	Messaging Infrastructure Management	AA/BBA
MGT 251	Organizational Behavior	AA/BBA
MGT 440	Operations Management	AA/BBA
MGT 448	Human Resource Management	AA/BBA

For information regarding courses with proctored exams, contact the Registrar's Office.

Peregrine Exams

All grades are reported electronically. Students can access their official grades as posted to their record via the CIU requires students to take a comprehensive test to assess learning outcomes. The purpose of the Peregrine assessment is to evaluate institutional and program learning outcomes and the quality of the academic programs so the school can improve its programs and provide the best learning experience to all students. The Peregrine data collection and analysis process is part of the institutional and program learning outcomes assessment and is integrated into the CIU assessment manual.

For information regarding courses with Peregrine exams, contact the Registrar's Office.

Semester/Term Grade Report

All grades are reported electronically. Students can access their official grades as posted to their record via the student portal. Students who need an official copy of a grade report can request one by emailing the Registrar.

Although it is requested that instructors submit grades within 3 working days, instructors are allowed a reasonable time frame. In the absence of mistakes, fraud or bad faith, course grades shall be final once they have been filed with the Registrar. Questions regarding accuracy of grades should be brought to the attention of the faculty within 6 weeks or less of the grade being posted.

Failure Grade

A Failure (F) grade received by a student may be remedied by repeating the course. If a higher grade is earned in the repeated course, the lower grade will remain in the student's official records with an added "R" to show it was retaken and will not be incorporated in the student's TGPA and CGPA. Tuition and applicable fees will be charged for each repeated course. Multiple failure grades may result in Academic Probation and/or Academic Dismissal.

Grade Change and Grade Appeal

CIU faculty members are experts within their fields of study and have the final authority for assigning grades with the exception of grades that are found to be a result of arbitrary or capricious grading. If a student believes and is able to support with clear and credible evidence that capricious or unprofessional grading has taken place, a grade appeal may be initiated on an assignment or on a final course grade.

The Grade Appeal Policy provides guidance on grades within an active course. Grade appeals may be made to the faculty on an individual assignment basis or on a final course grade. Only one grade appeal attempt may be made per class attempt.

Challenges to Individual Assignments While a Course is Active

Individual lesson assessment grades are to be handled between the student and faculty while a course is in session. The student must initiate contact with the faculty within one (1) week for individual lesson assignments (discussions forums, multiple-choice exams, essays, etc.).

The student must discuss the grade concerns with the faculty member who issued the grade. It is advisable to use correspondence through a verifiable means such as e-mail. These matters are to be resolved between the student and faculty.

Challenges to a Final Course Grade After the Course Has Been Completed

The following policy and procedures apply to all final course grade appeals. The Grade Appeal Form is to be used only to challenge a **course** final grade.

- If a student believes he or she received a final course grade based on capricious or unprofessional grading the student must discuss within seven (7) days of the last day of the term to dispute with the faculty member who issued the grade. The correspondence must be tracked through a verifiable means such as email.
- If a satisfactory solution cannot be found, the student may obtain a Grade Appeal Form. The form is to be completed and submitted to the Registrar.
- A Grade Appeal Form must be initiated within 30 days from the last day of the term.
- It is the student's responsibility to provide the necessary information to support the challenge. The student's Grade Appeal Form must include all required information as well as clearly written justification for the grade challenge to be considered. The burden of proof rests with the student to provide any additional supporting documentation. Examples of necessary information include medical verification if the exception is due to illness or copies of any documentation to substantiate the request being made.
- After reviewing the Grade Appeal Form and supporting documentation for completeness, the form will be forwarded to Academic Review or a designated representative. If supporting documentation or recommendation is missing, the form will be returned to the student for completion. If the appeal is accepted for review, there is no guarantee that the grade will change, and the student runs the risk that the grade may go down as well.
- The faculty member may be consulted in an attempt to resolve the dispute. The original faculty member who graded the assignment or a different faculty member may be notified of the challenge and asked for his/her/their perspective.
- Grade challenges may not be appealed beyond the Academic Review. All documents submitted for Grade Appeal are entered in the permanent record of student and faculty.

Pass / No Credit Courses

A Pass (P) grade is assigned to academic requirements such as the successful completion of a CCA, dissertation course or research project course. Grades assigned with a Pass (P) designation are not calculated in the Grade Point Average (GPA) or Cumulative Grade Point Average (CGPA). Students who do not pass these courses will receive a No Credit grade and must retake the course within the Retake Policy and SAP limits.

The only courses eligible for Pass/No Credit grades are CCA courses, Doctorate Dissertation courses (GRC 641, GRC 642, GRC 643, GRC 644 and GRC 645), or Research Project courses (DRP 801, DRP 802, DRP 803, DRP 804, and DRP 805).

Withdrawal / Drop Status

Students wishing to withdraw from a course or from California Intercontinental University must do so by submitting the appropriate form to the Office of the Registrar at registrar@caluniversity.edu. Students seeking withdrawal from California Intercontinental University must clear all indebtedness and are strongly encouraged to seek counsel with their Student Success Advocate.

The last day to drop a course is the end of the 4th week in each term. During the drop period a WD will show on the transcript but not be included in the GPA calculation.

Withdrawal from a Course

Students may withdraw from a course during the first week of the term without the course recorded on their official transcript. Withdrawal from a course after the first week of enrollment, under proper withdrawal procedures, will result in a WD grade recorded on the official transcript. Withdrawal (WD) grades are not included in the calculation of GPA but do count towards the Satisfactory Academic Progress Quantitative requirement, and the course must be taken later with all applicable tuition and fees for degree completion.

No withdrawals from a course are permitted after the fourth week. Any grade earned for the course will be final and recorded on the official transcript.

Withdrawal from the University

A completed and signed Withdrawal from University Form must be reviewed and approved before the withdrawal is considered official.

Students who wish to withdraw from CIU are required to seek counsel from a Student Success Advocate. Those students using Title IV or other financial aid programs to help pay for school must speak to Student Accounts/Student Finance to review any and all debt obligations. Students withdrawn from the University for more than one (1) term will be required to review and sign a new Enrollment Agreement upon return.

Continuous Enrollment

All California Intercontinental University students are expected to remain continuously enrolled in at least one (1) course for every term from matriculation through program completion. Maintaining continuous enrollment ensures program completion by the anticipated graduation date. Students may view their complete program and registered courses via the CIU Student Portal.

Under limited circumstances, students may request a Leave of Absence (LOA) or Withdrawal for planned medical leaves, vacations, military service, church/missionary service, or for other personal situations requiring time away from their studies. Students must provide the request in writing with supporting documentation.

Students returning from extended leaves may be subject to any programmatic changes, including new or different courses within their program, a change in expected graduation date, and tuition increases at time of return.

Leave of Absence

CIU offers its students the opportunity to request a Leave of Absence under certain conditions. An LOA covers one (1) six-week term. Students out for more than six weeks will be Withdrawn from the University.

Active-duty military students only: Students called to active duty are eligible for extended LOAs with documented proof of deployment or orders.

Eligibility for Leave

To be eligible to request an LOA, a student must be:

1. In good academic standing, and
2. Have completed the first three [3] terms of their program.

Requests for LOA under extraordinary circumstances, such as natural disaster or active-duty orders, will be evaluated on a case-by-case basis upon supporting documentation.

Requesting a Leave of Absence

A Leave of Absence (LOA) request form is available via a student's Student Success Advocate. An LOA can be requested and approved for only one term within six consecutive terms.

Example: A student is registered for Terms 2, 3, 4, 5, 6, and 7. The student requests and is approved for an LOA for Term 3. The student later requests a second Leave for Term 6. The second Leave will be denied. The student may request another Leave starting in Term 2 of the next year.

The completed request must be submitted to the Office of Student Affairs by the **Monday of Week 6** (the 6th Monday) of a term. A start date for the leave and a return date are required on the request. *University administration retains the right to extend this deadline with valid and documentable and extenuating circumstances from the student.*

Completion and submission of a request form does not guarantee that an LOA will be granted. A final decision regarding a requested LOA will be sent in writing by the Registrar's Office on or before the **Friday of Week 6** (the 6th Friday) of the current term.

Students taking unapproved leaves and/or who do not submit an LOA form are subject to the University's nonattendance and withdrawal policies.

Impacts of a Leave of Absence

Academic records for students on a Leave of Absence remain active and upon returning from LOA resume normal enrollment status.

Students may not request an Incomplete grade and take an LOA. It is the University's expectation that the student taking an Incomplete grade will complete any missing course work while simultaneously attending a new course. An LOA is considered a break from any academic obligations and taking a Leave while working on course work to resolve an Incomplete grade is counter to the purposes of an LOA.

Taking a LOA extends the student's graduation date by the length of one term as LOA time does not count towards the degree completion time.

Students receiving Title IV federal financial aid and taking an LOA are equivalent to a Withdrawal for financial aid purposes. A Return to Title IV Funds (R2T4) calculation will be performed to determine how much aid the student earned prior to going on LOA. Students will be responsible for any outstanding balance resulting from the LOA request.

Payment of Balances While on Leave

Students who make monthly payments remain responsible for all regularly scheduled payments while on Leave. Failure to make monthly payments may result in Withdrawal from the University.

Failure to Return

If a student fails to return by the stated LOA return date, Satisfactory Academic Progress (SAP) will be evaluated, and the student will be withdrawn from the University.

SCHOLARSHIPS

California Intercontinental University scholarships to help make college affordable for our students. A list of the current scholarships offered are listed on the CIU website at <https://caluniversity.edu/financial-aid/>.

HONOR SOCIETY

Delta Epsilon Tau International Honor Society

California Intercontinental University students who have earned an associate or bachelor's degree with a cumulative GPA of 3.50 or higher and Master's and Doctorate students with a cumulative GPA of 3.7 can be nominated for membership in Delta Epsilon. Delta Epsilon Tau was established by The Distance Education Accrediting Commission (DEAC) to recognize the achievements of individuals who worked diligently to acquire knowledge and skills from an accredited distance learning institution. Students eligible for Delta Epsilon Tau may contact the Academic Advising department for application criteria.

TECHNOLOGY REQUIREMENTS

The computer equipment utilized to access online program courses and resources must meet the minimum requirements below. Please note that the minimum computer and software requirements may evolve during a student's course of studies, in particular as third-party vendors discontinue support for older versions of a product. Students must have Internet access and an active e-mail address.

Required Setup

- Webcam and microphone (integrated or USB). Internet access required; broadband is preferred.
- Windows 10 (or later version) or Mac OS/X 10.2 (or later version)
- Dual-core 2 GHz CPU (minimum) supported by Windows or Mac OS/X.
- A minimum of 4 GB RAM
- Video card supporting a minimum resolution of 1024x768 and at least 64 MB VRAM.
- Adequate hard disk or SSD, USB drive, or cloud storage for saving assignments.
- A portable USB thumb drive for backups and data storage.

- Webcam and microphone (integrated or USB).

Software Requirements

- The current release of Firefox, Chrome, or Safari web browser.
- Microsoft Office 365 (supplied by the University)
- Adobe Reader, Nitro PDF, or similar PDF software.

You may download the latest versions:

- Download the latest version of Google Chrome at www.google.com/chrome/
- Download the latest version of Mozilla Firefox at www.mozilla.org/en-US/firefox/new/
- Download the latest version of Adobe Acrobat at www.get.adobe.com/reader/

Other Requirements

- The ability to install software and browser plug-ins.
- Maintain an up-to-date anti-virus software package.
- Maintain a personal email account.

It is recommended that students complete courses and coursework using a desktop or laptop computer.

STUDENT RESOURCES

Academic Honors Program

The CIU Academic Honors program recognizes those students who have achieved a grade point average of 3.5 to 4.0. Depending on the student's GPA, they are placed on the Dean or President's list that is on the California Intercontinental University website location Academic Honors. Students receive a congratulatory message from the corresponding academic administrator or President and an associated badge with their academic honor is visible within the student's portal view.

BBA Honors:

- (Cum Laude) 3.5-3.65
- (Magna Cum Laude) 3.66-3.89
- (Summa Cum Laude) 3.9 – 4.0

MBA Honors:

- 3.9 and above With Distinction

DBA Honors:

- 3.9 and above With Distinction

Student Resource Center

The California Intercontinental University is committed to providing students the necessary resources to be successful in their education journey. The Student Resource Center contains many writing resources including APA templates and dissertation guides as well as commonly used materials such as the CIU student handbook. Additionally, students will find a sampling of social service resources available nationally for life situations including the National Coalition Against Domestic Violence and the National Military Family Association.

Student MyPortal

The Student MyPortal provides students with 24-hour access to their academic records and is the student's administrative headquarters. In the MyPortal, students can find their account details, such as their profile information, course schedule, degree audits, grades, course payments, and administrative forms.

Students have access to administrative forms and student information through their student MyPortal. Students who have technical issues can create a support ticket, which is addressed within 24 hours.

Library and Information Resources Network (LIRN)

California Intercontinental University subscribes to the Library and Information Resources Network, Inc. (LIRN) for student use. LIRN is an extensive library resource including an online catalog, e-book collection, and electronic databases. CIU students have access to LIRN 24 hours a day, seven days a week. LIRN is a multi-location, virtual organization and can be accessed directly by the student. Other databases or public/free sites are also provided in course syllabi.

What is LIRN?

The LIRN collection provides students with millions of peer-reviewed and full-text journal, magazine, and newspaper articles, e-books, podcasts, audio, and video resources to support their academic studies from ProQuest, Gale Cengage, partial EBSCO coverage, eLibrary, GreenFile, and other resources relevant to general education, business, technology, and medical programs. The University also provides access to BioMed Central, DOAJ, Elsevier, ERIC, NCBI, SpringerOpen, DigitalCommons, and an assortment of other online collections.

LIRN Utilization

LIRN plays a vital role in the creation of evidence-based writings, research, and presentations aiming to support an argument or world view. Whether the assignment manifests as an outline, argumentative, descriptive, or deconstructive essay, or PowerPoint-based presentation, the integration of sources available at LIRN serves to support students in their academic success.

All programs utilize LIRN to explore theories in fields or subject areas requiring a breadth of resources. For example, students will use LIRN to examine the business/financial, organizational, and socioeconomic factors related to courses and proposed research. LIRN is also used as a resource for proper citation and documentation of references in academic writing.

Students have access to a LIRN librarian. Information on how to contact the LIRN librarian can be found in the Online Library.

Student Success Advocates

Upon registration, students are assigned a dedicated Student Success Advocate. Students are provided contact information (phone and email) for their designated Student Success Advocate should they have an urgent need to address any particular concerns that may affect their progress throughout the entirety of the program. The assigned Student Success Advocate is the main point of university contact throughout the entirety of the program of study for support, questions, and help.

Student Success Advocates proactively communicate with students to address any questions that they may have. Types of contact used are noted below:

- Phone Calls
- Email
- Skype
- Text Message
- MS Teams (Video Conferencing)
- Group Conference Meetings

Technical Support

Prior to enrollment, a student is required to confirm their ability to meet the minimum technological requirements as listed in the Technology Requirements section of the catalog. Technical support is provided for California Intercontinental University online courses. To contact the support, please submit a Help Request.

RIGHTS AND RESPONSIBILITIES

Student Responsibilities

While CIU is here to provide all students an opportunity to learn in an online environment that is functional and easy to use, students also hold a responsibility to CIU and their studies. All students are expected to:

- Respect their peers and instructors
- Maintain good academic standing while at CIU
- Understand and follow all CIU policies and understand the consequences for violations
- Protect student username and/or password by not sharing with any other person or organization, this is grounds for dismissal
- Follow all deadlines to ensure successful completion of courses
- Complete all assignments and assessments
- Grow academically and intellectually

Students are responsible to maintain their own course work; they create original work and submit copies to CIU. CIU will not retrieve prior submitted work for students, and students do not have access to prior course shells.

Privacy Policy

Buckley Amendment

In compliance with Public Law 93-380, Section 438 (The Buckley Amendment), students' grades, academic records, and personal information may not be provided to third parties without their written consent. Permission must be given by the student in order for the information in his/her/their file to be used as reference checks for credit or employment evaluation by third parties. The student must file with the Registrar a declaration to this effect, and the declaration will be kept in the student's file. The declaration can be all-inclusive or on a case-by-case access basis. The provision to release financial data or related information to authorized state and federal agencies is not a violation of the Buckley Amendment.

Privacy of Records

In accordance with the Family Educational Rights and Privacy Act (FERPA), California Intercontinental University protects the privacy of students' records, including social security number, home address, e-mail address, phone number, grades, and financial information. FERPA affords students certain rights with respect to their educational records:

- The right to inspect and review the student's education records within 45 days of the day the University receives a request for access. Students should submit to the registrar written requests that identify the record(s) they wish to inspect. The school official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed
- The right to request an amendment of the student's education records that the student believes is inaccurate or misleading. Students may ask the University to amend a record that they believe is inaccurate or misleading. They should write the University official responsible for the record, clearly identify the part of the record they want changed and specify why it is inaccurate or misleading. If the University decides not to amend the record as requested by the student, the University will notify the student of the decision and advise the student of his/her/their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing
- The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent. One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by California Intercontinental University in an administrative, supervisory, academic, research, or support staff position (including law enforcement unit personnel and health staff), a person or company with whom CIU has contracted (such as an attorney, auditor, or collection agent), a person serving on the Board of Trustees, or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his/her/their tasks. A school official has a legitimate educational interest if the official acts in any of the following capacities: is performing a task that is specified in his/her/their position description or contract agreement, related to a student's education or to the discipline of a student: providing a service or benefit relating to the student or the student's family (e.g., counseling, job placement, financial aid, etc.), or maintaining the safety and security of the campus. Upon request, the University may disclose education records without a student's consent to officials of another school in which that student seeks or intends to enroll
- Release of student "directory" information is also permitted by FERPA. The University identifies "directory" information as student's name, address, telephone listing, electronic mail address, photograph, date and place of birth, major field of study, dates of attendance, grade level, degrees, honors, and awards received, the most recent educational agency or institution attended, student ID number, user ID, or other unique personal identifier used to communicate in electronic systems that cannot be used to access education records without a PIN, password, etc. (A student's SSN, in whole or in part, cannot be used for this purpose)
- The right to file a complaint with the U.S. Department of Education concerning alleged failures by the University to comply with the requirements of FERPA. The name and address of the office that administers FERPA is:

Family Policy Compliance
Office U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202-4605

For any requests, amendments, or updates, please contact the Director of Academic Administration and Registrar at registrar@caluniversity.edu or (949) 359-0045.

Retention of Records

Transcripts and other documents received by the University for the purpose of admission or recording supplemental work become the property of the University and will not be released to or copied for students. A detailed system of records is maintained for each student. A student's file will minimally contain application documents, admissions credentials, records of enrollment and attendance, course grades, satisfactory academic progress records, pertinent written communication with the student, any disciplinary actions taken, federal financial aid documents and other pertinent documents. California Intercontinental University shall retain student academic records permanently or indefinitely in accordance with federal, state, and accrediting guidelines and regulations. Fireproof storage shall be used for safekeeping of students' records including records of graduation and degrees granted. Such records, if stored on computers, will have backups, and remain the permanent properties of California Intercontinental University and shall not be available for loan or release to third parties without the written consent of the student.

Drug and Alcohol Prevention Policy

Substance Abuse

California Intercontinental University is firmly committed to providing a safe and healthy learning environment for all students, staff, and faculty. Consistent with this commitment, CIU has strengthened its stand against drug and alcohol use. In compliance with section 120(a) through (d) of The Higher Education Act of 1965, as amended, including the Drugfree Schools and Communities Amendments of 1989 (Public Law 101-226), the California Intercontinental University Drug and Alcohol Prevention Policy is provided to all students annually. Student involvement with illegal drugs, controlled substances, or alcohol can negatively impact the student's ability to perform his/her/their academic duties.

Definitions

Illegal drug means any drug which is an illicit drug and not legally obtainable or which is legally obtainable but has not been legally obtained. This term also includes prescribed drugs not legally obtained and prescribed drugs, such as controlled substances like pain medications, not being used for prescribed purposes.

Legal drug includes any prescribed drug or over-the-counter drug that has been legally obtained and is being used for the purpose for which it was prescribed or manufactured.

Under the influence means that the student is affected by drugs or alcohol or the combination of drugs and alcohol in a detectable manner. A determination of such influence can be established by professional opinion, a scientifically valid test or, in some cases, by a layperson's opinion.

Requirements/Prohibition

Students must comply with federal, state, and local laws concerning alcohol and illegal drug usage, whether on the University's property or otherwise.

Use of Legal Drugs

Studies show that long term heavy drinking and drug use can lead to damage of the liver, nervous system, heart, and brain. It may also lead to high blood pressure, stomach problems, medicine interactions, sexual problems, osteoporosis, and cancer.

Because of the well-known consequences of drug and alcohol abuse, the university is firmly committed to providing a safe and healthy environment for all students and employees. Consistent with this commitment, the university has a

zero-tolerance policy against drug and alcohol abuse.

Investigation

The use, sale, possession, manufacture, or purchase of illegal drugs, controlled substances, or alcohol while on the premises or while performing University related activities is strictly prohibited. Those who violate this policy are subject to disciplinary action, up to and including expulsion, and referral for prosecution. Local, state, and federal sanctions for unlawful activity relating to drug and alcohol abuse may result in fines and/or incarceration.

Drug Use Assistance

California Intercontinental University is a virtual campus and therefore does not allow for us to provide onsite counseling or treatment. Therefore, we provide the following information as a resource for those students who need assistance with avoiding or recovering from alcohol or drug abuse. We encourage any student, staff, or faculty member who needs information related to alcohol or drug abuse to use directory information, online searches, the telephone book, or referrals from friends, family, and/or professionals. At a national level there are also organizations dedicated to providing information and suggestions:

- ***Substance Abuse and Mental Health Services Administration (SAMHSA)***

This is an agency of the U.S. Department of Health and Human Services which provides information online regarding alcohol, drugs, and treatment programs.

Web address: www.samhsa.gov

Treatment programs: findtreatment.samhsa.gov

Phone Number: (800) 729-6686

- ***National Institute on Alcohol Abuse and Alcoholism***

Web address: <https://www.niaaa.nih.gov>

Phone Number: (301) 443-3860

- ***World Health Organization (WHO)***

Web address: https://www.who.int/topics/substance_abuse/en/

- ***National Institute on Drug Abuse***

Web address: www.nida.nih.gov

Phone Number: (310) 443-1124

- ***Alcoholics Anonymous***

Web address: <https://www.aa.org/>

- ***Narcotics Anonymous***

Web address: <https://www.na.org/>

- ***Local Resources for Staff and Faculty***

Substance Abuse – Orange County California

Web address: <http://ssa.ocgov.com/comres/substance>

The Drug and Alcohol Prevention Policy must be distributed to students and employees annually. It must also be reviewed every two years to assess effectiveness and ensure that sanctions are being enforced. At the time of the review California Intercontinental University must address:

- The number of drug and alcohol related violations
- The number and type of sanctions imposed by the school related to drugs and alcohol and fatalities related to the school
- Review must be documented.

Non-Discrimination Policy

California Intercontinental University provides opportunities for the pursuit of excellence for all students and staff through its educational programs and services. The University will provide open access to its programs and support services without regard to race, color, age, gender, creed, national or ethnic origin, marital status, sexual preference, gender identity, physical disability, or any other legally protected status in the administration of its educational programs, admission of qualified students or offering of any University-administered activities.

Americans with Disabilities Act (ADA) Policy

CIU takes pride in its diverse population and is committed to providing all students the opportunity to take full advantage of its programs and facilities. In keeping with this philosophy, CIU strives to eliminate barriers that may prevent qualified students with disabilities from obtaining an academic or professional degree.

CIU complies with the Americans with Disabilities Act, Section 504 of the Rehabilitation Act (ADA), and state and local requirements regarding students with disabilities. CIU provides reasonable accommodations or services to qualified students with disabilities. Decisions on if and which accommodations or services will be granted are made by the relevant division within the University.

CIU students with disabilities are not required to reveal the disability unless the student chooses to request special accommodations. *

Requesting Accommodations

Any accommodation under ADA should be requested by the student during the admissions process and before a course starts; however, a student may request them at any time during their program of study. A request for accommodations made while a six-week academic term is already in progress will take effect in the subsequent term.

Students can make an initial request for accommodation or services by sending an email to their Student Success Advocate. The SSA then provides the student with a Verification of Disability Form. The student then is responsible for completing the form, providing all required evidence and documentation, and submitting the entire packet to the Registrar. All information submitted by the student is held in confidence.

Student Responsibilities

Students who choose to request accommodations have the following responsibilities:

- Follow the accommodation procedure outlined above
- Identify the disability to the appropriate individuals at California Intercontinental University
- Provide (at student's expense) current and appropriate documentation from a qualified medical professional
- Provide a written medical opinion stating the requested accommodation or service would allow the student the ability to perform the essential functions of program or course requirements
- Submit an updated form, evidence, and documentation if the accommodation period expires and accommodations are still needed

Decision Process

After a student makes a request for accommodations or services, the request will be considered using the following criteria:

- The need should be documented and individual in nature

- The need should not compromise the essential requirements of a course or program
- The need should not impose a financial or administrative burden upon California Intercontinental University beyond that which is deemed reasonable and customary
- The need should be within the scope of the organization's control
- The student should be able to, with or without reasonable accommodations, perform the essential functions of program or course requirements
- The essential requirements of an academic course or program need not be modified to accommodate an individual with a disability

A decision will be made by CIU within seven (7) days regarding the most appropriate accommodations on an individual student basis. CIU will take all information into consideration, including medical or professional documentation, when determining whether and what type of an accommodation will be made. CIU may consult with the student as part of its decision process.

* An Important Note About Requesting Accommodations

Students opting not to disclose their disability and thereby foregoing accommodations with California Intercontinental University, may not later claim discrimination or invoke protections under the law.

Example: A student with an undisclosed disability may fail a class required for a degree program. The student cannot, after failing the course, claim their disability hindered their ability to pass the class and request the failed class be removed from their transcript and/or be allowed to continue in the degree program. A student who does not disclose their disability is assumed not to have a disability.

Likewise, a student who does disclose their disability and receives accommodations but still does not pass a class cannot blame their disability for the failure and expect to be allowed to continue in the degree program. Students must be given an equal opportunity to try, but if, even with accommodations, the student fails to meet course objectives and outcomes, California Intercontinental University is within its rights to issue failing grades and place students on Academic Warning and Academic Dismissal statuses.

Title IX

Title IX of the Education Amendments of 1972 is a federal law that prohibits sex discrimination in education. It reads: "No person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance."

~ Legal Citation: Title IX of the Education Amendments of 1972, and its implementing regulation at 34 C.F.R. Part 106

Statement of Policy

California Intercontinental University prohibits discrimination on the basis of age, color, disability, gender, national origin, race, religion, sex, or veteran's status in regard to the administration of all programs, services, and activities. To ensure compliance with Title IX, the University has designated the Title IX Coordinator as the primary contact responsible for developing, adopting and/or assuring the dissemination of the University's nondiscrimination policy and for making the policy available to the University community, to include students, faculty, staff, and to the public.

Contact Information

Students, faculty, and staff with inquiries concerning the application of Title IX to the University's programs and activities, or for inquiries regarding allegations of discrimination or grievances concerning Title IX are encouraged to contact:

Gina Borelli
Title IX Coordinator
2601 Main Street, Suite 250
Irvine, CA 92614
Phone: (949) 359-0052

Student Complaint Policy

Informal Complaint: Internal

An informal complaint is a complaint that can be resolved at the department level. Students can raise an informal complaint with any University representative in writing, verbally, or through any reasonable means of communication. The informal resolution process includes, but is not exclusive of, communication with Student Success Advocates, Faculty, or the Staff member in question.

Many issues can be resolved informally once the University is aware of the concern. Keeping documents and records that provide evidence of any issue is vital.

Formal Complaint: Internal

After exhausting informal means to a resolution, the student can submit a [Student Complaint Form](#) following the instructions. The online form is available on the Student Resources page on the University website.

A formal complaint is a complaint that:

1. is unable to be resolved through informal means,
2. a complaint submitted via the Student Complaint Form, or
3. one that has been escalated to the Compliance Department for formal review.

Formal complaints result in a comprehensive investigation by the Compliance Department. To file a formal complaint with California Intercontinental University, students may submit the Student Complaint Form of the occurrence of the issue or event, including all supporting documents. Complaints can be escalated by contacting the Compliance Department at compliance@caluniversity.edu or 949-359-0065.

When submitting a Student Complaint Form, the student will select from four main categories:

- Category 1 - Administrative, financial, technical, student service, or community issues.
- Category 2 - Instructional issues, instructor/Student Success Advocate performance, program content, program effectiveness, or library services.
- Category 3 - Other policy, harassment on the basis of sex, race, color, religion, national origin, age, disability, or sexual orientation.
- Category 4 - Grades and grading issues, please see the Grade Challenge Policy

Upon submission of a complaint form and supporting documents, the student will be notified via email by the Compliance Department of the outcome of the official review and determination within 30 days after California Intercontinental University receives the complaint. All documents will become a permanent part of a student's record. The Compliance Department ensures formal complaints are adequately documented.

Formal Complaint: External – All States Except California

Complaints must first go through the institution's internal procedures (noted above) to resolve the concern. If a student is not satisfied with the outcome of the institutional process, the complaint may be brought to the [SARA portal agency](#) in the institution's home state – refer to the [SARA Student Complaint Process](#).

Formal Complaint: External – California Only

Bureau for Private Postsecondary Education

PO Box 980818

GRADUATION POLICY

Graduation Requirements

To graduate from California Intercontinental University, students must fulfill all Graduation Requirements as outlined below for their respective program. Compliance with all Graduation requirements is required to be issued a degree diploma and official transcript. In order to graduate in the current term, all graduation requirements must be met prior to the end of the Add/Drop week of the next term. The official graduation date is the term end date when all graduation requirements have been met.

Graduation Requirements for Undergraduate Programs

The Associate and Bachelor's degrees are awarded to those students who have completed a minimum of 60 credit hours (Associate) and 120 credit hours (Bachelor) according to program requirements.

The associate and bachelor's degrees are conferred upon those who have fulfilled the following requirements:

- Program Requirement – successfully completed all program requirements (or their equivalent) with a minimum cumulative GPA of 2.0.
- Residency Requirement - met the residency requirement for undergraduate programs as outlined in the California International University catalog.

- Financial Requirement – have no outstanding balance due to California Intercontinental University.

Graduation Requirements for Master's Degree

The Master of Business Administration Degree (MBA) is awarded to those students who have completed a minimum of 36 credit hours according to program requirements.

A master's degree is conferred upon those who have fulfilled the following requirements:

- Program Requirement - successfully completed all program requirements (or their equivalent) with a minimum cumulative GPA of 3.0.
- Residency Requirement – met the residency requirement for Master's programs as outlined in the California Intercontinental University catalog.
- Financial Requirement - have no outstanding balance due to California Intercontinental University.

Graduation Requirements for Doctorate Degree

The Doctorate of Business Administration (DBA) is awarded to those students who have completed a minimum of 60 credit hours according to program requirements.

A Doctorate of Business Administration degree is conferred upon those who have fulfilled the following requirements:

- Program Requirement - successfully completed all program requirements (or their equivalent) with a minimum cumulative GPA of 3.0
 - Successfully passed the Comprehensive Competency Assessment
 - Successfully completed and passed the Oral Defense of the Dissertation
 - Successfully completed and passed the Doctoral Research Project
- Residency Requirement - met the residency requirement for doctoral programs as outlined in the California Intercontinental University catalog.
- Financial Requirement - have no outstanding balance due to California Intercontinental University

Graduation Ceremony

California Intercontinental University celebrates and honors the achievements of our graduates in a yearly graduation ceremony in California. Students are invited to attend the graduation ceremony to celebrate the achievement of an earned degree. Information on the graduation ceremony is posted on the California Intercontinental University website. Please note the graduation date changes each year. Students are encouraged to contact their Student Success Advocate for information about the graduation ceremony.

Students eligible to attend the graduation ceremony must complete the Graduation Requirements for their specific program before they can walk at the ceremony. Contact the Registrar to confirm eligibility and that all financial obligations are paid in full to confirm attendance at graduation. Students should not make plans to attend graduation if they have not received confirmation from the Office of the Registrar.

Students who have previously fulfilled all Graduation Requirements for their respective program and were not able to attend a graduation ceremony may attend a future ceremony within two years of their official graduation date.

Students should contact the Office of the Registrar to confirm eligibility and attendance.

Graduating with Honors

Students demonstrating superior academic achievement within their California Intercontinental University academic program may graduate with university honors. To be eligible for honors a student must have no code of conduct

violations and a cumulative grade point average within the range for the specific honor's category. University honors are determined as follows:

BBA Honors:

- (Cum Laude) 3.5-3.65
- (Magna Cum Laude) 3.66-3.89
- (Summa Cum Laude) 3.9 – 4.0

MBA Honors:

- 3.9 and above With Distinction

DBA Honors:

- 3.9 and above With Distinction

CAREER SERVICES

The California Intercontinental University provides students with career resources through the Student Resource Center. The California Intercontinental University Community is another excellent resource that students can use to connect with others who have similar career interests. Currently, California Intercontinental University does not provide job placement assistance.

PROGRAM OFFERINGS

ASSOCIATE DEGREE PROGRAMS

California Intercontinental University offers the following Associate of Arts Degrees:

- Associate of Arts in Business Administration (AA-BA)
 - Information Technology (AA-IT)

Recipients of the Associate of Arts Degree must complete at least 60 semester units and maintain good academic standing. In general, the 60 semester units shall be achieved by completing the required core courses and specialization courses.

Associate of Arts in Business Administration

The Associate of Arts in Business Administration program provides the foundation and skills necessary for entry into various business fields. The attainment of an Associate Degree meets adult students' needs to prepare them for professional opportunities or higher degree levels.

Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Demonstrate the use of oral and written skills
- Demonstrate an understanding of theory and application related to the multicultural business environment while using knowledge and skills in modern management practices and technology.
- Demonstrate knowledge and understanding of professional ethics that apply to personal and business decisions.
- Demonstrate problem-solving skills within a business environment

Curricular Requirements (60 Credits)

The Associate of Arts degree in Business Administration requires the completion of 60 semester credits of coursework, which includes 33 credits of General Education courses, 21 credits of Business Administration courses, and 6 credits of General Elective courses.

1. General Education Courses: 33 Credits/11 Courses

- ACE 100 – Accelerate, Connect, Equip
- BUS 225 – Fundamentals of Business Ethics
- GEN 101 – English Composition I
- GEN 102 – United States History
- GEN 103 – United States Government
- GEN 104 – Mathematics
- GEN 105 – Algebra
- GEN 201 – English Composition II
- GEN 205 - Earth Science
- GEN 212 – Introduction to Philosophy
- IST 221 – Fundamentals of Computing

2. Business Administration Courses: 21 Credits/7 Courses

- ACC 222 – Financial Accounting
- BUS 201 – Business and Society
- BUS 215 – Business Communication

- ECO 215 – Survey of Economics
- ECO 220 – Macroeconomics
- MGT 251 – Organizational Behavior
- MKT 226 – Principles of Marketing

3. General Elective Courses: 6 Credits/2 Courses

- General Elective
- General Elective

General Elective Courses

Select 2 courses from the list below:

- ECO 215 – Survey of Economics
- FIN 224 – Principles of Financial Management

Master of Business Administration

Specialization: Information Systems and Knowledge Management

The Master of Business Administration with a specialization in Information Systems and Knowledge Management is designed to prepare students for careers in the fields of configuration management, server administration, knowledge management, business systems analysis, and control systems management.

Program Competencies and Learning Objectives

Upon successful completion of this program, students will be able to:

- Demonstrate the use of effective communication to assess information systems business challenges and opportunities associated with the global economy, competition, change, and uncertainty
- Construct and optimize information systems business opportunities in competitive markets
- Utilize applied research methods and business strategies to maximize international business growth and development opportunities

- Identify and analyze complex business concepts and explore alternative solutions to information systems problems
- Apply appropriate quantitative and qualitative tools for technical or ethical aspects of information systems to make decisions on the uses, benefits, or applications of efficient systems

Curricular Requirements (36 Credits)

The Master of Business Administration with a specialization in Information Systems and Knowledge Management requires the completion of 36 semester credits of coursework, including 24 credits of Business Core courses and 12 credits of Information Systems and Knowledge Management Specialization Elective courses.

1. Business Core Courses: 24 Credits/8 Courses

- ACC 501 – Accounting
- ECO 518 – Economics for Decision Making
- FIN 515 – Entrepreneurial Finance
- IST 530 – Management Information Systems
- MGT 517 – Organizational Development
- MGT 542 – Leadership and Development in Organization
- MGT 545 – Strategic Management and Competitive Globalization
- MKT 517 – Marketing

2. Information Systems and Knowledge Management Specialization Courses: 12 Credits/4 Courses

- IST 535 – Information Systems in Project Management
- IST 538 – Knowledge Management
- IST 540 – Knowledge Management and E-Learning
- IST 555 – Management of Information Security

Master of Business Administration

Specialization: Organizational Development and Human Resource Management

The Master of Business Administration with a specialization in Organizational Development and Human Resource Management is designed to prepare students for careers in the fields of learning and development management, human resource management, business development management, organizational effectiveness consulting, and personnel training management.

Program Competencies and Learning Objectives

Upon successful completion of this program, students will be able to:

- Demonstrate the use of effective communication to assess human resource business challenges and opportunities associated with the global economy, competition, change, and uncertainty
- Construct and optimize information related to human resources to produce competitive market analysis
- Utilize applied research methods and business strategies to maximize business growth and development opportunities.
- Identify and analyze complex organizational concepts and explore alternative solutions to organizational and HR problems
- Apply critical thinking skills, ethical and legal perspectives, proven management theories and practices to analyze, evaluate, and decide on a wide range of human resource issues

Curricular Requirements (36 Credits)

The Master of Business Administration with a specialization in Organizational Development and Human Resource Management requires the completion of 36 semester credits of coursework, including 24 credits of Business Core courses and 12 credits of Organizational Development and Human Resource Management Specialization Elective courses.

1. Business Core Courses: 24 Credits/8 Courses

- ACC 501 – Accounting
- ECO 518 – Economics for Decision Making
- FIN 515 – Entrepreneurial Finance
- IST 530 – Management Information Systems
- MGT 517 – Organizational Development
- MGT 542 – Leadership and Development in Organization
- MGT 545 – Strategic Management and Competitive Globalization
- MKT 517 – Marketing

2. Organizational Development and Human Resource Management Specialization Courses: 12 Credits/4 Courses

- MGT 523 – Human Factors and Team Dynamics
- MGT 528 – Human Resource Management and Case Analysis Readings
- MGT 533 – International Organizational Behavior
- MGT 566 – Training and Human Capital Development

Master of Business Administration

Specialization: Project and Quality Management

The Master of Business Administration with a specialization in Project and Quality Management is designed to prepare students for careers in the fields of total quality management, project management, project controlling, business analysis, quality control management, and project implementation management.

Program Competencies and Learning Objectives

Upon successful completion of this program, students will be able to:

- Demonstrate the use of effective communication to integrate project management theories and practices for improving organizational performance
- Construct and optimize information related to project management to produce a competitive market analysis
- Utilize applied research methods and business strategies to maximize business growth and development opportunities
- Identify and analyze complex business concepts and explore alternative solutions to organizational and project management problems
- Apply appropriate quantitative and qualitative tools, proven marketing and management theories, and their practices to analyze, evaluate, and improve a wide range of project management issues, including ethics

Curricular Requirements (36 Credits)

The Master of Business Administration with a specialization in Project and Quality Management requires the completion of 36 semester credits of coursework, including 24 credits of Business Core courses and 12 credits of Project and Quality Management Specialization Elective courses.

1. Business Core Courses: 24 Credits/8 Courses

- ACC 501 – Accounting
- ECO 518 – Economics for Decision Making
- FIN 515 – Entrepreneurial Finance
- IST 530 – Management Information Systems
- MGT 517 – Organizational Development
- MGT 542 – Leadership and Development in Organization
- MGT 545 – Strategic Management and Competitive Globalization
- MKT 517 – Marketing

2. Project and Quality Management Specialization Courses: 12 Credits/4 Courses

- IST 535 – Information Systems in Project Management
- MGT 523 – Human Factors and Team Dynamics
- MGT 570 – Quality Design for Six Sigma
- MGT 575 – Total Quality Management

DOCTORATE OF BUSINESS ADMINISTRATION

California Intercontinental University offers the following Doctorate of Business Administration Degrees:

- Doctorate of Business Administration (DBA)
 - Entrepreneurship and Business Management (DBA-EBM)
 - Global Business and Leadership (DBA-GBL)
 - Healthcare Management and Leadership (DBA-HCML)
 - Information Systems and Enterprise Resource Management (DBA-ISERM)

Recipients of the Doctorate of Business Administration degree must complete at least 60 semester units and maintain good standing. In general, the 60 semester units shall be achieved by completing 30 units of required core courses, 15 units of specialization courses, and 15 units of research project courses or 15 units of dissertation courses. Further, all recipients must engage and pass the CCA.

Students must complete all core and specializations courses and the CCA to begin their dissertation or research project phase.

The research project phase contains the following courses:

- DRP 801 Research Project Introduction (3 units)
- DRP 802 Research Project Literature Review (3 units)
- DRP 803 Research Project Methodology (3 units)
- DRP 804 Research Project Results and Findings (3 units)
- DRP 805 Research Project Conclusions and Recommendations (3 units)

The research project topic and the associated problem for the research project must be agreed upon by the student (also known as a Candidate) and the Chair while constructing the doctoral research project proposal during DRP 801. Further, the requirements of the doctoral research project will include the production of a properly formatted research project containing: (a) a research project topic including a problem statement; (b) literature review; (c) methodology; (d) findings; and (e) results/discussions sections. All completed and approved research projects are archived in the university electronic database. Although students are provided with a digital copy of their completed project, the University does not provide access to completed dissertations on a public or private website.

The dissertation phase contains the following courses:

- GRC 641 Dissertation Introduction (3 units)
- GRC 642 Dissertation Literature Review (3 units)
- GRC 643 Dissertation Methodology (3 units)
- GRC 644 Dissertation Results and Findings (3 units)
- GRC 645 Dissertation Conclusions and Recommendations (3 units)

The dissertation topic and research problem must be agreed upon by the student (also known as a Candidate) and Chair while constructing the dissertation's premise statement during GRC 641. Further, the requirements of the dissertation program will include the production of a properly formatted and defended dissertation containing: (a) prospectus; (b) literature review; (c) methodology; (d) findings; and (e) reflection/recommendation chapters. All completed and successfully defended dissertations are archived in the university electronic ETS database. Although students are provided with a digital copy of their completed dissertation, the University does not provide access to completed dissertations on a public or private website.

All GRC and DRP courses utilize a Pass/No Credit (P/NC) grading system. Such a system does not affect GPA; however, the three units associated with a GRC/DRP course are only earned when obtaining a passing (P) grade.

Doctorate of Business Administration

The Doctorate of Business Administration program prepares graduates for advancement in their current employment or new business career opportunities. While learning the most advanced decision-making skills and techniques, doctorate candidates also develop and hone research and writing skills required for high-level responsibility in academic and business environments.

Program Competencies and Learning Objectives

Upon successful completion of this program, students will be able to:

- Through written and oral communications, demonstrate mastery of content knowledge in specialized fields for a higher level of understanding for decision-making in complex organizational environments
- Identify and evaluate ethical behavior in enhancing business issues and opportunities for optimum return on investments
- Evaluate entrepreneurial skills and practices for starting and growing new ventures
- Apply research approaches to data collection, analysis, and synthesis for organizational effectiveness, change, and continuous improvement
- Demonstrate effective leadership skills and an entrepreneurial mindset for starting new ventures and growing innovative and collaborative economic development

Curricular Requirements (60 Credits)

The Doctorate of Business Administration requires the completion of 60 semester credits of coursework, including 30 credits of Business Core courses, 15 credits of Specialization Elective courses, a Comprehensive Competency Assessment, and 15 credits of Research Project courses – OR – 15 credits of Dissertation courses.

1. Business Core Courses: 30 Credits/10 Courses

- ACC 601 – Advanced Accounting
- ECO 615 – Global Economy
- FIN 605 – Global Business Finance
- GRC 600 – Doctoral Academic Study and Writing

- GRC 605 – Business Research Methodology and Quantitative Statistics
- MGT 616 – Organizational Change and Development in Management System
- MGT 610 – Mastering Leadership: Theories and Concepts

- MGT 618 – International Business
- MGT 662 – Entrepreneurship and Small Business Management
- MKT 640 – E-Commerce Models and Applications

2. Specialization Courses: 15 Credits/5 Courses

- Specialization Elective
- Specialization Elective
- Specialization Elective
- Specialization Elective
- Specialization Elective

3. Comprehensive Competency Assessment: 0 Credits/1 Course

- Comprehensive Competency Assessment

4. Research Project or Doctorate Dissertation Courses: 15 Credits/5 Courses

A. Research Project

- DRP 801 – Introduction to Doctoral Research Project
- DRP 802 – Doctoral Research Project Literature Support
- DRP 803 – Doctoral Research Project Research Methodology
- DRP 804 – Doctoral Research Project Results and Findings
- DRP 805 – Doctoral Research Project Conclusions and Recommendations

OR

B. Dissertation

- GRC 641 – Chapter 1 Dissertation Introduction
- GRC 642 – Chapter 2 Dissertation Literature Review
- GRC 643 – Chapter 3 Dissertation Methodology
- GRC 644 – Chapter 4 Dissertation Results and Findings
- GRC 645 – Chapter 5 Dissertation Conclusions and Recommendations/Dissertation Presentation and Oral Defense

Specialization Elective Courses

Select 5 courses from the list below:

- HCM 603 – Strategies for Healthcare Leadership
- HCM 612 – Economic Evaluation and Healthcare: Merging Theory with Practice
- HCM 620 – Managing Disaster: Perspective for Healthcare Leaders
- HCM 625 – Healthcare Marketing: Tools and Techniques
- HCM 630 – Quality Management in Healthcare: A Systems Approach
- IST 630 – Information Technology in Organizations
- IST 635 – Managing IT Projects
- IST 638 – Knowledge Management: Concepts and Practices
- IST 639 – Enterprise Resource Planning and Management
- IST 655 – Effective Security Management
- MGT 620 – Risk Management

- MGT 630 – Business Logistics
- MGT 645 – Strategic Management: A Global Approach
- MGT 650 – Project Management
- MGT 655 – Financial Entrepreneurial Ventures
- MGT 657 – Case Studies in Global Entrepreneurship
- MGT 660 – Strategic Entrepreneurship
- MGT 662 – Entrepreneurship and Small Business Management
- MGT 665 – Exploring Entrepreneurship and Economics
- MKT 645 – Marketing Research in Consumer Behavior

Doctorate of Business Administration

Specialization: Entrepreneurship and Business Management

The Doctorate of Business Administration with a specialization in Entrepreneurship and Business Management is designed to help students perform applied research and transform mature learners into leaders. While focusing on advanced decision-making skills and techniques, doctorate candidates also hone the research and writing skills that are required for a high level of responsibility in academic and business environments. It enables students to improve their analytical ability, strategic thinking, and process implementation beyond industry applications.

Program Competencies and Learning Objectives

Upon successful completion of this program, students will be able to:

- Through written and oral communications, demonstrate mastery of content knowledge in specialized healthcare fields for a higher level of understanding for decision-making in complex organizational environments
- Demonstrate critical thinking skills for local and global business new venture planning and decision making.
- Identify and evaluate ethical behavior in enhancing business issues and opportunities for optimum return on investments
- Demonstrate effective leadership skills and an entrepreneurial mindset for starting new ventures and growing innovative and collaborative economic development
- Apply research approaches to data collection to create and implement a strategic plan associated with the process and practice of entrepreneurship

2. Information Systems and Enterprise Resource Management Specialization Courses: 15 Credits/5 Courses

- IST 630 – Information Technology in Organizations
- IST 635 – Managing IT Projects
- IST 638 – Knowledge Management: Concepts and Practices
- IST 639 – Enterprise Resource Planning and Management
- IST 655 – Effective Security Management

3. Comprehensive Competency Assessment: 0 Credits/1 Course

- Comprehensive Competency Assessment

4. Research Project or Doctorate Dissertation Courses: 15 Credits/5 Courses

A. Research Project

- DRP 801 – Introduction to Doctoral Research Project
- DRP 802 – Doctoral Research Project Literature Support
- DRP 803 – Doctoral Research Project Research Methodology
- DRP 804 – Doctoral Research Project Results and Findings
- DRP 805 – Doctoral Research Project Conclusions and Recommendations

OR

B. Dissertation

- GRC 641 – Chapter 1 Dissertation Introduction
- GRC 642 – Chapter 2 Dissertation Literature Review
- GRC 643 – Chapter 3 Dissertation Methodology
- GRC 644 – Chapter 4 Dissertation Results and Findings
- GRC 645 – Chapter 5 Dissertation Conclusions and Recommendations/Dissertation Presentation and Oral Defense

COURSE DESCRIPTIONS

Accounting

ACC 222 – Financial Accounting

This course introduces students to the organization's accounting cycle, transaction analysis, and preparation of journal entries, trial balances, work sheets, and financial statements. Accounting for sole proprietorships is emphasized including special journal accounting procedures, analysis of accounts receivable, notes payable, notes receivable, merchandise inventory, property, plant, equipment, and long-term bonds. Accounting for partnerships and corporations is also covered. 3 semester credits

ACC 421 – Managerial Accounting

This course concentrates on the development and use of accounting information for management planning and control, and the development of cost information for financial reports, thus assisting management in utilizing an organization's resources effectively and efficiently. Concepts and techniques for planning, performance evaluation, and control are introduced, with an emphasis on the classification and analysis of costs for decision making. It also helps in providing an examination of techniques, systems, and procedures applicable to the managerial use of accounting information for planning, decision making and control. Topics include budgeting and analysis of variances, evaluation of managerial performance, and transfer pricing, as well as new developments in management accounting concepts and techniques. 3 semester credits

ACC 501 – Accounting

This course is an introduction to the basics of accounting. Students will learn how to work with journals, ledgers, balance sheets, and income and capital statements of a self-owned business. It is designed to provide the essential terms and information needed for understanding budgeting, financial records, and business records. The students will be exposed to reporting transactions for service and merchandising businesses and their basic financial and managerial accounting concepts and principles. 3 semester credits

ACC 601 – Accounting

This course equips students with the fundamental terminology and knowledge necessary to understand financial statements and the budgeting process. Students will learn to analyze and interpret the balance sheet, income statement, statement of cash flows, and other financial statements while gaining advanced insights into various business activities. 3 semester credits

Business

BUS 201 – Business and Society

This course provides the students with an understanding of the inevitable interdependence of Business with Society. It examines central issues such as the role of diverse businesses in society, the nature of corporate responsibility, business ethics practices, and the complex roles of government and business in a global community. The course also covers the applicable laws governing smooth functioning of businesses. Proctored exam. 3 semester credits

BUS 214 – Business Statistics

This course provides students majoring in the fields of business administration and business-related fields with an introductory survey of descriptive and inferential statistics. This course illustrates the application of statistics using examples and exercises that focus on business applications, but also relate to other aspects of the real world. A step-by-step approach is used to enhance performance, accelerate preparedness, and aid in understanding statistics. 3

BUS 215 – Business Communications

This course introduces students to modern and traditional business communications internal and external to an organization. Students explore communication methods and types in relation to different audiences and circumstances. Students also review the global and ethical implications of business communications. Finally, students evaluate business situations and apply appropriate communication solutions. 3 semester credits

BUS 225 – Fundamentals of Business Ethics

This course introduces students to the study of ethical problems, issues, and decision-making in the business world. Students learn about the ethical decision-making process and its benefits to resolve potential legal risks and damage to businesses. Topics include values, morality, cultural beliefs, employee rights, consumer rights, and corporate social responsibility. Proctored exam. 3 semester credits

BUS 314 – Business Law

This course provides an overview of business law and introduces fundamental legal principles encountered in the business environment. Topics include state and federal business regulations, court of law and jurisdiction, contract law, tort law, commercial paper, bankruptcy, security, and accounting liability. Proctored exam. 3 semester credits

BUS 416 – Business Negotiations

This course provides an integrated, big-picture view of what to do and what to avoid at the bargaining table, based on the latest research findings. It presents a unified and comprehensive overview of the insights, strategies, and practices inherent in successful negotiations, and addresses the most common myths and pitfalls that plague negotiators. It weaves together a wide range of disciplines in its study of negotiation, including economics, psychology, sociology, and organizational behavior. 3 semester credits

BUS 425 – Business Ethics

This course explores the various concepts and principles of business ethics. It highlights the moral reasoning and moral issues in business. Students will learn concepts of relativism, utilitarianism, moral duties and responsibilities, American capitalism, whistle blowing, discrimination and reverse discrimination, worker's rights, and duties. Students will also understand the changes brought in business by computers and Internet. The moral issues in international business will also be presented. 3 semester credits

BUS 426 – Quantitative Methods in Business

This course introduces the learner to basic mathematical and statistical methods and models, as well as their software applications for solving business problems and/or in making decisions. Includes such topics as statistics fundamentals, probability, probability distributions, both continuous and discrete, and the use of decision trees for decision analysis. Linear, non-linear, and discrete optimization techniques are examined. Various aspects of CPM/PERT methods will be studied. 3 semester credits

Doctoral Research Project

DRP 801 – Introduction to Doctoral Research Project

This course assists with the introduction of advanced doctoral research project. Successful completion of the course culminates in the creation and submission of a completed Doctoral Research Project Proposal. Completion of the course results in the creation of an APA compliant proposal describing the project problem, literature support, project type, and methodology. 3 semester credits

DRP 802 – Research Project Literature Review

This course focuses on reviewing the existing body of knowledge and developing a literature support document in relation to your research. Successful completion of the course culminates in the creation and submission of a completed, APA compliant document describing literature support for your doctoral research project. 3 semester credits

DRP 803 – Research Project Methodology

This course focuses on the methodology, i.e., collecting and analyzing data, for the doctoral research project. Successful completion of the course culminates in creating and submitting a completed, APA compliant document describing all the sections involved in the methodology for the doctoral research project. The submitted document must include the description of the researcher, the research design, the population, the data collection methods, and the instrument analysis. 3 semester credits

DRP 804 – Research Project Results and Findings

This course focuses discussion of your doctoral project findings and implications in relation to the literature and the problem chosen for the project. Successful completion of the course culminates in creating and submitting a completed, APA compliant document discussing the significance of your findings and explaining any new understanding about the problem investigated in the project. 3 semester credits

DRP 805 – Research Project Conclusions and Recommendations

This course consists of the final steps to conclude the doctoral research project. The course requires the description of the conclusions drawn from the research project as well as the review and edition of the finalized project document(s). Successful completion of the course culminates in a Chair and Project Committee approved, APA compliant document that combines all the stages of the project, from literature review to conclusions. 3 semester credits

Economics

ECO 215 – Survey of Economics

This course introduces students to a survey of the basic concepts of macroeconomics and microeconomics. Students will explore economic theories and practices in relation to the individual consumer, organizations, and global markets. Additionally, this course explores the supply and demand curve, market-based pricing, competition, and macro-economic measures of output. Students will evaluate microeconomic and macroeconomic theories and practices as they relate to domestic and global markets. Proctored exam. 3 semester credits

ECO 220 – Macroeconomics

This course covers the concepts and tools of aggregate economic analysis, inflation, unemployment, balance of payments, national output, determinants of economic activity, money and banking, role of government, determination of national income, theories of aggregate consumption, investment, unemployment, price level, national income and product accounts, and the theory of growth. It is a study of the measurement, growth, and fluctuation of aggregate economic activity with emphasis on static and dynamic theoretical techniques to ascertain the effectiveness of fiscal and monetary policies in dealing with unemployment and inflation. 3 semester credits

ECO 418 – Microeconomics

This course focuses on microeconomic analysis, supply and demand analysis, and theories of the company and individual behavior, competition and monopoly, and welfare economics. Students learn to appreciate the basic theory of consumer behavior, production and costs, partial equilibrium analysis of pricing in competitive and monopolistic markets, general equilibrium, welfare, and externalities. The course also covers the economy of the United States and economic policies as applied by the government of various democratic nations. It deals with

aggregate data analysis and problems relating to current economic policies. Topics of interest include level of output and income, level of employment and unemployment, level of prices, as well as fiscal and monetary policies. 3 semester credits

ECO 518 – Economics for Decision Making

This course deals with tools, concepts, and factual data used by economists in solving specific business problems; it includes case method applications of principles, analytical tools, and sources of economic information to practical business situations. Topics include capital budgeting and risk, international applications, and break-even analysis with assessment of demand. Included are current topics like game theory, asymmetric information and auctions that have become more noticeable in recent years with the auctioning of 3G licenses to wireless telecom services and the initial public offering of Google stock shares. Proctored exam. 3 semester credits

ECO 615 – Global Economy

This course covers economic and political theories that bear on the critical analysis of contemporary economic problems, including the Asian financial crisis, the stagnation of wages in the United States, the monetary union in Europe, and economic integration in the USA. The course assists the students/learners to familiarize themselves with the empirical reality of the world economy and provides a basic tool kit, simple models to explain how the world economy evolves, and finally offers empirical evidence to evaluate the models' prediction. The political economy of trade policy and borders are emphasized with the domestic political process that determines national trade policies. Proctored exam. 3 semester credits

Finance

FIN 224 – Principles of Financial Management

This course covers the theory and practice of financial management of an organization. The intent of this course is to develop individual capabilities in the analysis of financial operations and the efficient management of corporate financial resources. It provides insights to the role of the financial manager; whose primary responsibility consists of acquiring funds (cash) needed by the firm and directing these funds into projects that will maximize the company value for its owners. To that end, financial managers perform such varied roles/tasks as budgeting, financial forecasting, cash management, and credit administration and funds procurement. Students will study the quantitative tools used in the decision-making process. 3 semester credits

FIN 512 – International Financial Management

This course covers the foundations of international finance, including financial markets, foreign exchange, and financial operations of multinational companies. Emphasis is placed on the application of concepts and theory to business situations and real-time case analysis will be used in the study of every topic. Students are exposed to international financial management and financial reporting with particular emphasis placed on international accounting and reporting standards, accounting for foreign standards, and international financial statement analysis. Proctored exam. 3 semester credits

FIN 515 – Entrepreneurial Finance

This course uses a business life cycle approach that is targeted to entrepreneurs who innovate, recruit, and strategize to build new organizations. This course emphasizes business plan development and how to finance, manage, and evaluate a startup. Subject matter will cover forms of business ownership, valuation, financing, weighted average cost of capital, financial statements (income statements, balance sheets, statements of cash flows), forecasting, working capital and inventory management, planning, and financing new projects, operations including human resources, taxation, and finally exit strategies. Proctored exam. 3 semester credits

FIN 530 – Bank Management

This course explores concepts of risk management and financial planning in the banking industry with respect to

overall profitability or loss. It explores the role of banking executives in developing and implementing strategies that maximize stockholder's value. The course also deals with essential risk concepts in interest rate, foreign exchange rate, banking operation, market fluctuation, asset liquidity, credit risk, capital risk in effective financial decisions. The

course finally covers the relationship between banking risk profile and potential profitability and growth. 3 semester credits

FIN 533 – Commercial Banking

This course examines the banking growth from various aspects of commercial banking, banking regulations, assets and liability management, and credit evaluation. It covers banking valuation practices and techniques of assets and liability management through futures, options, and swaps. Commercial real estate and consumer lending will be explored, as well as securities, investment, and insurance services. The course further covers the practice of lending from the perspective of the lending institution and the borrower. 3 semester credits

FIN 540 – Capital Markets

This course explores the ways financial institutions interact to influence and develop global financial markets. It covers essential areas in global monetary and regulatory policies, as well as computing foreign exchange rates, interest rates, and the exposure to risk investing. The course emphasizes the Federal Funds Market, repurchase agreements, and the interrelationship of Euro currencies. It also provides students with knowledge in letters of credit, certificates of deposit, commercial papers, government securities, corporate bonds as well as financial options, futures, forward contracts, swaps, and mortgage-backed securities. 3 semester credits

FIN 605 – Global Business Finance

This course covers the economics of global financial markets to include valuation models and asset returns, intertemporal assets allocation, foreign exchange market, exchange rate, etc., all supported by behavior models, empirical evidence, and financial and economic research. The course also offers research cases with examples on functional areas of business. Proctored exam. 3 semester credits

General Education

ACE 100 – Accelerate, Connect, Equip

This course introduces students to the skills and strategies to succeed in online learning and business environments. Students learn about techniques, resources, and technologies that will enable them to achieve educational and professional goals. The course topics range from online productivity tools to strategies for time management and professional development. 3 semester credits.

GEN 101 – English Composition I

This course is designed to assist students in improving their writing skills through clear, concise, and creative construction of paragraphs, essays, and reports. Students will improve their abilities to recognize main ideas and supporting details through formulating effective thesis statements, body paragraphs, and reasoned conclusions. The course themes and activities will focus on the conventions of writing, such as the correct use of grammar and style. The writing process is emphasized as an integral aspect of critical thinking and learning. 3 semester credits.

GEN 102 – United States History - Part I

This course covers a broad survey of American history from New World exploration and settlement through post-Civil War reconstruction. It exposes students to events, ideas, and developments that have shaped American history and provides a basic understanding as to how the past has influenced the dynamics of today's society. The course explores such topics as colonization and cultural interactions between Europeans and Indians, the rise of slavery, the American Revolution, the beginning of industrialization, westward expansion, and the Civil War. 3 semester credits

GEN 103 – United States Government

This course is an overview of the development and operation of the constitutional democracy in the United States. Students will study and evaluate the systems of check and balances and separation of powers as each branch performs its roles and responsibilities in the federal system. In addition, the roles and impacts of those outside the

structure of the federal government will be studied to determine the impacts and results of their actions or inactions. 3 semester credits

GEN 104 – Mathematics

This basic mathematics course is designed to help students make the transition from Arithmetic to Algebra and prepares them for college mathematics courses. Topics include operations on integers, fractions, mixed numbers, and decimals; ratio, proportion, and percentages; working with variable expressions; interpretation of statistical graphs; and operations of arithmetic. Proctored exam. 3 semester credits

GEN 105 – Algebra

This course presents students with the key concepts of college algebra. Students will be introduced to linear and quadratic equations, the Cartesian plane and graphing, use of a graphing utility's functions, graphs and models, and polynomial and rational functions. 3 semester credits

GEN 106 – Calculus

This class introduces the basic elements of applied calculus using an intuitive definition of the limit, mechanical application of differentiation rules, integration using the power rule, and other calculus-based techniques appearing in economics classes. The class concludes upon the application of basic calculus techniques to problems involving elasticity, EOQ, market clearing, and other concepts commonly found in economics classes. 3 semester credits

GEN 113 – Introduction to Psychology

This course introduces the fundamental concepts and principles in psychology pertaining to relationships in social and professional environments. Topics include the sensory process, problem-solving, personality assessment, stress coping strategies, social prejudice, and discrimination. Students review cases focusing on workplace applications of psychology and complete scenario-based assessments. 3 semester credits

GEN 201 – English Composition II

This course enables students to develop writing techniques involving the evaluation and integration of sources into a well-organized argumentative essay. Students will learn techniques for dissecting a writing prompt, identifying, and evaluating sources of information, ethically integrating sources, and experience revision and editing strategies leading to a well-organized APA-formatted essay. Proctored exam. 3 semester credits

GEN 205 – Earth Science

This course employs scientific methods to discover how living things are organized, acquire materials and energy, respond to their environment, reproduce & develop, and adapt to their environment. Additionally, this course examines bio-ethical issues in contemporary biology. Students will learn about science through their engagement in activities, application, and reflection. 3 semester credits

GEN 212 – Introduction to Philosophy

This course surveys the history of philosophy, beginning with the ancient Greeks and ending with the French existentialists. Students read and reflect upon theories and practices by various philosophers from ancient to modern times and develop their own personal responses to ethical dilemmas. In doing so, students acquire critical thinking skills necessary for solving problems and managing ethical responsibilities in both personal and professional realms. 3 semester credits

GEN 213 – Introduction to World Religions

This course is a philosophical overview of the world's great religions including the historical origin and growth of each religion, major doctrines, and influence. Religions that are studied include Primitive, Hinduism, Jainism, Buddhism, Taoism, Confucianism, Judaism, Christianity, and Islam. Atheism will also be mentioned. 3 semester credits

GEN 223 – Political Science

This course explores current political system with emphasis on liberty, equality, and self-government as the three great principles of American democracy while analyzing issues related to these principles. Students compare policies and practices of the Federal government with those of the States despite belonging to the same union. Students will form comparisons of public opinion in the US versus cross-national on major issues of the current time, including immigration, church-state relationship, economic globalization, and the fight against terrorism. The course promotes critical thinking and the ability to discuss important issues that require opinion on such ideas as civil liberties. Students study the history and key developments that helped shape the American political system. 3 semester credits

Graduate Level Research

GRC 600 – Doctoral Academic Study and Writing

This course introduces the student to academic writing techniques utilized throughout the doctorate program. Techniques include the creation of single source, multiple sources, research, and critical analysis papers. Students will become familiar with the online environment at CIU, master usage of the LIRN collection and interpretative qualitative studies and research. Emphasis is placed on learning the academic writing competencies to support successful writing throughout the student's doctorate program. 3 semester credits

GRC 605 – Business Research Methodology and Quantitative Statistics

In this course, students investigate the research process techniques as applied to business problems. The course focuses on the relationship between research problems, questions, and design as well as the techniques for collecting and analyzing research data. Students develop skills in defining research problems, designing a research project, and collecting and analyzing data. 3-semester credits

GRC 641 – Dissertation Introduction

This course assists with the creation of dissertation prospectus (Chapter 1). Successful completion of the course culminates in the creation and submission of a completed draft of Chapter 1. Completion of the course results in the creation of an APA compliant dissertation prospectus utilizing multiple source essay and research paper techniques. 3 semester credits

GRC 642 – Dissertation Literature Review

This course introduces the basic techniques and concepts facilitating the preparation of a literature review. Topics covered include the purpose of a literature review, searching for sources, reading and note-taking strategies, organizing information, structuring a literature review, and the foregrounding of voice. Completion of the course results in the creation of an APA compliant literature review utilizing multiple source essay and research paper techniques. 3 semester credits

GRC 643 – Dissertation Methodology

This course assists with the creation of the methodology chapter and the conclusion of the proposal phase. Successful completion of the course culminates upon the creation and submission of a completed draft proposal, proof of CITI Social-Behavioral-Educational (SBE) certification and submitted IRB application. 3 semester credits

GRC 644 – Dissertation Results and Findings

This course assists with the presentation of results as Chapter 4 of the dissertation. The milestones forming this class cover basic interpretive qualitative studies, mixed methods studies, and hypothesis-driven quantitative studies. Successful completion of the class will manifest as a 15-30-page draft of Chapter 4. 3 semester credits

GRC 645 – Dissertation Conclusions and Recommendations

This course aids in the creation of Chapter 5, utilizes APA and Panel reviews of the entire dissertation and requires an oral defense and dissertation archiving activity to conclude the dissertation process. Completion of the class results in a panel approved and successfully defended dissertation suitable for archiving. 3 semester credits

Healthcare

HCA 301 – Fundamentals of Healthcare Systems

This course introduces the students to the basic information and skills needed in the healthcare profession. It covers the fundamentals of medical ethics and laws and medical principles in human growth and development, nutrition, and safety. Finally, the course examines the role of the caregiver in nursing, home health assistance, physical therapy, and environmental services. 3 semester credits

HCA 315 – Medical Assisting

This course introduces students to the basic concepts of record keeping and billing. The course also covers compliance with the Health Insurance Portability and Accountability Act (HIPAA) to address security and privacy of health data, prevention of healthcare fraud and abuse, and transactions and Code Sets Rule. The use of required forms (Consent Form, Lien, Form HCFA, Check Endorsement form, etc.) and record keeping for Worker's Compensation Insurance, Private Insurance, primary insurance, secondary insurance, Medicare, etc. will also be covered. 3 semester credits

HCA 337 – Statistics for Healthcare Policy and Administration

This course introduces students to the fundamentals of statistical analysis in health policy and health administration fields. It covers methods of statistical analysis and interpretation of study results. The course covers sampling populations, means analysis, probability and dispersion, "t" testing, multivariate analysis, and regression analysis. 3 semester credits

HCA 425 – Healthcare Management, Organization, and Behavior

This course covers organizational principles, practices, and insight to the management of health services organizations. The clinical enterprise model is presented with actual situations and challenges for the learner to appreciate. Strategic management with conflict management and negotiation are covered along with organizational design, change, innovation, and learning. Proctored exam. 3 semester credits

HCM 503 – Leadership in Healthcare

This course explores the role of leadership in maintaining an efficient healthcare business environment. It identifies and describes the key needed areas for managers to transition into a more effective leadership management style. Finally, the course covers critical leadership areas in defining positive communication and profitable business management skills versus barriers that prevent managers from achieving their goals. 3 semester credits

HCM 507 – Healthcare Human Resource Management

This course explores ways to effectively utilize and manage the personnel in the healthcare field. It covers state and federal compliance (Equal Opportunity, Privacy, Labor Laws, etc.), personnel issues, and the management of the work force and professionals in various health care settings including hospitals, nursing homes, clinics, and physical therapy and rehabilitation facilities. Finally, the course covers the impact of human resource management in private

companies and organizations requiring healthcare administration. 3 semester credits

HCM 512 – Healthcare Economics

This course covers the evaluation and effectiveness of healthcare services with respect to costs of therapies and available modalities. It covers the role of physicians in influencing both the supply and demand of healthcare options and how the patient's decision for medical treatment is thereby affected or influenced. Finally, the course examines how economics have influenced health policies in different countries. 3 semester credits

HCM 523 – Ethics of Healthcare

This course explores a variety of contemporary issues affecting the ethical treatment of patients in the healthcare profession. It provides analysis, cases, and professional insight into modern medical ethics including diagnostic procedures, beneficence, justice, confidentiality, and death. Finally, the course covers ethical concerns in transplants, medical testing, and biomedical research. Proctored exam. 3 semester credits

HCM 603 – Strategies for Healthcare Leadership

Leadership in healthcare provides critical leadership development suitable for many sections of healthcare such as acute care, long term care, ambulatory, and or community-based settings. The development of leadership skills rests with essential knowledge and skills that provide preparation in human resources, healthcare economics, systems, program planning, organizational development, and the political, ethical, and regulatory aspects in healthcare. This course provides strategic planning and a problem-solving strategy for managers, creates processes in the workplace, and promotes team building. The course also covers the changing environment of organizations, demographic changes, personal values, and perspectives that affect the healthcare workplace. 3 semester credits

HCM 612 – Economic Evaluation in Healthcare: Merging Theory with Practice

This course covers economic factors that influence healthcare policies, procedures, regulations, and the options available to licensed healthcare practitioners and patients. The course also presents ways healthcare policies can change or be influenced by different economical or regional factors. Finally, the course lists the essential methods for determining cost-effectiveness to fairly distribute healthcare services and manage regulatory issues. 3 semester credits

HCM 620 – Managing Risk in Healthcare Settings: Perspective for Healthcare Leaders

This course is designed to introduce concepts and cases involving the identification and mitigation of risk in healthcare settings. Topics include liability and malpractice, quality improvement, claims and resolutions, patient safety, and financial risks. Students will engage in case study analyses, journal clubs, reflective writing exercises, and other activities developing skills required to identify and control risks commonly found in healthcare settings.

HCM 625 – Healthcare Marketing: Tools and Techniques

Healthcare marketing requires a comprehensive introduction to current theories and practices of marketing. The methods used to evaluate organizational performance and productivity, analyze internal and external resources, and perform needs assessment are covered as well as various models and methods for planning and positioning of healthcare services. Students will analyze various marketing strategies appropriate to the healthcare industry, establish a competitive marketing plan for a specific healthcare facility, conduct and evaluate market research appropriate to the industry. Proctored exam. 3 semester credits

HCM 630 – Quality Management in Healthcare: A Systems Approach

This course provides present and future leaders with an understanding of the political, economic, and financial aspects of the healthcare systems. It focuses on the role of leadership in quality management in healthcare organizations. Theories, concepts, and practices are utilized to examine issues in healthcare work environments. It covers concepts for managing and leading quality improvement initiatives to design, organize, and analyze information related to quality improvement, risk management, and utilization. The course explores the problem-

solving skills necessary to analyze issues related to quality; organizational change; and the development of integrated systems for quality control, utilization, and risk management involving organizational structures and team participation. 3 semester credits

HCS 430 – Information Technology for the Healthcare Professional

This course provides an introduction to computer and information technology that is required for the health care field. It covers the fundamentals of hardware and software, communications and networking, ethical issues, and

privacy concerns. Finally, it examines the impact that information technology is having throughout the medical fields including radiology, dentistry, surgery, pharmacy, and medical devices. 3 semester credits

HCS 533 – Healthcare Information Systems

This course explores the key principles, methods, and applications required to provide access to relevant healthcare information. It covers information on the foundation of healthcare management, its evolution through current times, and the challenges faced by evolving information management. The course covers ways information management affects quality of care and how it affects healthcare regulations, standards, and laws. Finally, the course deals with the security measures required to protect patient confidentiality. 3 semester credits

Information Technology

IST 221 – Fundamentals of Computing

This course provides an overview of computer information systems. It provides an introduction to basic skills and problem solving involved with computer hardware, operating systems, and application programs, with a special emphasis on conventions and skills universal to a variety of computing settings and skills that promote portability between systems and applications. Extensive coverage of terminology constitutes a general introduction to computer systems and how they are used. 3 semester credits

IST 225 – Computer Systems Architecture

This course provides an overview of computer organization and architecture and presents how computer design has evolved. It examines the major components of a computer and related interconnections and outlines the internal structure of the processor's control unit and the use of microprogramming. Parallel organization, including symmetric multiprocessing and clusters are also covered. 3 semester credits

IST 227 – Information Technology in Business

This course covers an introduction to information systems in business that managers and executives must face in changing market conditions, evolving business processes, and new information technologies. This course will assist them in making informed decisions about information systems. 3 semester credits

IST 228 – Data Communication and Distributed Networks

The course introduces students to network technologies and data communication services. It covers essential concepts of data communication, network architecture, and protocols to educate students in Internet structures and the functionality of Internet protocols. The course focuses on the hierarchical TCP/IP protocol stack as well as telecommunications suitability for different data communications hardware and software. 3 semester credits

IST 234 – Fundamentals of Database Management

This course covers basic concepts of Database Management, a growing field in the IT industry. Data storing and retrieving is one of the many features of database. As confidential data are increasingly stored, it is essential to secure them. This course covers the entity-relationship diagram and places emphasis on database design and integrity model. 3 semester credits

IST 235– Legal Issues in Information Technology

This course covers ethical and legal issues in Information Technology that include copyright, security issues, managing digital property rights, security of information, transactions, and online liability. Students will have an overview of current technologies and their legal implications on business. 3 semester credits

IST 256 – Introduction to Internet Security and Threats

This course provides an overview of computer information systems. It provides an introduction to basic skills and problem solving involved with computer hardware, operating systems, and application programs, with a special

emphasis on conventions and skills universal to a variety of computing settings and skills that promote portability between systems and applications. Extensive coverage of terminology constitutes a general introduction to computer systems and how they are used. 3 semester credits

IST 346 – Computer Security Fundamentals

Computer Security is the foundation of this course. This course will introduce the students to the different strategies of securing information on the computer at various level of classification. The possible ways of hacking and its prevention will be presented as well as how to avoid fraudulent practices in the cyber industry. 3 semester credits

IST 423 – Information Systems Analysis Design and Implementation

This course covers business problem-solving and computer applications with emphasis on the fundamental concepts of Information System development that provides background for system design and implementation. The course also covers the configuration of Information Systems, activities and methods of system analysis, system support, and system implementation, as well as data flow diagrams describing the essential business processes in a system. 3 semester credits

IST 426 – Advanced Systems Administration

This course provides the students with advanced topics on the monitoring and maintenance of large, distributed, cluster systems. It provides students with the necessary knowledge and skills to perform network basics, manage virtual file systems and core dumps, manage storage volumes, control access, and configure system messaging, set up naming services, and to perform installation procedures. Students will be instructed in essential system administration skills, including configuring network interfaces, managing swap configurations, crash dumps, and core files. 3 semester credits

IST 430 – Information Systems Management and Practice

This course helps students to understand the essentials of managing information in a digital world. It covers the associated ethical and social issues and walks the learners through the infrastructure and support systems of the IT industry. It provides an understanding of the value of a system by allowing students to design a system after analyzing the business processes and requirements. It also focuses on change management with case scenarios to acquaint students to real-time situations. 3 semester credits

IST 445 – Network Infrastructure and Services

This course introduces the basic concepts and principles that underlie computer networking, from the simplest peer-to-peer local area networks to the vastly complex wide area networks that reach across international boundaries around the world. This includes an overview of networking terminology; an examination of different network architectures; a focus on the physical components of computer networks, including server and client computers, and cabling and connectors. It also includes network connectivity, the nuts and bolts of designing and rolling out a complete network, and a review of environmental factors that affect networks, as well as administering, upgrading, troubleshooting, and relocating networks. 3 semester credits

IST 447 – Software Engineering

This course is designed to help students explore the various concepts, principles, and phases of the software engineering process. Students will be exposed to and will learn different methods, tools, and techniques used in structured systems analysis and design. They will also gain an overview of different process models, testing principles used for the development of a system. The course also covers ways to estimate the costs for developing a particular system considering all associated factors. Students will be exposed to risk management in building an effective system. 3 semester credits

IST 450 – Directory Services and Infrastructure

This course enables students to learn and apply the basics of Windows environment, data organization and management, e-services, the Internet, the World Wide Web, e-mail, networking, and systems administration. 3 semester credits

IST 452 – Messaging Infrastructure Management

This course is designed to introduce students to the basics of installing, configuring, and managing messaging infrastructures such as e-mail, collaboration, document management, and real-time communication systems in modern business organizations. Students are introduced to the concepts underlying messages and their creation, use, management, and storage throughout organizations including the security devices used to protect confidential business data. Proctored exam. 3 semester credits

IST 458 – Routing and Switching Systems

Advanced Routing and Switching is a course in advanced networking topics and technologies available to large enterprises to build a large intranet infrastructure. The topology of the internet is discussed, along with current and emerging technologies. Topics include core routers and routing protocols, queuing, layer 2 and layer 3 switching, multicast routing and the MBONE, variable length subnet masking, IP address depletion, wide backbone routers, and emerging protocols. 3 semester credits

IST 530 – Management Information Systems

This course describes the organizational and managerial foundations of information systems which in turn focus on the critical role played by various types of information systems in organizations, sweeping changes created by the Internet and digital integration of the enterprise, and the need to demonstrate the business value of information system investments. The course also provides the technical foundation for understanding information systems by examining technologies and managerial issues in the firm's information technology infrastructure. The role of information systems in enhancing business processes and decision making across the enterprise are also emphasized. 3 semester credits

IST 535 – Information Technology in Project Management

This course focuses on how information technology impacts the development of project management techniques in diverse industries such as healthcare, government, education, and banking. It introduces students to the process of using project management (PM) to streamline and improve productivity by emphasizing the role of the project manager in organizations as a replacement for mid-level managers in lean businesses. The core concepts of the course focus on factors of project quality, scope, time, cost, human resources, communications, risk, procurement, and integration utilizing information technology resources. Proctored exam. 3 semester credits

IST 538 – Knowledge Management

This course covers the development of a state-of-the-art enterprise Knowledge Management platform that can allow leverage of a company's existing investments in intranets, data warehousing, data mining, groupware, and other technologies. The course will guide the students in developing steps to build business value and how to build on the work that preceded it. 3 semester credits

IST 540 – Knowledge Management for e-Learning

This course is designed for professionals who are responsible for the management of an effective enterprise operation in a corporate setting. The course covers ways to specifically apply knowledge management principles, practices, and technologies to the intelligence domain. The course also emphasizes that advances in technology and the way workers access and share information have created the need for a knowledge management framework to help senior management make better, more informed business decisions to increase a competitive edge and response to evolving customer needs. An emphasis in E-learning techniques is included. 3 semester credits

IST 555 – Management of Information Security

This course focuses on information security management. It emphasizes the fundamental tenet that information security in modern times is a management issue that technology alone cannot resolve. The course covers information security in modern Information Systems to understand the foundation of managing information security by securing computers, network hardware and software, data, and networks. Students learn about common cybersecurity and privacy-related challenges faced by businesses. Topics include viruses, Trojan, worms, malware, access control mechanisms, password security, cryptography, and common security policies. 3 semester credits

IST 630 – Information Technology in Organizations

This course covers information systems applications and management in a business environment that includes personal productivity, basic technology, and infrastructure, developmental design, management of computer information systems, and impacts of technology on business practices. Also, this course covers a comprehensive view of management information systems, their tactical, operational, and strategic importance, and how they affect and relate to business processes of an organization. 3 semester credits

IST 635 – Managing IT Projects

This course covers the basic principles and best practices of IT project management. It provides the students the necessary knowledge to deliver IT projects on time, within budget, and to specification. During this course, the students will examine all aspects of IT projects, including hardware, software, and human resources through all stages of project managements. The students will learn to determine project scope, set and manage stakeholder expectations, identify and manage IT risks, and meet quality standards. Past IT projects are studied to understand reasons for high rate of failure, and through them, the students will learn how to overcome the most common pitfalls of IT projects. 3 semester credits

IST 638 – Knowledge Management: Concepts and Practices

This course covers the essential concepts and practices of knowledge management (KM), including the practical, business aspects of knowledge management, by examining the effective approaches that contribute to corporate competitiveness and those that do not. Students will know how a business can be optimized by using KM techniques and strategies. This course also provides them with an overview of the numerous factors that need to be considered when transferring knowledge. Proctored exam. 3 semester credits

IST 639 – Enterprise Resource Planning and Management

This course covers enterprise resource planning (ERP) and the necessary background for strategic success in today's marketplace utilizing computer planning systems and management technology together to create a competitive advantage. Emphasis is placed on the need for businesses and companies to focus on processes rather than functions. Students learn how integrated information systems can be a critical tool to improve the processes used and performed by many businesses and companies. 3 semester credits

IST 655 – Effective Security Management

This course enables students to understand and manage both the strategic and operational aspects of information security which helps them address the current requirements and incentives for organizations to implement

information security. This course was designed to give an in-depth background in security fundamentals, including terrorism and incident response, cyber-security education, mobile device security management, information protection, and critical infrastructure. Several management topics including hierarchical model of organizational work in the sphere of information security and theories of security management are also covered. Scenarios that build on career experience in retail, security, crime prevention, safety, or criminal justice are presented to provide a context for enhancing the security management of a business/organization. 3 semester credits

Management

MGT 228 – Introduction to the Process of Management

This course covers the conceptual framework of management processes. It highlights the essence of ethical and effective management and effective provision of goods and services. Students will be introduced to the legal framework for safe, fair, and effective business management. This course encapsulates the performance difference between the traditional versus current management practices and framework. The range of management theories, organizational structures and cultures will also be examined. 3 semester credits

MGT 251 – Organizational Behavior

This course examines beliefs and concepts describing individual and group behaviors while introducing the field of organizational behavior. Topics include theories of organizational behavior, the influences of diversity on group behaviors, ethical considerations often encountered by organizations, the utility of quantitative data during decision-making processes, individual and group motivators and stressors, and organizational structure. Students will explore such topics and compose strategies enhancing their abilities to manage teams and act as communicators able to aid with conflict resolution. Proctored exam. 3 semester credits

MGT 440 – Operations Management

This course emphasizes tactical and operational decisions of operational management, as well as important interactions with other functional areas. It effectively helps the individual in examining the concepts for designing, planning, and improving manufacturing and service organizations. Emphasis will be placed on obtaining a better understanding of the problems associated with operations planning and control. Proctored exam. 3 semester credits

MGT 443 – Sustainable Entrepreneurship

This course addresses various aspects of sustainable entrepreneurship including the opportunities available to startups and large businesses to establish sustainable enterprises in the global environment. The course explores how companies address the triple bottom line using the three Ps: People, Profit, Planet. Students will study how entrepreneurs assess new opportunities, the challenges they encounter and how to enhance the long-term ecological system while sustaining a profitable business. The course also explores the roles of government policy, technological advances, private investor preferences, and public opinion that affect the economics of sustainable entrepreneurship. 3 semester credits

MGT 445 – Managing Business Strategy

This course covers important current issues in strategic management. It deals with modern analytical approaches and enduring successful strategic practices. It is designed with a technological and global outlook that highlights the significant emerging trends in strategic management. The course is intended to provide students with a pragmatic approach that will guide the formulation and implementation of corporate, business, and functional strategies. 3 semester credits

MGT 448 – Human Resource Management

This course addresses issues relating to the acquisition and maintenance of resources in the current international business environment. It covers job analysis and design, human resource planning, health and safety, selection and recruitment including equal employment opportunity, career planning, performance appraisal, remuneration, training

and development, and global international HRM issues. This course will enable students to understand issues associated with the management of human resources. The course provides current practice, trends, and constraints in the field of human resource management and industrial relations. Proctored exam. 3 semester credits

MGT 456 – International Management

This course addresses the strategic and operational issues that arise from the international nature of multinational corporations' activities. Issues covered include alternative internationalization strategies, interaction between firms and governments, dealing with global competitors, and staffing and organizational implications of cross-border operations. 3 semester credits

MGT 460 – Leadership in Organizations

This course covers the core leadership theories that have been proposed and documented by theorists with varying degrees of success over the years, and then subjects them to measured analysis. Competing views of organizational leadership from sociologists, critical management theorists, feminists, and others add contrast and additional perspectives. Context refers to anything from specific tasks; followers are engaged into broader initiatives, such as reengineering organizations. 3 semester credits

MGT 462 – Small Business Entrepreneurs

This course provides basic entrepreneurial concepts and ways to create and develop an effective business plan. It covers the essential steps involved in launching and managing a new business venture. The different types of startup businesses including minority-owned businesses, home-based businesses, and family-run businesses are discussed. 3 semester credits

MGT 517 – Organizational Development

This course covers key areas of organizational development within an organization or institution. It will explore effective intervention activities, action research, and action learning. This course emphasizes the potential causes for structural transformation efforts that sometimes fail to produce desired results. The course provides step-by-step processes to create effective transformation within an organization. 3 semester credits

MGT 518 – Global Business Management

This course provides the fundamentals of strategic management from the perspective of both large and small organizations operating internationally. It builds directly on prior studies in international business and focuses on corporate and business level strategies. Proctored exam. 3 semester credits

MGT 523 – Human Factors and Team Dynamics for Project Management

This course examines the abilities and limitations of human performance with respect to how individuals interact with objects in their environment. It covers an introduction about human factors, how they react in the physical environment, designing and evaluation methods, human workload, and risk management. This course supports skill development in creating effective, productive work teams, managing meetings, and getting things done while building long term mutually beneficial relationships. The course is designed to give the participant the skills needed to manage team processes in a way that helps the organization reach its objectives. 3 semester credits

MGT 525 – Strategic Human Resource Management

This course is designed to explore trends that affect strategic human resource management practices. This course explores the design of work systems and relevant employment laws that influence the practice of managing people in organizations. Strategic issues are examined while developing specific programs and policies related to traditional functional areas of HR such as staffing, training, performance management, compensation, labor relations, employee

separation, and managing a global workforce. 3 semester credits

MGT 528 – Human Resource Management, Case Analysis and Readings

This course covers a variety of factors and situations that are commonly encountered in the field of human resource management. The course addresses critical personnel issues including recruiting, training, management systems, wages, benefits, pay systems, and disciplinary actions. The course offers real world case studies to give students an

opportunity to explore different concepts in overcoming HR problems and provide productive solutions to personnel issues and conflicts. 3 semester credits

MGT 533 – International Organizational Behavior

This course explores the key characteristics of organizational behavior in a global setting. It will focus on differing cultural views that affect both teamwork and business environments internationally. The course also covers in depth group focus and teamwork, motivation, and human resource management. 3 semester credits

MGT 542 – Leadership Development in Organizations

This course addresses the fundamentals of leadership and ways for managers to effectively enhance their leadership skills. It covers the various methods used by companies to provide an environment that promotes effective leadership qualities in their workforce. The course also covers areas of effective feedback, developing relationships, job assignments, and evaluation of leadership development. Proctored exam. 3 semester credits

MGT 545 – Strategic Management and Competitive Globalization

This course focuses on the application of conceptual models that underline interactions related to external competition, firm positioning, patterns of technological and market change, and the nature and development of internal firm capabilities. Students are required to develop a set of tools and methodologies essential for the formulation and management of a winning technology strategy. This is the final core course completed prior to beginning the specialization courses. 3 semester credits

MGT 566 – Training and Human Capital Development

This course introduces learners to the components driving training events encountered at small businesses and organizations. Learners will create a training proposal exploring: (a) behavior-modifying training cycles; (b) data-driven needs assessment strategies; (c) evaluation of training effectiveness; (d) scheduling training events; (e) event budgeting; and (f) training methods. Upon completing the course, learners will have developed an appreciation of training cycles and the use of a training proposal template. Proctored exam. 3 semester credits

MGT 575 – Total Quality Management

Total Quality Management (TQM) is a guided tour along the road to total quality. This course reviews the history of quality and examines the wide variety of philosophies, concepts, and techniques for managing, controlling, and improving quality. Students will also describe the foundations of quality management, present the tools and methods for process improvement studies, explain the administrative systems required for quality management, and finally explain about the Six Sigma management. 3 semester credits

MGT 610 – Mastering Leadership: Theories and Concepts

This course introduces the concepts, theories, and practices enabling students to develop into excellent leaders. Topics covered include the connections between a strong code of ethics and setting a standard for others to follow, the importance of sharing a vision for the future with others and enlisting people who share their enthusiasm, and evaluating the significance of risk, innovation, opportunities, and growth. Students will also explore ways to motivate others, celebrate accomplishments, and foster collaborative teams. 3 semester credits

MGT 616– Organizational Change and Development in Management

This course covers organizational change through the lens of micro (individual level) organizational behavior. It

identifies the pros and cons of perception, decision-making, motivation, and diversity/individual differences. It covers analysis and development of organizational theories, with emphasis on environmental dependencies, socio-technical systems, structural design, and control of the performance of complex systems. Organizational changes such as barriers to change, appropriateness of intervention strategies and techniques, organizational, and evaluation of formal change programs will be covered. Finally, the course provides a diagnostic approach for the students/learners

to explore the nature and impact of change. 3 semester credits

MGT 618 – International Business

This course surveys the international relationships of world business operations, explores globalization trends, international trade theories, regulations affecting trade, regional economic integration, and the impact these factors have on developing nations. The course covers how a business/company functions using marketing, finance, and effective management to operate in the international setting. Special emphasis is placed on strategy development, the role of culture, and the problems and challenges facing multi-national corporations, with regard to their strategies and policies. 3 semester credits

MGT 620 – Risk Management

This course introduces risk and its management within a systematic framework. Topics include the nature of risk, roles of (co)insurance contracts, contract payouts, traditional valuation, legal and ethical considerations involved with contract selection and marketing, health insurance, IRA/social insurance, and underwriting principles. Upon completion of this class, the student should be able to discuss the utility and costs of government-regulated risk management strategies and related insurance contracts. 3 semester credits

MGT 630 – Business Logistics: Theory and Practice

This course covers acquisition, distribution, utilization, sustention, and disposition of logistical resources. It also addresses design, operations, and control of logistics systems for producing and servicing firms. Emphasis is placed on customer service and the management of activities involved in moving products, services, and information from point of origin to point of use and as a means of achieving a sustainable competitive edge. It covers a critical appreciation of the role of logistics within organizations and the benefits of integrating functions involved in supply chain. This course stimulates students to assess and evaluate the consequences of logistical decisions on the environment and an awareness of related legal implications. 3 semester credits

MGT 645 – Strategic Management: A Global Approach

This course provides an accurate, relevant, and complete presentation of strategic management in today's world. It covers modern analytical approaches and enduring successful strategic practices designed with a technological and global outlook. This course is intended to provide the students with a pragmatic planned approach that guides the formulation and implementation of corporate affairs, business practices, and functional strategies. These concepts require appropriate terms and languages applicable to strategic management situations in performing the strategic management process, and to important issues when organizing a strategic management plan. 3 semester credits

MGT 650 – Project Management

This course enhances students' ability to function in a project leadership role. While exploring the project life cycle, they gain experience in project portfolio management including budgeting and timeline management. Projects are designed using project modeling methods that may include graphs or bar charts and will include program evaluation review techniques (PERT) and critical path method (CPM) to produce project plans that are applicable to solutions for the business world. Proctored exam. 3 semester credits

MGT 655 – Financing Entrepreneurial Ventures

This course covers important tools and skills necessary to create and grow a successful new venture. New venture creation practices challenge students to think critically about the process of becoming an Entrepreneur, and to

become immersed in the dynamics of launching and growing a new business/company. This course explores entrepreneurship, innovation, new venture creation, entrepreneurial process, information sources, advisory services using consultants, the role of government, preparing the business plan, financial issues in new ventures, legal issues in new venture creation, acquiring an existing business, deal structure, and managing the growth enterprise. 3 semester credits

MGT 657 – Case Studies in Global Entrepreneurship

This course covers the entrepreneurial “mindset” and essential strategic needs of entrepreneurial ventures in a cross global context. Also, the course covers global models and working knowledge of global orientation toward entrepreneurial strategy. The student benefits from direct experience with various entrepreneurial companies through cases, where they take on the role of Consultants to address significant management and strategy problems identified by the companies. Cultural differences in approaching entrepreneurship in a team setting across the globe are also covered. 3 semester credits

MGT 660 – Strategic Entrepreneurship

This course covers the role of entrepreneurship in business development, management, and leadership. It offers the key elements, different personality styles, and decision-making strategies that entrepreneurs display. The course covers the nature of business opportunity and ways to recognize, create, and distribute wealth. Emphasis is placed on the resources available to entrepreneurs, types of markets and hierarchies, networks, and extended organizations. Proctored exam. 3 semester credits

MGT 662 – Entrepreneurship and Small Business Management

Entrepreneurship and small business management is a focused business course designed to provide students with the needed skills to effectively organize, develop, create, and manage their own business. It introduces the traits and characteristics of successful entrepreneurs. The course provides necessary information to determine the suitability of starting and running a business; measure expectations with practical aspects of running a business; formulate a step-by-step approach for conceiving, executing, and launching a business venture; and develop skills in finance, employee relations, and marketing. It helps the entrepreneur to select and shape a new venture business idea, with emphasis placed on identifying and evaluating entrepreneurial opportunities. 3 semester credits

MGT 665 – Exploring Entrepreneurship and Economics

This course covers the relationship between economics and potential entrepreneurial endeavors. It lists the essential areas of business ventures, financing business ventures, and capital structure of business startups. Also, the course examines the factors that can change an effective business plan into a profitable business venture. 3 semester credits

Marketing

MKT 226 – Principles of Marketing

This is an introductory course in the field of Marketing. Students will learn the components of the marketing system and marketing decision making and how these components relate to the marketing mix (product, price, place, and promotion). Additional topics include consumerism, the legal environment, consumer behavior, and the international market and its effect on marketing. 3 semester credits

MKT 450 – Global Marketing

This course is designed to provide a structure to formulate and implement international marketing strategies. It also covers the analysis of the contemporary global marketing environment, marketing mix issues and decisions in international markets, global competitive analysis and strategy, organizing for international marketing, and current problems and practices in multinational firms. 3 semester credits

MKT 452 – Advertising

This course covers the principles and practices of advertising and strategic planning in advertising as well as the effects of advertising in the marketing concept. The course emphasizes the strengths and weaknesses of media alternatives, budgeting procedures, buying interaction, and negotiation with media sales personnel. Proctored exam. 3 semester credits

MKT 456 – Consumer Behavior

This course emphasizes the understanding of the processes that influence the acquisition, consumption, and disposition of private and public sector goods and services. A comprehensive study of behavioral models and concepts to help understand, evaluate, and predict consumer behavior in terms of marketing implications will also be covered. Determinants of consumer behavior are explored to gain understanding of the complex forces that affect the marketplace. 3 semester credits

MKT 517 – Marketing

This course introduces the students to the marketing management's role as an important component of an organization's total business strategy. It includes intensive study of marketing management with an emphasis on the marketing environment, development of marketing strategies, and integration of marketing with other functional areas of business. From a broader perspective, this course explores the importance of marketing and how it has influenced the various companies and industries. Tactical decisions for successful marketing are also covered, including connecting with customers, shaping market offers, branding, and more. Proctored exam. 3 semester credits

MKT 525 – Integrated Retail Management

This course presents an integrated approach to retail management that includes a combination of activities associated with selling goods and providing services directly to the final consumer for personal and household use. Topics include the activities of retail establishments such as retail strategy development, understanding the customer, retail information systems, market and location selection, merchandise buying and handling, financial operations management, human resource management, operations management, store layout and design, law and ethics, and retail tactics. 3 semester credits

MKT 545 – Purchasing and Supply Chain Management

This course covers the many ways supply chain performance influences operational and financial risks along with reputation risks. The challenges of managing costs containment and improvement along with revenue enhancement are emphasized. Other topics include creating a superior internal relationship and meeting knowledge management needs. 3 semester credits

MKT 558 – Global Marketing Policy

This course provides students with systematic ways to formulate effective global marketing strategies. Topics include ways to select country markets; enter markets; develop branding, product, services, pricing, distribution, and communications strategies that are global in scope; and create a global marketing organization. The analysis of the contemporary global marketing environment, marketing mix issues and decisions in international markets, global competitive analysis and strategy, organizing for international marketing, current problems and practices in multinational firms are also included. 3 semester credits

MKT 640 – e-Commerce Models and Applications

This course covers the essentials of electronic commerce from implementation to management as well as assessment of the major opportunities, limitations, issues, and risks. It covers systematic knowledge of e-commerce environments from a technological and business strategy and marketing viewpoint. It embarks on appraising emerging technologies in all aspects of e-commerce and legislative developments. Upshots are based on three broad areas such as cognitive knowledge, managerial know-how, and technical skills. The course provides the entrepreneur with necessary skills to

develop entrepreneurship qualities, create, articulate, and market an E-Commerce initiative, as well as developing leadership skills. Proctored exam. 3 semester credits

MKT 645 – Marketing Research in Consumer Behavior

This course explores consumer behaviors and their influences upon marketing, advertising, communications, and decision-making processes involving market research. Students build practical and useful skills involving the creation

of a qualitative marketing plan able to collect primary and secondary data involving traditional (offline) and modern (online) audiences. The course culminates with the creation and presentation of a qualitative marketing plan. 3 semester units

STANDARD OCCUPATIONAL CLASSIFICATION CODES

Pursuant to the revised 2017 regulations from the Bureau for Private Postsecondary Education (BPPE), we are required to provide Standard Occupational Classification (SOC) codes. The SOC system is used by Federal statistical agencies to classify workers into occupational categories for the purpose of collecting, calculating, or disseminating data. All workers are classified into one of 840 detailed occupations according to their occupational definition. Below are various occupations that may be pursued with the corresponding degree.

Program	Employment Position	Standard Occupational Classification
AABA	<u>Bookkeeping, Accounting, and Auditing Clerks</u>	43-3031.00
	<u>Executive Secretaries and Executive Administrative Assistants</u>	43-6011.00
	<u>Human Resources Assistants</u>	43-4161.00
	<u>Loan Officers</u>	13-2072.00
	<u>Procurement Clerks</u>	43-3061.00
AAGS	<u>Customer Service Representatives</u>	43-4051.00
	<u>Administrative Services Managers</u>	11-3011.00
	<u>Police, Fire, and Ambulance Dispatchers</u>	43-5031.00
	<u>Police Identification and Records Officers</u>	33-3021.02
	<u>Tellers</u>	43-3071.00
AAIT	<u>Computer User Support Specialists</u>	15-1151.00
	<u>Computer Systems Analysts</u>	15-1121.00
	<u>Computer Operators</u>	43-9011.00
BBA	<u>General and Operations Managers</u>	11-1021.00
BBA-IME	<u>General and Operations Managers</u>	11-1021.00
BBA-HCA	<u>Medical and Health Services Managers</u>	11-9111.00

BEIT-PM	Computer and Information Systems Managers	11-3021.00
BEIT-NSS	Computer and Information Systems Managers	11-3021.00

Program	Employment Position	Standard Occupational Classification
BS-MIS	Computer and Information Systems Managers	11-3021.00
	Computer Programmers	15-1131.00
MBA	Chief Executives	11.1011.00
MBA-BF	Financial Analysts	13-2051.00
	Personal Financial Advisors	13-2052.00
	Financial Examiners	13-2061.00
MBA-HCML	Medical and Health Services Managers	11-9111.00
MBA-ISKM	Computer and Information Systems Managers	11-3021.00
MBA-IMM	Marketing Managers	11-2021.00
MBA-ODHRM	Training and Development Specialists	13-1151.00
MBA-PQM	Computer and Information Systems Managers	11-3021.00
	Industrial Production Managers	11-3051.00
	Quality Control Systems Managers	11-3051.01
DBA	Chief Executives	11.1011.00
DBA-EBM	Chief Executives	11.1011.00
DBA-GBL	Chief Executives	11.1011.00
	General and Operations Managers	11-1021.00
DBA-HCML	Medical and Health Services Managers	11-9111.00
DBA-ISERM	Computer and Information Systems Managers	11-3021.00

SOC Codes are available at:

APPENDIX A: INTELLECTUAL PROPERTY

APPENDIX A: INTELLECTUAL PROPERTY

The following policy is excerpted from California Intercontinental University's internal policy manual.

Intellectual Property Policy

This policy provides guidance regarding the use and creation of intellectual property at California Intercontinental University. While the definition of intellectual property, very broadly, means the legal rights which result from intellectual activity in the industrial, scientific, literary and artistic fields, this policy is focused on products related to course and program development and instructional practices in the online learning environment. It is the responsibility of all faculty, staff, students, and anyone using the facilities or resources of California Intercontinental University to read, understand, and follow this policy.

Definitions

Copyright: The exclusive right of an author to reproduce and create derivative works from original works of authorship that are fixed in a tangible medium which are not in the Public Domain and thus, protected under United States Copyright Law Title 17 of the U.S. Code.

Covered Individuals: All individuals employed or under contract by the College, enrolled at the College, attending courses at the College, and/or using the facilities or resources of the College are subject to this policy.

Intellectual Property: Includes, but is not limited to, any works of authorship, computer software, invention, discovery, creation, know-how, trade secret, technology, scientific or technological development, research data, regardless of whether subject to legal protection such as copyright.

Public Domain: The status of work that are not protected by copyright.

Work Made for Hire: Work prepared by an employee within the scope of employment or work under contract that specifies the product to be a work for hire.

Compliance with Copyright and Intellectual Property Law

Anyone who believes that any faculty, staff, or student at the College has infringed on their rights as a copyright owner should contact the Campus President with the following information:

- Complete name, mailing address, email address, phone, and fax numbers
- Information about the copyrighted material (URL, book title, etc.)
- The URL of the College site which has the infringing material
- Any other information supporting the claim.

California Intercontinental University will apply measures to protect against unauthorized access (e.g., limiting transmission to students enrolled in a particular course) and requires that only lawfully acquired copies of copyrighted works are used.

APPENDIX B: TRADEMARK POLICY

APPENDIX B: TRADEMARK POLICY

The following policy is excerpted from California Intercontinental University's internal policy manual.

Policy on Using California Intercontinental University Logos, Trademarks and Licensed Graphics, and Web Templates

- To ensure proper use and application of California Intercontinental University trademarks
- To strengthen the California Intercontinental University brand through relationships with retailers, licensees, campus departments, student organizations, alumni, and friends

California Intercontinental University has an established policy to control the use of the name, abbreviations, symbols, emblems, logos, slogans, and other terminology associated with the University. California Intercontinental University protects and enhances its reputation by assuring that its trademarks appear only on quality products with minimal liabilities to both California Intercontinental University and any purchasers of these products. These include the use of the name, abbreviations, symbols, emblems, logos, slogans, and other terminology associated with the University. Any use of a California Intercontinental University trademarks without the University's express written consent is prohibited. Unauthorized use is a trademark infringement. Any productions or sale of unauthorized products or services is a violation of the federal Lanham Trademark Act of 1946, the federal Trademark Act of 1984. All standard graphics, photographs, and text of the California Intercontinental University Home Page and connected pages displaying the California Intercontinental University logos and logotype are copyrighted and trademarked by California Intercontinental University. Redistribution or commercial use are prohibited.

APPENDIX C: REGULATORY DISCLOSURE

APPENDIX C: REGULATORY DISCLOSURE

Pursuant to the revised 2017 regulations from the Bureau for Private Postsecondary Education (BPPE), we are required to disclose that California Intercontinental University does not have any pending petitions in bankruptcy, is not operating as a debtor in possession, has not filed a petition within the preceding five years and has not had a petition in bankruptcy filed against the institution within the preceding five years that resulted in reorganization under Chapter 11 of the United States Bankruptcy Code (11 U.S. C. Sec 1101 et seq.).
